## SUPPLEMENTAL WAGERING TAX

IC 4-33-13

ACCT. NO. 18810-415500  
through 18910-415500

**TAXPAYER:** A person or organization that holds an owner's license for riverboat gambling operations.

**TAX BASE:** Adjusted gross receipts (AGR), which are wagers minus winnings and uncollectible receivables.

**RATE:** The amount of supplemental wagering tax imposed for a particular day is determined by multiplying the riverboat's adjusted gross receipts for that day by the quotient of:

- (1) the total riverboat admissions tax (under the repealed IC 4-33-12-1) that the riverboat's licensed owner paid beginning July 1, 2016, and ending June 30, 2017; divided by
- (2) the riverboat's adjusted gross receipts beginning July 1, 2016, and ending June 30, 2017.

The rate may not exceed the following when expressed as a percentage:

- (1) 4% before July 1, 2019.
- (2) 3.5% after June 30, 2019.

The rate on licensed owner operating an inland casino in Vigo County is equal to 2.9% of the riverboat's adjusted gross receipts for the day.

**ADMINISTRATION:** Department of State Revenue

**DISTRIBUTION:** The Department of State Revenue deposits supplemental wagering tax revenue in the General Fund. Revenue from the supplemental wagering tax is distributed quarterly. The annual amount distributed to each state agency and local unit listed in the table is equal to the FY 2002 distribution of riverboat admissions tax (under the repealed IC 4-33-12-1). P.L. 233-2007 provided that the riverboat admission tax distribution to the Indiana Horse Racing Commission be deposited in the State General Fund. The distribution to the Lake County Convention and Visitor's Bureau is equal to \$1,582,992 (90% of the FY 2002 distribution). The remaining 10%, equal to \$175,888, is to be distributed to the Northwest Indiana Law Enforcement Training Center. The annual distribution amount for each state agency and local unit is guaranteed with a hold-harmless distribution from revenue from the riverboat wagering tax. The hold-harmless

distribution is capped at \$48 M. P.L. 268-2017 provides that after June 30, 2021, if the total AGR received by licensees from gambling games under the riverboat gambling law during the preceding state fiscal year is less than the total AGR received from gambling games during the state fiscal year ending June 30, 2020, then the \$48 M maximum amount of the hold-harmless distribution is reduced proportionately.

Starting FY 2014, the supplemental distribution is capped at \$48 M.

NOTE: Starting FY 2016, IC 4-33-12 requires that \$14 M in total distributions to Lake County, Gary, Hammond, and East Chicago be directly distributed to Northwest Regional Development Association (RDA). A portion of the distributions shown above for these units were transferred to the RDA to meet these requirements. Per IC 6-3.1-20-7, a portion of distribution shown above were also withheld from Lake County, Gary, East Chicago, and Hammond to pay the General Fund for Lake County Residential Income Tax Credit.

## RIVERBOAT WAGERING TAX

IC 4-33-13

ACCT. NO. 36950-415300  
through 37050-415300

**TAXPAYER:** A person or organization that holds an owner's license for riverboat gambling operations; or the operating agent of the French Lick Casino.

**TAX BASE:** Adjusted gross receipts (AGR), which are wagers minus winnings and uncollectible receivables.

**RATE:** The riverboats are subject to graduated tax rates presented in the table below. Riverboats are allowed to deduct free play credits up to \$7 M for each year until FY 2021 and up to \$9 M annually thereafter. A separate graduated tax rate schedule applies to the riverboats that had less than \$75 M of AGR during the preceding state fiscal year. An additional tax of \$2.5 M is imposed if the riverboats taxed under the alternative schedule receive AGR exceeding \$75 M in a particular state fiscal year. The French Lick Historic Tax Credit provides a credit against the wagering tax imposed on the AGR of a riverboat in a historic hotel district if the riverboat did not receive more than \$80 M of AGR during the preceding state fiscal year. The amount of the credit depends on the amount of AGR during the preceding state fiscal year. P.L. 293-2019 lowered the tax rate for certain tax brackets. The higher rate shown for the tax brackets below apply until FY 2021. The lower rate for each bracket as shown below apply starting FY 2022.

Taxable AGR Increment Earned July 1 to June 30	Tax Rate on AGR Increment At Least \$75 M in AGR	Tax Rate on AGR Increment Less Than \$75 M in AGR
\$25 M and under	10% or 15%	2.5% or 5%
Over \$25 M up to \$50 M	20%	10% or 20%
Over \$50 M up to \$75 M	25%	20% or 25%
Over \$75 M up to \$150 M	30%	30%
Over \$150 M up to \$600 M	35%	35%
Over \$600 M	40%	40%

**ADMINISTRATION:** Department of State Revenue

**REVENUE:** See table on page 40.

**DISTRIBUTION:** The Department of State Revenue deposits Wagering Tax revenue in the State Gaming Fund. Funds are first appropriated to the Indiana Gaming Commission to administer riverboat gaming. From the remaining funds, the first \$33 M each fiscal year is set aside for local revenue sharing. P.L. 268-2017 provides that after June 30, 2021, if the total AGR received by licensees from gambling games under the riverboat gambling law during the preceding state fiscal year is less than the total AGR received from gambling games during the state fiscal year ending June 30, 2020, then the \$33 M of wagering tax set aside for revenue sharing is reduced proportionately. Revenue-sharing money is distributed on a per capita basis to local units in counties that do not contain a riverboat casino. After the revenue-sharing set aside, 25% of the remainder up to the FY 2002 distribution level is distributed to the local units listed in the table. The remaining Wagering Tax revenue is distributed to the General Fund. In the event that supplemental wagering tax revenue distributed to state agencies and local units is less than the FY 2002 distributions, riverboat wagering tax revenue in the General Fund will be utilized to make up the difference.

Wagering Tax revenue collected from the French Lick Casino is distributed as follows: 56.5% is distributed to the General Fund.

The remaining 43.5% is distributed as follows:

- 11.2% to French Lick.
- 11.2% to West Baden Springs.
- 14.8% to Orange County for distribution among the school corporations in the county.
- 13.1% to Orange County.
- 5.3% to Dubois County.
- 5.3% to Crawford County.
- 6.35% to the town of Paoli.
- 6.35% to the town of Orleans.
- 26.4% to the Indiana Economic Development Corporation for transfer to Radius Indiana.
- The Wagering Tax distribution cap that applies to the other riverboats does not apply to the French Lick Casino.

- Out-of-State Vehicle Purchases

**DEDUCTIONS:** Sales of E85 (repealed effective July 2012).

**PROCEDURE:** Collected at the retail level (except for gasoline). The tax must be remitted before the 20th day after the end of the month. Retailers whose average monthly tax remittance during the preceding calendar year was less than \$1,000 must send the taxes collected within 30 days after the end of the month, unless the retailer has an individual withholding tax liability of more than \$1,000. If a person's monthly sales tax liability exceeds \$10,000, that person is required to remit payment by means of electronic fund transfer, by delivery in person, or by courier. Payment shall be made on or before the date the tax is due. Gasoline distributors, refiners, or terminal operators remit sales tax collections two times a month.

Retail merchants are allowed to retain a collection allowance if remittance is timely. The allowance is computed as a percentage of the merchant's total sales tax liability. The rates as passed in P.L. 146-2008, effective April 1, 2008, are as follows:

- (1) 0.73% if the merchant's sales tax liability accrued during the fiscal year does not exceed \$60,000;
- (2) 0.53% if the merchant's accrued liability is between \$60,000 and \$600,000; and
- (3) 0.26% with accrued liability above \$600,000.

## LOCAL INCOME TAX

IC 6-3.6

### General Information

**TAXPAYER:** An individual who on January 1 resides in a taxing county or who maintains their principal place of employment or business in the taxing county but does not reside in another county in Indiana that imposes the local income tax.

**COUNTY RESIDENCY DETERMINATION:** An individual is considered a resident local income taxpayer if the individual:

- (1) Maintains a home, if the individual maintains only one home in Indiana;
- (2) Is registered to vote;
- (3) Registers the individual's personal automobile;
- (4) Spent the majority of the individual's time in Indiana during the taxable year.

If the person changes residence to another county in Indiana during the calendar year, the local income tax liability will not be affected. However, if the person changes their residence to a county in which they begin employment or business at a qualified economic development tax project (IC 36-7-27-9), the individual's adjusted gross income attributable to earnings at the qualified economic development tax project is immediately taxable by the new county instead of being taxable beginning January 1 of the following calendar year.

**PRINCIPAL PLACE OF EMPLOYMENT OR BUSINESS DETERMINATION:** If the person does not reside in Indiana but their principal place of employment or business changes to another county in Indiana during the calendar year, the local income tax liability will not be affected. However, if the person changes their employment or business at a qualified economic development tax project (IC 36-7-27-9), the individual's adjusted gross income attributable to earnings at the qualified economic development tax project is immediately taxable by the new county instead of being taxable beginning January 1 of the following calendar year.

**TAX BASE:** Indiana individual adjusted gross income.

**DEDUCTIONS AND EXEMPTIONS:** Identical to those for the Indiana individual adjusted gross income tax.

**CREDITS:** A credit for taxes imposed by governmental entities outside of Indiana.

**RATE:** There are three rate components of the local income tax: property tax relief, expenditure, and special purpose. The maximum combined rate of the property tax relief and expenditure rate is 3.75%. (The maximum combined rate for Marion County is 4.00%). Legislation establishing a special purpose rate authorizes the county's adopting body to impose an additional rate, so the total tax rate imposed on local taxpayers could exceed either 3.75% or 4.00%.

**PROCEDURE:** The adopting body for a county is either the local income tax council or county fiscal body depending on which entity initially adopted the county adjusted gross income tax, county option income tax, or county economic development income tax. Effective dates for new rates or rate changes are as follows:

- (1) October 1 of the current year if the adoption date is January 1 through August 31.
- (2) January 1 of the following year if the adoption date is September 1 through October 31.
- (3) October 1 of the following year if the adoption date is November 1 through December 31.

Local income tax is paid to the Department of State Revenue at the same time as the Indiana adjusted gross income tax.

**ADMINISTRATION:** Auditor of State, Department of Local Government Finance, Department of State Revenue, State Budget Agency

**CERTIFIED DISTRIBUTION:** The amount of local income tax revenue distributed to a county during an ensuing calendar year equals the amount of tax the State Budget Agency determines was received from the county for a taxable year ending in a calendar year preceding the calendar year in which the determination is made and was reported on an annual or amended return processed by the Department of State Revenue in the fiscal year ending before July 1 of the calendar year in which the determination is made. The amount is adjusted for refunds made in the fiscal year. The State Budget Agency provides an estimated distribution amount before August 1 and certifies the distribution amount before October 1. The distributions are provided to the county auditor.

**ADJUSTMENTS TO CERTIFIED DISTRIBUTION:** The State Budget Agency may certify to an adopting county an amount less than the amount reported and processed if such action is necessary to offset an overpayment made in a prior calendar year's certified distribution. The certified distribution may also be adjusted to correct for any clerical or mathematical errors made in any previous certification. The State Budget Agency may reduce the amount of the certified distribution over several calendar years so that any adjustment is offset over several years rather than in one lump sum.

If a county modifies a tax rate before November 1 in the same calendar year in which the State Budget Agency determines the certification, the State Budget Agency will adjust the certified distribution provided to the county in the immediately following calendar year and each year thereafter. If the county modifies a tax rate between November 1 and December 31, the State Budget Agency will adjust the distribution provided to the county in the immediately succeeding calendar year.

**ALLOCATION OF REVENUE:** Not later than 15 days after the distribution of local income tax revenue is certified, the Department of Local Government Finance will determine for each taxing unit and notify the county auditor of the certified amount of property tax credits, school distributions, public safety revenue, economic development revenue, certified shares, and special purpose revenue to be distributed to the taxing unit in the ensuing calendar year. One-twelfth of the money of the certified distribution is distributed monthly to the county auditor. Each monthly payment of a county's certified distribution is allocated and distributed to the appropriate civil unit.

Information on the revenue allocations of specific rate components will be discussed in the following sections.

**SUPPLEMENTAL DISTRIBUTION:** Before November 2 of each year, the State Budget Agency must submit a report to each county auditor indicating the balance in the county's trust account.

Before May 2 each year, the State Budget Agency must determine if the unencumbered balance in a county's trust account exceeds 15% of the certified distribution to be made to the county in the determination year. The State Budget Agency uses the trust account balance as of December 31 of the year that precedes the determination year by two years. The supplemental distribution equals the amount of the unencumbered balance determined to be in excess of 15% of the certified distribution minus any supplemental or special distributions that have not yet been accounted for in the last known balance of the county's trust account. The supplemental distribution is allocated in the same manner as the certified distributions attributable to the taxes and rates that were in effect during the trust account balance year. The revenue must be used for its specified purpose. The Department of Local Government Finance will inform the county auditor of the allocation of the supplemental distribution before May 16.

## **PROPERTY TAX RELIEF RATE**

**PURPOSE:** The revenue collected from the property tax relief rate must be used to provide property tax credits to county property taxpayers, and it is treated as property taxes for all purposes. However, the Department of Local Government Finance may not reduce any taxing unit's maximum permissible tax levy limit or approved property tax levy or rate for any fund by the amount of credits.

**RATE:** Up to 1.25%

**ALLOCATION:** The revenue associated with this rate is used to reduce the property tax liability for a taxpayer with tangible property located in the county. The credit may be allocated to all property types or any combination of the following categories:

- Homesteads.
- Real property subject to the 2% property tax cap.
- All residential property (homesteads, nonhomestead, residential, and apartments).
- Real and personal property subject to the 3% property tax cap.

The adopting body specifies through ordinance how the tax revenue will be applied to provide property tax credits. Within each category, the property tax credit rate must be at the same percentage for all county taxpayers with property in that category. However, the credit percentage does not have to be uniform among the different property categories.

**ALLOCATION EXCEPTIONS:** In Jasper County, a taxpayer who owns an industrial facility is ineligible to receive property tax relief credits if the assessed value of an industrial plant as of March 1, 2006, exceeded 20% of the total assessed value of all property in Jasper County on that date.

Lake County may adopt one of three alternative distribution methods: (1) revenue is used to proportionately reduce property tax levies; (2) revenue collected within a local unit is used to provide a uniform property tax credit in that unit; or (3) 60% of the revenue is used as described in (2) above and the remainder distributed to the county, townships, and municipalities on a per capita basis to reduce the units' property tax levies.

\*Based on CY 2020 Local Income Tax Certified Distribution Estimates as of October 1, 2019, revised November 18, 2019, and rates effective on January 1, 2020.

**EXPENDITURE RATE**

**PURPOSE:** After an initial allocation, the additional revenue collected from the expenditure rate may be allocated for public safety, economic development, or as certified shares. The allocation is established by ordinance adopted by the county's adopting body.

**RATE:** Up to 2.5%; 2.75% for Marion County

**INITIAL ALLOCATIONS:** Levy Freeze: Counties that imposed a local option income tax to provide for a levy freeze must distribute the revenue associated with the former levy freeze rate before any other expenditure rate distributions. The associated revenue allows local governments to "freeze" their property tax levies and use the income tax revenue for budget increases. The levy freeze revenue is administered in the same manner as under the former income tax law.

County Public Safety Answering Point (PSAP) Tax Rate: If the adopting body is a local income tax council and the council did not allocate at least 0.1% of the expenditure rate revenue to pay for a PSAP, the county fiscal body may adopt an ordinance to impose a tax rate for a PSAP. The tax rate must be in increments of 0.01%, may not exceed 0.1%, and it is not additional rate capacity. The revenue derived from this rate is distributed to the county before the determination of additional revenue.

County Correctional Facilities and Rehabilitation Facilities Tax Rate: The county fiscal body may adopt an ordinance to impose a tax rate for up to 22 years to pay for correctional facilities and rehabilitation facilities in the county. The tax rate must be in increments of 0.01%, may not exceed 0.2%, and it is not additional rate capacity. For ordinances adopted after June 30, 2019, not more than 20% of the revenue from the imposed tax may be used for operating expenses for correctional facilities and rehabilitation facilities in the county. The revenue derived from this rate is distributed to the county before the determination of additional revenue.

School Corporation and Civil Unit Distribution IC 6-3.6-6-3(a)(2): Counties that adopted the county adjusted gross income tax prior to its repeal must allocate the revenue associated with the first 0.25% of the expenditure rate to school corporations and civil taxing units. The credits are distributed based on each unit's allocation amount.

PURPOSE: The additional revenue associated with the expenditure rate, after the initial distributions, may be dedicated to the following purposes:

Public Safety revenue may be used to fund police or fire protection, emergency medical services, corrections, pension payments, or other public safety functions.

Economic Development revenue may be used for economic development, capital projects, private developer loan interest, a regional venture capital fund, or any lawful purpose for which money in any of its other funds may be used.

Certified Shares may be used for any of the purposes of the civil taxing unit.

ALLOCATION: Public Safety revenue is allocated to the county unit and those municipalities that provide a qualifying public safety service. The revenue is allocated based on the unit's share of the attributed allocation amount of all the qualifying units. However, if the county imposed a public safety rate under the former county option income tax, the unit's property tax levy is the basis of the allocation. A fire department, volunteer fire department, or emergency medical services provider not otherwise entitled to a distribution may apply to the adopting body for a distribution.

Economic Development revenue is allocated to the county unit, cities, and towns. The allocation is based on the unit's share of the total property taxes imposed plus, for the county unit, the welfare allocation amount. However, a county adopting body may elect to allocate economic development revenue based on population.

Certified Shares are allocated to all civil units except school corporations and solid waste management districts. However, the adopting body may pass a resolution to include solid waste management districts in the distribution. The revenue distribution is determined by the unit's share of the total attributed allocation amount.

The attributed allocation amount is derived by combining the total property taxes imposed by the civil unit, the certified shares and LPTRC received by the civil unit in the previous year, and in the case of the county unit, the welfare allocation amount. The welfare allocation amount is the property taxes imposed by the county in 1999 for the county's welfare fund and welfare administration funds and, if the county received a certified distribution of the former local option income taxes in 2008, the property taxes imposed by the county in 2008 for the county's county medical assistance to wards fund, family and children's fund, children's psychiatric residential treatment services fund, county hospital care for the indigent fund, and children with special health care needs fund. This amount is reduced by the property tax levy for all debt service incurred by the unit after June 30, 2005.

#### ALLOCATION EXCEPTIONS:

Counties that dedicate a portion of their expenditure rate revenue for public safety purposes may choose to allocate part or all of the associated certified distribution to fund a PSAP that is part of the statewide 911 system or for the operation of a public communication system and computer facilities district. The revenue is distributed to the PSAP or Marion County before the remaining public safety revenue is allocated.

Porter County has the authority to transfer a portion for their economic development allocation to the Northwest Indiana Regional Development Authority. The transfer equals the first \$3.5 M of the revenue associated with an economic development tax rate increase made after April 30, 2005. The remaining revenue associated with the rate increase must be used to fund homestead credits. LaPorte County has the same authority if they choose to increase the economic development expenditure rate allocation. The DLGF withholds a portion of Lake County's economic development allocation to be distributed to the Northwest Indiana Regional Development Authority.

For Marion County, the certified shares are distributed according to the schedule in IC 6-3.6-11-5, with excess money distributed to those units whose share of property taxes imposed is greater than its respective factor in IC 6-3.6-11-5.

## SPECIAL PURPOSE RATES

**PURPOSE:** Special purpose rates are additional tax rates authorized by the General Assembly for a specific purpose for a particular county. The special purpose rates provide additional revenue capacity above the property tax relief and expenditure rates. The special purpose rates may provide revenue for the debt service or operating revenue for specific projects. The terms of the bonds or leases entered into with special purpose revenue may not exceed 20 years unless the authorizing statute specifies a different term.

**RATE:** Once authorized, the adopting body may pass an ordinance to impose a rate. The table below contains the authorized special purpose rates by county, along with the purpose and current rate.

**ALLOCATION:** A local unit that receives a distribution of special purpose revenue must deposit the tax in a separate account or fund. The revenue may only be used for the purposes for which the tax was imposed.

<sup>1</sup>Johnson County reports revenue to the state only until the \$5 M cap for annual collections transferred to the MCCIB is reached. Therefore, the revenue amount shown does not represent a full year of collections.

<sup>2</sup>Tax was effective beginning February 1, 2018.

<sup>3</sup>Tax was effective beginning September 1, 2018.

**DISTRIBUTION:** Revenue from the tax is paid monthly by the State Treasurer to the county or municipality upon warrants issued by the State Auditor.

For counties that have adopted the food and beverage tax under IC 6-9-35, 50% of revenue collections is transferred to the Marion County Capital Improvement Board (MCCIB) to construct the Marion County stadium and to expand and improve the Indiana Convention Center. If total annual collections transferred to the MCCIB reach \$5 M, any revenue transferred to the MCCIB in excess of \$5 M is returned to those counties.

The remaining 50% is retained by the county to assist with its budget or reduce the property tax levy. This revenue may also be used for any legal or corporate purpose, including issuing bonds and entering leases. Upon retirement of debt incurred by the MCCIB for the stadium and convention center, the local unit retains 100% of revenue collected until the tax is repealed.

## DEFINITION OF PROPERTY TAX TERMS

**Abstract Assessed Value:** The actual value used to create tax bills. TIF allocations, withheld assessed value, and changes to assessments after assessed value is certified can cause abstract assessed value to differ from certified assessed value.

**Abstract Levy:** The product of the abstract net assessed value multiplied by the tax rate.

**Assessed Valuation:** Assessed value equals 100% of true tax value.

**Budget Appropriation:** A taxing unit's legal authority to spend money, as certified by the Department of Local Government Finance (DLGF).

**Certified Assessed Value:** A taxing unit's net assessed value certified by the county auditor for use in preparing budgets and calculating tax rates.

**Certified Levy:** The property tax levy that is certified by the DLGF at the time the unit's budget is approved. The levy is the total amount of income expected to be raised from property taxes by a governmental unit (before tax cap credits).

**County Abstract:** The document used by the county auditor to summarize by taxing district, assessed values, deductions, exemptions, and taxes charged based on actual property tax billings.

**Personal Property:** Tangible property not permanently affixed to and a part of real estate. Includes business depreciable property and most mobile homes.

**Real Property:** Land and improvements considered permanent fixtures. Gaming riverboats and some mobile homes are also assessed as real property.

**Tax Base:** The total certified net assessed valuation of real and personal property.

**Tax Rate:** Expressed as a dollar rate per \$100 of assessed value (i.e., \$1.50 per \$100 AV).  $\text{Tax Rate} = \text{Certified Levy} / \text{Certified Assessed Value} \times 100$ .

**True Tax Value:** The term used in determining the assessed valuation of property. The rules of the DLGF are the basis for determining the true tax value of real and personal property.

## LOCAL PROPERTY TAXES

### IC 6-1.1

**TAXPAYER:** Owners of real property and tangible personal property located in Indiana on the assessment date. The assessment date is January 1.

**TAX BASE:** The property tax is imposed on real property and on certain types of personal property. Personal property subject to assessment includes the following: machinery and equipment; advertising devices, such as billboards located on real property not owned by the owner of the devices; airplanes not subject to the Aircraft Excise Tax; mobile homes not on a permanent foundation; and equipment or machine foundations not supporting a building.

**EXEMPTIONS:** Property owned by the following entities may be partially or totally exempt: government; corporations organized to perpetuate the memory of soldiers and sailors; nonprofit corporations organized to promote the fine arts; public libraries; fraternal benefit associations; college fraternities and sororities; not-for-profit water companies and sewage disposal companies; air and water pollution equipment; property used for educational, scientific, literary, religious, or charitable purposes; county or district agricultural associations; and cemetery corporations, firms, or associations. Specifically named organizations include YMCA, YWCA, Salvation Army, K of C, YMHA, Boy Scouts, Girl Scouts, DAV, VFW, American Legion, and American War Veterans.

Additional exemptions include the following: real property used to dispense gratuitously medicine and medical advice by an entity that exists for that purpose; certain federally qualified health centers; all inventory; property owned by an Indiana nonprofit corporation and used in the operation of a licensed health care facility, a residential facility for the aged, or a Christian Science home or sanatorium; hospital property used to furnish goods or services to other hospitals, property owned by a shared hospital services organization; personal property owned by a coal mining operation used to meet reclamation standards; and certain for-profit early childhood education providers.

Business personal property is exempt if the total acquisition cost of all of a taxpayer's personal property in the county is less than \$40,000. Counties may opt to exempt all newly acquired personal property in the county.

In addition, qualified wildlife habitat or riparian land may be classified and assessed at \$13.29 per acre. Land classified as a filter strip or a windbreak is assessed at \$13.29 per acre.

**CREDITS:** A property tax credit reduces a taxpayer's net property tax liability.

**Circuit Breaker (Tax Cap) Credit:** Taxpayers are entitled to a credit if the net tax due on the property exceeds the tax cap applicable to their property. The credit is equal to the excess tax over a percentage of gross assessed value. The credit applies to all property at the following assessed value thresholds: 1% for homesteads, 2% for all other residential property, commercial apartments, and farmland; 3% for all other real and personal property.

The amount of the net tax bill that is attributable to debt incurred before July 1, 2008, in Lake and St. Joseph Counties is excluded from the calculation. This exclusion expires on January 1, 2020.

In addition, the amount of the net tax bill that is attributable to levies imposed as a result of a referendum in any county is excluded from the calculation.

Qualifying seniors receive an additional credit if (a) their homestead assessed value is less than \$200,000, (b) their income does not exceed \$30,000 (\$40,000, if married), and (c) the year-to-year increase in net tax on the homestead, after all other credits, exceeds 2%.

An owner who currently receives the credit remains eligible for the credit if the homestead's assessed value increases to an amount over \$200,000 solely because of annual adjustments (trending).

Circuit breaker credits are not funded and reduce the property tax collected and distributed to the civil taxing units and school corporations that provide service to the property receiving the credit. Taxing units are required to make all debt payments.

**DEDUCTIONS:** A property tax deduction reduces the taxable assessed value of property, resulting in the net assessed value amount. Property tax deductions are described in the table following this section.

**CURRENT PROPERTY TAX CONTROLS:** A civil taxing unit's maximum permissible tax levy for controlled funds is equal to the previous year's maximum levy, increased by the six-year average growth in Indiana nonfarm personal income (AVGQ). Civil units may file petitions with the DLGF for increases in maximum levies. The DLGF may grant permission, under IC 6-1.1-18.5-13, 13.7, 13.8, 16, 22.3, 23.2, and 26, for a civil taxing unit to increase its levy in excess of limitations for any of the following reasons:

- Costs resulting from annexation, consolidation, or extension of services.
- Assessed value growth exceeding the AVGQ be at least 2%.
- Shortfalls due to erroneous assessed value or refunds based on appeals.
- Relief if a civil taxing unit cannot carry out its governmental function under the levy limitations due to a natural disaster, an accident, or another unanticipated emergency.
- Amounts related to Goshen's pre-1977 police and fire pensions.
- Fairfield Township in Tippecanoe County may receive an increase of up to \$130,000.
- Brown County may receive up to \$478,115 in each of 2016 and 2017 to compensate for budget approval issues in 2013 and 2014.
- Green Township in Hancock County may, beginning in 2020, receive an increase to restore the maximum levy amount lost between 2003 and 2019. The increase is limited to \$25,000.
- Clark County may receive an increase to replace ongoing Judgment Funding bond issues.
- Highland Township in Greene County may increase its township maximum levy to \$18,000 in 2020.
- Taylor Township in Greene County may increase its township maximum levy to \$29,000 and its fire protection maximum levy to \$34,000 in 2020.
- The North Harrison Fire Protection Territory may receive a one-time increase in 2020 in the amount of the amount not levied in 2019.

School corporation operations fund maximum levy growth is also limited to the AVGQ. School corporations with a 3 year average assessed value growth that exceeds the AVGQ by at least 2% will receive an additional maximum levy increase.

Under IC 20-46-8-3, the DLGF may grant permission to a school corporation to raise its operations levy in excess of limitations if at least one of several transportation-related expense conditions exist.

**PROCEDURE:** Property tax payments are based on net assessed value, tax rates, and property tax credits. Local assessors determine the assessed value of real and personal property annually. New improvements are assessed in the year they are made. Annual adjustments are made to real property values (trending). One-fourth of real property is reassessed each year (cyclical reassessment).

The DLGF reviews budgets, tax rates, and levies of all political subdivisions and certifies its action by December 31 of the prior year. County treasurers collect the tax payments in May and November. If the property has an annual tax liability less than \$25, the county legislative body may require the taxpayer to make one annual payment before May 10. The Indiana Board of Tax Review, Indiana Tax Court, and Indiana Supreme Court review assessments upon appeal.

IC 6-6-6.5

ACCT. NO. 48030-413100, 417590

**TAXPAYER:** Owners of aircraft required to be registered with the Department of State Revenue.

**RATE:** The weight, class, and age of the aircraft determine taxes owed.

Class A	Piston-driven
Class B	Piston-driven, pressurized
Class C	Turbine-driven
Class D	Homebuilt, gliders, or hot air balloons

Age	Class A Per Pound	Class B Per Pound	Class C Per Pound	Class D Per Pound
0-4	\$0.04	\$0.065	\$0.09	\$0.0175
5-8	\$0.035	\$0.055	\$0.08	\$0.015
9-12	\$0.03	\$0.05	\$0.07	\$0.0125
13-16	\$0.025	\$0.025	\$0.025	\$0.01
17-25	\$0.02	\$0.02	\$0.02	\$0.0075
over 25	\$0.01	\$0.01	\$0.01	\$0.005

**EXEMPTIONS:** Aircraft owned and exclusively used by governmental entities; aircraft owned by nonresidents and registered out of state (however, these aircraft are not exempt if operated in Indiana more than 60 days); aircraft which federal law or the U.S. Constitution prohibit Indiana from taxing; and aircraft owned by nonresident air carriers or air taxis.

**CREDITS:** Any excess disabled veteran property tax deductions not used against the veteran's property or motor vehicles.

**PROCEDURE:** The excise tax must be paid before the aircraft can be registered. When an aircraft is acquired after the annual registration date, the excise tax is reduced by 10% for each calendar month after the registration date. When an aircraft is sold by an owner who has paid the excise tax, a credit of 10% per month may be applied to the tax due on any aircraft purchased in the same year.

**ADMINISTRATION:** Aeronautics Section, Department of State Revenue

REVENUE:	FY 2015	\$551,318
	FY 2016*	\$47,767

	FY 2018	\$237,653
	FY 2019	\$572,544

\*Drop in revenue reflects a shift in the tax payment due date. In addition, FY 2016 revenue does not include \$806 received from the 2015 tax amnesty program (Fund 1000-19600).

\*\*Increase in FY 2017 revenue due to shift in the tax payment due date.

**DISTRIBUTION:** Revenues are distributed on a quarterly basis to the county where the aircraft is usually located when it is not being operated. However, in Allen County, the funds go to the Fort Wayne Airport Authority quarterly.

## AUTO RENTAL EXCISE TAX

IC 6-6-9

ACCT. NO. 45050-413200

**TAX BASE:** The gross retail income the retail merchant receives for the rental.

**RATE:** 4% of the gross retail income from the transaction.

**PROCEDURE:** Same manner as the Sales Tax.

**EXEMPTIONS:** Trucks weighing over 11,000 lbs., vehicles leased as part of a funeral, and the sharing of passenger motor vehicles and trucks through a peer to peer vehicle sharing program. (Shared vehicles will be subject to the Vehicle Sharing Excise Tax beginning Jan. 1, 2020.)

**ADMINISTRATION:** Department of State Revenue

REVENUE:	FY 2015	\$12,543,768
	FY 2016*	\$13,172,014
	FY 2017	\$13,912,072
	FY 2018	\$13,738,811
	FY 2019	\$14,949,878

\*FY 2016 revenue does not include \$18 received from the 2015 tax amnesty program (Fund 1000-19600).

**DISTRIBUTION:** On or before May 20 and November 20, all amounts held in the Auto Rental Excise Tax Account are distributed to counties. The amount distributed equals that part of the tax initially imposed and collected from within the county. The county auditor apportions and the county treasurer distributes the taxes among the taxing units in the county. The distribution will be in the same manner that property taxes are apportioned and distributed within the taxing district where the tax is collected.

## COMMERCIAL VEHICLE EXCISE TAX

IC 6-6-5.5

ACCT. NO. 75115-413300

**TAXPAYER:** Owners of Indiana-based and out-of-state vehicles subject to International Registration Plan (IRP) registration and owners of Indiana-based trucks and tractors over 11,000 lbs., trailers over 9,000 lbs., semitrailers, and truck-tractors subject to registration with the Bureau of Motor Vehicles.

**TAX BASE:** Vehicle registration fee based on the plated weight of the vehicle.

**RATE:** The tax rate is set annually by dividing the predetermined base revenue amount (revenue collected in previous fiscal year) by the amount of total commercial vehicle registration fees received in the previous fiscal year. The resulting factor is applied to the current statutory registration fees to determine the Commercial Vehicle Excise Tax (CVET) amount. IRP registration fees are apportioned based on interstate mileage, resulting in a mileage apportionment for CVET as well. CVET is reduced by 50% for farm vehicles.

**PROCEDURE:** The Bureau of Motor Vehicles is required to collect the CVET paid by owners of intrastate commercial vehicles, and the Department of State Revenue is required to collect the tax paid by owners of interstate commercial vehicles. Tax owed by out-of-state-based commercial vehicles is collected by the IRP authority in the state of registration.

Tax collections are placed in the Commercial Vehicle Excise Tax Fund and distributed by the Auditor of State to the county auditors for distribution to local units. A portion of the revenue is retained by the state.

**EXEMPTIONS:** Vehicles owned or leased by the federal, state, or local government, volunteer fire departments or ambulance service, mobile homes, motor homes, vehicles assessed under the public utility tax, buses subject to IRP registration, vehicles subject to the motor vehicle excise tax, vehicles owned or leased by an institution of higher education, farm wagons, and vehicles held in inventory.

CY 2014	\$57,558,506	\$17,168,101	\$40,390,405
CY 2015	\$64,640,337	\$19,280,421	\$45,359,916

CY 2018	\$54,154,718	\$16,152,829	\$38,001,889

**ADMINISTRATION:** Department of State Revenue; Bureau of Motor Vehicles

County Motor Vehicle Excise Surtax: IC 6-3.5-4

County Wheel Tax: IC 6-3.5-5

### **TAXPAYER:**

Excise Surtax: Owners of vehicles liable for the Motor Vehicle Excise Tax who reside in a county that imposes the tax.

Wheel Tax: Owners of other classes of vehicles who reside in a county that imposes the tax.

### **TAX BASE:**

Excise Surtax: Passenger cars, motorcycles, motor-driven cycles, collector vehicles, mini-trucks, privately-owned military vehicles, trucks with a gross weight of 11,000 lbs. or less, and trailers with a gross weight of 9,000 lbs. or less.

Wheel Tax: Buses, recreational vehicles, semi-trailers, tractors, trailers over 9,000 lbs., and trucks not subject to the Excise Surtax.

### **RATES:**

Excise Surtax: Adopting counties may impose the Surtax at rates ranging between 2% and 10% of the excise tax that would have been due under the pre-1996 excise tax rate table. However, the Surtax may not be less than \$7.50. Counties also have the option of imposing a flat fee. The fee must be at least \$7.50 and may not exceed \$25. For counties using a transportation management plan, the maximum percentage rate is increased to 20% and the maximum flat rate is increased to \$50.

Wheel Tax: Adopting counties may impose different tax rates for each particular class of vehicle, and for each weight classification within the class of vehicle. The rate must be between \$5 and \$40. The maximum rate is increased to \$80 for counties using a transportation management plan.

PROCEDURE: The County Surtax and Wheel Tax may be adopted by either the county council or the county income tax council. Both taxes must be adopted or rescinded simultaneously.

The County Surtax or Wheel Tax is paid when the vehicle is registered. \$0.15 of the tax collected for each transaction is deposited in the BMV Commission Fund, if collected by the BMV; or in the Motor Carrier Regulation Fund if collected by the Department of State Revenue.

### **EXEMPTIONS:**

Excise Surtax: Vehicles owned or leased by federal, state, or local government; vehicles held in inventory by manufacturers, dealers, and distributors; vehicles owned or leased and operated by an institution of higher education; and vehicles subject to the County Wheel Tax.

Wheel Tax: Vehicles owned by the state, one of its agencies, or a political subdivision; buses owned by a religious or nonprofit youth organization; and vehicles liable for the County Surtax.

ADMINISTRATION: License branches and the Department of State Revenue are responsible for collecting the taxes.

DISTRIBUTION: The county auditor allocates money in the Excise Surtax Fund and Wheel Tax Fund to each city, town, and county based on the formula for the Local Road and Street Account. Revenue is used to construct, reconstruct, repair, or maintain streets and roads. It may also be used for the county's, city's, or town's contribution to obtain a grant from the state's Local Road and Bridge Matching Grant Fund under IC 8-23-30. In Marion County, the city-county council may appropriate surtax revenue to the Indianapolis Department of Transportation.

P.L. 88-1981 authorizes 10 counties to issue bonds for road and bridge repairs. Eligible counties are Crawford, Daviess, Dubois, Gibson, Martin, Perry, Pike, Posey, Spencer, and Warrick. The county may issue bonds only if the County Motor Vehicle Excise Surtax and Wheel Tax are in effect at maximum allowable rates. Revenue is used to pay the principal and interest due on those bonds during the budget year.

## MOTOR VEHICLE EXCISE TAX

IC 6-6-5

**TAXPAYER:** Owners of passenger cars, motorcycles, motor-driven cycles, and trucks with a declared gross weight of 11,000 lbs. or less.

**TAX BASE:** The vehicle's value in the first year in which it is offered for sale as a new vehicle in Indiana and year of manufacture. For vehicles beginning with the 1990 model year, the first year value is adjusted for inflation.

**RATE:** The Excise Tax rate schedule that follows was first effective for calendar year 1996. Exceptions to the rate schedule are:

- (1) \$8 for trailers up to 9,000 lbs.;
- (2) \$10 for motor driven cycles;
- (3) \$30 for mini-trucks;
- (4) \$8 for military-type vehicles; and
- (5) \$12 for vehicles manufactured before 1981.

Beginning in 1996, most Excise Tax rates were reduced by up to 50%. Rates greater than \$100 were reduced by 50%. Rates between \$50 and \$100 were reduced to \$50. Rates under \$50 were not changed.

Transfers from the Lottery Surplus Fund replace part of the local lost revenue due to the reduced rates (IC 4-30-17-3.5). The scheduled transfer amount is \$236,212,440 per year. In addition, there is a \$203,688 annual transfer from the General Fund.

**EXEMPTIONS:** Vehicles owned or leased by the federal, state, or local government; mobile homes, motor homes, trucks weighing over 11,000 lbs., trailers, semi-trailers, tractors, and buses; vehicles held in inventory by manufacturers, dealers, and distributors; and vehicles owned or leased and operated by an institution of higher education.

Most vehicles not subject to the Excise Tax and not owned by federal, state, and local governments are subject to the Commercial Vehicle Excise Tax or the RV and Truck Camper Excise Tax.

**STATE EXCISE TAX CAPTURE:** The state retains a portion of motor vehicle excise tax. The amount retained is proportional to the former property tax levies for welfare, children's welfare, school operating, and the health care for the indigent fund that the state assumed in CY 2009.

**CREDITS:** Credit is applied to a newly purchased vehicle when a person sells a vehicle. If an individual sells a vehicle and does not purchase another vehicle, or if the amount of the credit to be applied to a newly purchased vehicle exceeds the amount of tax owed on the newly purchased vehicle by \$4 or more, then a refund is issued by the Bureau of Motor Vehicles. \$3 of the refund is deducted and transferred to the Bureau of Motor Vehicles Commission.

A disabled veteran or surviving spouse who does not use the full amount of the \$24,960 or \$14,000 property tax deductions provided by IC 6-1.1-12-13 and IC 6-1.1-12-14, respectively, or \$18,720 property tax deduction allowed by IC 6-1.1-12-16 for surviving spouses of WWI veterans to reduce the assessed value of tangible property is entitled to an Auto Excise Tax credit. The credit is \$2 for each \$100 of unused property tax deduction. Qualified veterans or surviving spouses who do not own property are eligible for a credit of \$70 per vehicle for up to two vehicles.

An owner of a motor vehicle totally destroyed and not replaced may receive a credit equal to 1/12 of the tax paid for each full month remaining in the registration year. An owner of passenger vehicles or trucks who regularly rents those vehicles for 30 days or less to an individual is entitled to a credit for the Motor Vehicle Excise Tax paid for those rented vehicles. The credit is equal to the lesser of the Excise Tax liability due for those vehicles in a registration year or the total Auto Rental Excise taxes collected by the owner during the immediately preceding registration year.

Refunds for Excise Tax may be processed for name changes, destroyed vehicles, or vehicles registered out of state for same period of time tax was paid to Indiana with supporting documents. The owner of a vehicle registered with the Bureau is entitled to a refund of taxes paid if after the owner's regular registration date:

- (1) the owner registers the vehicle for use in another state; and
- (2) the owner pays tax for use of the vehicle to another state for the same time period which the tax was paid under this chapter.

The refund provided under this section is equal to:

- (1) the annual license excise tax paid for use of the vehicle by the owner of the vehicle for the year; minus
- (2) 1/12 of the annual license excise tax paid for use of the vehicle for each full or partial calendar month between the date the annual license excise tax was due and the date the owner registered the vehicle for use in another state.

A \$3 fee is assessed by the Bureau of Motor Vehicles for all refund transactions.

PROCEDURE: The excise tax must be paid when the vehicle is required to be registered according to the following annual registration chart.

Vehicle age equals the current calendar year minus the vehicle's model year.

DISTRIBUTION: Net local revenues are allocated to the taxing district in which the registrant resides. The revenues are then distributed to the taxing units of that taxing district in the same manner and at the same time that property taxes are distributed. A portion of the revenue is retained by the state as described above. A \$1.70 service charge per vehicle is retained and deposited in the Bureau of Motor Vehicles Commission Fund.

## RECREATIONAL VEHICLE AND TRUCK CAMPER EXCISE TAX

IC 6-6-5.1

**TAXPAYER:** Owners of recreational vehicles (RV) and truck campers.

**TAX BASE:** The RV or truck camper's value when first offered for sale in Indiana and year of manufacture.

**RATE:** The RV Excise Tax rate schedule that follows is based on the value when new and the age of the RV or truck camper.

**EXEMPTIONS:** Vehicles owned or leased by the federal, state, or local government, or volunteer fire departments; mobile homes; vehicles subject to the motor vehicle excise tax or commercial vehicle excise tax; vehicles held in inventory by manufacturers, dealers, and distributors; and vehicles owned or leased and operated by an institution of higher education.

**CREDITS:** Credit is applied to a newly purchased RV or truck camper when a person sells a vehicle. If an individual sells an RV or truck camper and does not purchase another RV or truck camper, or if the amount of the credit to be applied to a newly purchased RV or truck camper exceeds the amount of tax owed on the newly purchased RV or truck camper by at least \$4, then a refund is issued by the Bureau of Motor Vehicles. \$3 of the refund is deducted and transferred to the Bureau of Motor Vehicles Commission. An owner of an RV or truck camper that is totally destroyed and not replaced may receive a credit equal to 1/12 of the tax paid for each full month remaining in the registration year.

Refunds may be processed for (1) name changes, (2) destroyed vehicles, or (3) vehicles registered out of state for the same period of time tax was paid to Indiana with supporting documents. The refund provided under this section is equal to:

- (1) The annual tax paid for use of the RV or truck camper by the owner for the year; minus
- (2) 1/12 of the tax paid for use of the RV or truck camper for each full or partial calendar month between the date the tax was due and the date the owner registered the RV or truck camper for use in another state.

**PROCEDURE:** The RV Excise Tax must be paid when the RV or truck camper is required to be registered. See Registration Date Chart for Motor Vehicle Excise Tax. Payment is made to a license branch in the vehicle owner's county of residence. Vehicle age equals the current calendar year minus the vehicle's model year.

When an RV or truck camper is acquired after the annual registration date, the excise tax is reduced by 1/12 for each calendar month after the registration date.

## WATERCRAFT EXCISE TAX

IC 6-6-11

**TAXPAYER:** Owners of motorized boats and sailboats.

**TAX BASE:** The boat's base or factory-advertised delivered price and year of manufacture.

**RATE:** The amount of boat excise tax that a boat owner pays for a boating year is based on the boat's class and age. Motorized boats and sailboats are classified for excise tax purposes according to the value of the boat when the boat was new. The amount of excise tax for a boating year that is imposed for a motorized boat or sailboat is set forth in the following table.

Motorized Boat's or Sailboat's Value When New			
Class	At Least	but Less Than	Tax Due
1	\$0.01	\$500	\$2
2	500	1,000	6
3	1,000	1,500	20
4	1,500	2,000	30
5	2,000	3,000	42
6	3,000	5,000	55
7	5,000	7,500	70
8	7,500	10,000	88
9	10,000	15,000	110
10	15,000	22,500	150
11	22,500	35,000	200
12	35,000	50,000	275
13	50,000	75,000	375
14	75,000	or more	500

**PROCEDURE:** For Class 3 through 14 boats, the boat excise tax is reduced by 10% for each year since the model year of the boat but not to exceed 50%. A boat owner must pay the boat excise tax and the Department of Natural Resources' fee for a boating year to the Bureau of Motor Vehicles. The tax and fees must be paid at the same time that the boat owner pays or would pay the registration fee and motor vehicle excise taxes on motor vehicles under IC 9-18 and IC 6-6-5.

For a boat acquired or brought into Indiana after the regular annual tax payment date in the boating year on or before which the owner is required to pay the tax, the tax is due no later than the 32nd day after the boat is operating in Indiana, if the boat is registered in Indiana, or the 22nd consecutive day during the boating year that the boat is stored in Indiana or operated, used, or docked in Indiana. If the motorboat is docked on the Indiana part of Lake Michigan and is registered outside of Indiana, the payment must be made no later than the 181st day the motorboat is docked there. The amount of the excise tax to be paid by the owner for the remainder of the year shall be reduced by 1/12 for each full calendar month which has elapsed since the regular annual tax payment date.

Additionally, the excise tax is equal to \$12 for a motorized boat or a sailboat that is stored in Indiana for at least 60 consecutive days but not operated, used, or docked in Indiana waters.

**EXEMPTIONS:** Boats owned by the federal, state, or local government; by an organization exempt from federal income taxation under 501(c)(3) of the Internal Revenue Code; a human-powered vessel, as determined by the Department of Natural Resources; held by a boat manufacturer, distributor, or dealer for sale in the ordinary course of business; used for the production of income and subject to assessment under IC 6-1.1; stored in Indiana for less than 22 consecutive days and not operated, used, or docked in Indiana; registered outside Indiana and operated, used, or docked in Indiana for a combined total of less than 22 days during the boating year; registered outside Indiana and docked on the Indiana part of Lake Michigan for a combined total of not more than 180 consecutive days; or subject to the Commercial Vessel Tonnage Tax under IC 6-6-6.

**CREDITS AND REFUNDS:** The owner of a boat who sells or otherwise disposes of the boat in a year in which the boat owner has paid the watercraft excise tax is entitled to receive a credit equal to the remainder of the tax paid for the boat; minus 1/12 for each full or partial calendar month that has elapsed from the date the tax was due to the date of the sale, destruction, or other disposal of the boat.

If the credit is not fully used within 90 days after the date of the sale, destruction, or other disposal of the boat and the amount of the credit is at least \$4, the Bureau of Motor Vehicles shall issue a refund to the owner in the amount of the unused credit, less a fee of \$3 to cover the costs of processing the refund. The Bureau of Motor Vehicles shall deposit the processing fee in the Commission Fund.

ACCT. NO. 30138-425003

REVENUE BASE: Individuals convicted of two or more traffic offenses within a 12-month period may be required to complete a BMV-approved Driver Safety Program (DSP). Individuals under 21 years of age are required to complete a DSP if they are convicted of two or more traffic offenses, involved in two or more accidents, or a combination of the two. When the BMV is notified of these convictions, a DSP course must be completed within 90 days or driving privileges will be suspended. Notification of this requirement is mailed from the BMV. A court may also require an individual to complete a DSP course and use this requirement as an alternative to suspension of driving privileges. However, the court order may not specifically require participation in a BMV-approved DSP.

The BMV has approved a variety of programs offered to state motorists via vendor. The BMV no longer collects DSP fees, as these are paid by motorists directly to the instruction provider. The maximum cost for any of the BMV-approved DSP courses is \$55.

DSP curriculum is available in a classroom, DVD or online format. All of the providers have the same curriculum standards and all courses are a minimum of four hours in duration. The DSP courses do not teach an individual how to drive; however, the courses do provide information that will help improve defensive driving skills.

RATE: The BMV receives \$10 per student from vendors for classroom instruction. For those vendors that utilize internet/video instruction, the BMV receives \$20 per student.

A person who violates this provision is subject to the suspension of the person's driving license or vehicle registration, or both.

RATE: The fee for the reinstatement of a driving license that was suspended for noncompliance is as follows:

	Effective 1/1/2015*
First Suspension	\$250
Second Suspension	\$500
Third or Subsequent Suspension	\$1,000

\*New rates became effective January 1, 2015, as a result of HEA 1059 - 2014. Between July 1, 2014, and the new rate effective date, the BMV was authorized to negotiate a reduced reinstatement fee for individuals with outstanding license suspensions. These changes increased FY 2015 reinstatement fee revenue.

Courts may waive a driver's license reinstatement fee if: (1) the person who owes the fee is indigent; (2) the person who owes the fee has proof of future financial responsibility; and (3) waiver of the fee is appropriate in light of the person's character and the nature of the circumstances surrounding the suspension of the person's license.

NOTE: According to CHE, the decrease in revenue over the past several fiscal years can largely be attributed to an increase in the participation in the SARA (State Authorization Reciprocity Agreement). SARA is an arrangement to regulate distance education being offered by post-secondary educational institutions across the U.S. Indiana as a SARA state agrees to impose no additional (non-SARA) requirements on institutions from other SARA states. As more states and institutions joined SARA since 2014, the number of applications for initial and renewal of institutional authorization with no physical presence waned. Also, the number of institutions with a physical presence in the State of Indiana has dropped in that same time period.

## TOBACCO MASTER SETTLEMENT AGREEMENT

### TOBACCO MASTER SETTLEMENT AGREEMENT

IC 4-12-1-14.3

ACCT. NO. 30410-452110

REVENUE BASE: In November of 1998, the attorneys general of 46 states signed an agreement with the major cigarette companies to settle all the state lawsuits seeking to recover the Medicaid costs of treating smokers. Philip Morris, R. J. Reynolds Tobacco Company, Brown and Williamson Tobacco Company, Lorillard Inc., and Liggett and Myers signed the Master Settlement Agreement (MSA), agreeing to pay the states \$205 B through the year 2025, at which time a new agreement would need to be negotiated. The amount of money awarded to each state was based on a formula established by the state attorneys general that considered the number of smokers in a state and the amount spent on tobacco-related Medicaid expenditures.

The annual payments are subject to a number of adjustments, reductions, and offsets. The most significant of the adjustments is the volume-of-sales adjustment clause and the inflation adjustment. The volume-of-sales adjustment is based on changes in the number of cigarettes shipped within the U.S. in 1998 and 1999. As cigarette consumption decreases as a result of higher prices or anti-smoking initiatives, the payments to the states are adjusted accordingly. For every full percentage point the shipments decrease, the payments decrease by 0.98%. An annual inflationary adjustment of the higher of the consumer price index (CPI) or 3% is also made in determining the amount due to the states.

# PENSION FUNDS

## INTRODUCTION

The purpose of this section is to give the user an understanding of the basic operation of public pension funds in Indiana. Summary information and data is provided, along with the names, addresses, and phone numbers of the directors of the various funds. This section contains data through FY 2018 and reflects changes made in the public pension funds through the 2019 session of the General Assembly.

On July 1, 2011, the Indiana Public Retirement System (INPRS or System) was established by SEA 549-2011 (P.L. 23-2011).

INPRS administers the following defined benefit funds:

- Public Employees' Retirement Fund (PERF DB) established under IC 5-10.2 and IC 5-10.3.
- Indiana State Teachers' Retirement Fund (TRF DB) established under IC 5-10.2 and IC 5-10.4.
  - Teachers' Pre-1996 Account (TRF Pre-'96).
  - Teachers' 1996 Account (TRF '96).
- Indiana Judges' Retirement Fund (JRS) established under IC 33-38-6.
- State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Fund (EG&C) established under IC 5-10-5.5.
- Prosecuting Attorneys' Retirement Fund (PARF) established under IC 33-39-7.
- Legislators' Defined Benefit Fund (LE DB) established under IC 2-3.5.
- 1977 Police Officers' and Firefighters' Pension and Disability Fund ('77 Fund) established under IC 36-8-8.

INPRS administers the following defined contribution funds:

- Public Employees' Defined Contribution Plan (PERF DC).
- Teachers' Defined Contribution Plan (TRF DC).
- Legislators' Defined Contribution Fund (LE DC).

INPRS administers the following non-retirement funds:

- Local Public Safety Pension Relief Fund established under IC 5-10.3-11.
- Special Death Benefit Fund established under IC 5-10-10.

INPRS administers the following OPEB (Other Postemployment Benefits) fund:

- Retirement Medical Benefits Account (RMBA) established under 5-10-8.5-11.

Public Plans not administered by INPRS:

- Old Police and Fire Funds established under IC 36-7-7.5 and IC 36-8-6, 7.
- Sheriff's Pension Trust Funds established under IC 36-8-10.
- State Police Benefit System established under IC 10-12.
- Governor and Surviving Spouse Pension established under IC 4-3-3.
- Public Employees' Deferred Compensation Plan (Hoosier S.T.A.R.T.) established under 5-10-1.1.
- Other plans established by political subdivisions.

Political subdivisions must report information on various plans they maintain to the State Board of Accounts annually. This data is available via the Indiana Gateway for Government Units at <https://gateway.ifonline.org>. After July 1, 2015, local pensions may not be created for employers that are eligible to participate in PERF.

## SUMMARY OF LEGISLATION ENACTED DURING THE 2019 REGULAR SESSION

SEA 22-2019; P.L. 27

PENSION MATTERS: SEA 22 added and amended a number of miscellaneous provisions:

- Made additional conforming changes with previous legislation for the purpose of allowing a retired member of PERF or TRF to make partial withdrawals from the member's annuity savings account.
- Rephrased provisions concerning the election to begin receiving PERF or TRF benefits while employed that applies to certain elected officials and other employees who have attained the age of 70.
- Rephrased the method for calculating service credit for leaves of absence taken by PERF members.
- Provided that money in the Pension Relief Fund may be used for reasonable administrative expenses approved by INPRS.
- Rephrased certain provisions in the PERF DC and TRF DC statutes to remove references to the annuity savings accounts in PERF and TRF, which are no longer used to implement the two defined contribution plans.
- Added the PERF DC and the TRF DC to the list of public pension and retirement funds that comprise INPRS.
- Provided that assets of the JRS and PARF are exempt from legal process and that a member may assign benefit payments only for certain medical insurance premiums and association dues for certain associations.
- Specified that any postretirement benefit increase to the PERF part of a PARF benefit has no effect on the part of the retirement benefit that is paid from PARF.
- Made clarifying additions to certain provisions of the '77 Fund relating to the purchase of service credit by or on behalf of members.

SEA 85-2019; P.L. 146

RETIREMENT AND SURVIVING SPOUSE BENEFITS: SEA 85 made two changes to the '77 Fund. First, the basic monthly pension benefit payable to a member of the '77 Fund who retires after June 30, 2019, with 20 years of service, is increased from 50% to 52% of the monthly salary of a first class patrolman or firefighter (in the year the member ends active service). Second, the monthly benefit paid to the surviving spouse of a member of the '77 Fund who dies after June 30, 2019, other than in the line of duty was increased from 60% to 70% of the member's monthly benefit.

SEA 172-2019; P.L. 111

SURVIVOR HEALTH COVERAGE: SEA 172 did not amend a state or local pension plan, but it may be of interest because it provides a health insurance benefit to the survivors of a public safety officer who is killed in the line of duty. If the employer of a public safety officer who dies in the line of duty after June 30, 2017, offers health coverage for active employees, the employer shall offer to provide and pay for health coverage under the plan covering active employees for the surviving spouse and each natural child, stepchild, and adopted child of the

public safety officer. The health coverage for a surviving child continues: (1) until the child becomes 18 years of age; (2) until the child becomes 23 years of age, under certain circumstances; or (3) during the entire period of the child's physical or mental disability; whichever period is longest.

SEA 545-2019; P.L. 20

**REPORTS ON STRESS TESTS AND RISK ASSESSMENTS:** SEA 545 required INPRS to report the results of a stress test or risk assessment on any of the funds it manages to the Interim Study Committee on Pension Management Oversight. The state Treasurer is required to do the same as trustee of the State Police plan.

HEA 1001-2019 (Budget bill); P.L. 108

**TEACHERS RETIREMENT FUND APPROPRIATION:** Noncode SECTION 257 appropriates \$150 million from the state General Fund to the TRF '96 account for the purpose of lowering each school corporation's employer contributions to TRF. The reductions in employer contributions are intended to give school boards the means to provide for teacher salary increases, but the ultimate decision rests with each school board independently. Before October 1, 2019, each school board must state at a public meeting the amount by which its employer contribution to TRF is reduced and what the school board intends to do with the money.

**THIRTEENTH CHECKS:** Noncode SECTIONS 259 through 263 of HEA 1001 grant thirteenth checks in both FY 2019 and FY 2020 to eligible retirees, surviving spouses, and surviving children in the PERF, TRF, EG&C, and State Police retirement plans. The amounts prescribed for thirteenth checks to the various recipients are typically less than a recipient's regular monthly benefit.

HEA 1192-2019; P.L. 203

**THEFT BY PUBLIC SERVANTS:** If a public servant exerts unauthorized control over public funds held by the public servant's employer, HEA 1192 authorizes recovery from the public servant's retirement plan in certain cases by creating exceptions to the usual provisions that exempt a public servant employee's retirement benefits from legal process. This type of exception was part of existing law in the PERF and TRF plans, amended most recently before HEA 1192 by SEA 228-2013. HEA 1192 replicates this exception in the State Police Benefit System, the Old Police and Fire Funds, and the '77 Fund. See also, SEA 22-2019 (adding the exceptions to the JRS and PARF).

HEA 1349-2019; P.L. 86

**SUPPLEMENTARY DEATH BENEFIT:** HEA 1349 provides that when an employee beneficiary of the State Police Benefit System dies, the date of the deceased employee beneficiary's retirement from the State Police Department may not be used as a factor in determining the amount of the deceased employee beneficiary's supplementary death benefit.

## INPRS PUBLIC PENSION PLANS

### **PUBLIC EMPLOYEES' RETIREMENT FUND (PERF)**

IC 5-10.2, IC 5-10.3

TRUST ACCT. NO. 74140

The Public Employees' Retirement Fund (PERF) was established to provide retirement, disability, and survivor benefits to full-time employees of the state and to full-time employees of those political subdivisions that elect to participate. PERF is a hybrid pension system, consisting of both a conventional defined pension benefit and an annuity savings account (ASA), which is funded by member contributions. Upon retirement, a member may withdraw all or part of the money in the member's ASA or purchase an annuity with all or part of the money in the member's ASA.

**CONTRIBUTIONS:** PERF is considered a cost-sharing pension plan. Members are required to contribute 3% of their compensation to their PERF ASA. The state must pay the member's required 3% contribution for a member who is a state employee. For a member who is not a state employee, the employer is given the option of making all or a part of the contributions on behalf of a member.

**FUND MEMBERSHIP:** Except for employees who elect to become members of the Public Employees' My Choice Retirement Savings Defined Contribution Plan (PERF DC Only Plan), employees of the state who are not statutorily assigned to other pension funds (or excluded from coverage) and all employees of participating political subdivisions working in covered positions are required to become members of PERF. (Local employers may choose to opt into the DC Only Plan in addition to or in lieu of PERF on or after January 2, 2016.)

Local school employees of a charter school who are not eligible to participate in the Teachers' Retirement Fund (TRF) are members of PERF, unless the organizer of the charter school offers employees the opportunity to participate in a private pension or retirement program (IC 20-24-6-7).

Individuals employed by a special management team that is assigned by the State Board of Education to a school are entitled to participate in PERF (IC 20-31-9.5-7).

**VESTING:** A member is vested and entitled to a retirement benefit when the member accumulates at least 10 years of creditable service in a position covered by PERF.

**RETIREMENT AGE:** A member is eligible for normal retirement benefits if:

- (1) the member is at least 65 years of age and has at least 10 years of creditable service;
- (2) the member is at least 60 years of age and has at least 15 years of creditable service; or
- (3) the member is at least 55 years of age and the member's age in years plus years of creditable service equal at least 85 (Rule of 85).

**EARLY RETIREMENT:** A member who is at least 50 years of age and has at least 15 years of creditable service may retire with a reduced benefit.

The member's retirement benefit is reduced: (1) 1/10% for each month the member retires at or after age 60 and before age 65; or (2) 5/12% for each month a member retires before age 60, plus 6%.

RETIREMENT BENEFITS: Benefits received by a retired member of PERF are derived from two sources:

- (1) a pension from the retirement allowance account funded by employer contributions; and
- (2) if a member has not elected to withdraw the member's ASA before retirement, an ASA funded by the employee member contributions.

The pension portion of the retirement benefit is determined by the following formula (set forth in IC 5-10.2-4-3, 4):

$$\begin{aligned} & \text{Average Annual Compensation (Calculated Using Highest 20 Quarters of Salary)} \\ & \times 0.011 \\ & \times \text{Years of Creditable Service} \\ & = \text{Annual Pension at Normal Retirement} \end{aligned}$$

The annuity portion is based upon the member's investment of their ASA contributions. A member of PERF is able to make an investment selection or change an existing investment selection for the member's ASA contribution once each quarter. The contributions of new members are automatically invested in the age-appropriate target-date fund if the member does not make another investment selection. *Beginning January 1, 2017, the Guaranteed Fund is eliminated, and an investment fund (called the Stable Value Fund) is established that has preservation of capital as the primary investment objective.*

**POSTRETIREMENT INCREASES:** Historically, benefit increases to PERF members, survivors, and beneficiaries are granted on an ad hoc basis by the General Assembly. A cost-of-living increase (COLA) was last granted in 2009. A thirteenth check has been granted in each year from 2010 through 2020. The thirteenth check amounts ranged from \$150 to \$450 in 2019 and 2020. Effective July 1, 2018, a postretirement benefit increase, thirteenth check, or other benefit change or adjustment may be granted by the General Assembly only in an odd-numbered calendar year and only if the postretirement benefit increase or adjustment may be funded from the uncommitted balance in the reserve account of the particular fund or plan.

**FUNDING:** The state and participating political subdivisions must contribute to PERF the amount required to actuarially fund the pension benefits. The unfunded accrued liability of the state is amortized over a term determined by the INPRS Board not to exceed 30 years or for a shorter time period requested by the State Budget Agency or the Governor. The unfunded accrued liabilities of participating political subdivisions are amortized over a term determined by the INPRS Board not to exceed 30 years. An increase in liability due to a cost-of-living adjustment is also amortized over a term determined by the INPRS Board not to exceed 30 years.

For state employees, the normal cost and amortization of the unfunded accrued liability are part of the fringe benefits for the employing agencies. Participating political subdivisions include the pension costs in their annual budgets. A state educational institution may issue bonds for payment of retirement liabilities resulting from the institution's withdrawal from or freezing participation in PERF.

## **PERF MY CHOICE RETIREMENT SAVINGS DEFINED CONTRIBUTION PLAN**

The Public Employees' My Choice Retirement Savings Plan was established for the purpose of providing amounts funded by an employer and a member for the use of the member or the member's beneficiaries or survivors after the member's retirement. A plan member is a full-time employee of the state or a participating local jurisdiction who is employed in a position that would otherwise be eligible for membership in the Public Employees' Retirement Fund (PERF) and who is required or elects to become a member of the plan.

**MEMBER CONTRIBUTIONS:** Each member is required to contribute 3% of the member's compensation to the plan. The state pays the member's contribution on behalf of the member. For a member who is an employee of a participating local unit, the participating local unit may pay all or a part of the member's contribution on behalf of the member in accordance with Section 414(h)(2) of the Internal Revenue Code.

**EMPLOYER CONTRIBUTIONS:** The state's employer contribution rate for the plan is equal to the state's employer contribution rate for PERF. The amount credited to a member's employer contribution subaccount may not exceed PERF's normal cost. Any amount of the employer's contribution that remains after crediting the member's employer contribution subaccount is applied to PERF's unfunded accrued liability. The state's minimum employer contribution under the plan is 3% of the compensation of all plan members. In FY 2018, the state paid 11.2%. Of this contribution, 3.4% (also known as the variable contribution rate) was credited to the member's employer contribution subaccount and 7.8% was applied to PERF's unfunded accrued liability.

Local participating subdivisions choose their contribution rate under the plan. The local contribution rate is as follows:

- (1) The variable contribution rate is between 0% and the normal cost of PERF employees for local participating subdivisions. For FY 2018, that rate was 4.1%.
- (2) Local units may then match employee contributions up to 10%. The matching rate may be either 0% or 50%. Employees may contribute up to 10% of their compensation into the plan in excess of the 3% mandatory contribution. The maximum match by an employer would be 50% of 10%, or 5%.

The final contribution rates paid for local plan members will depend upon the decisions of local units. However, it is conceivable that the rates may be as low as 0% and as high as 9.1% (4.1% variable contribution rate + 5% matching contribution rate). Local employers still have discretion as to whether they would like to "pick up" the mandatory 3% employee contribution. Once this supplemental contribution is added, the employer rate may be as high as 12.1% (9.1% above + 3%).

INPRS may charge a local employer a supplemental contribution, if necessary, to fund the employer's share of the actuarial unfunded liability due to the fact that all or a portion of the employer's employees are members of the plan (as opposed to PERF).

**VESTING:** A member is vested in the employer contribution subaccount in accordance with the following schedule.

Years of Participation in the Plan	Vested Percentage of Employer Contributions and Earnings
1	20%
2	40%
3	60%
4	80%
5	100%

For purposes of vesting in the employer contribution subaccount, only a member's full years of participation in the plan are counted.

**CREDITABLE SERVICE:** A member does not earn creditable service (as defined in IC 5-10.2-3-1(a)) under the plan.

**NORMAL RETIREMENT AGE:** Normal retirement age means the member is at least age 62 and has at least 5 years of participation in the plan.

### **INDIANA STATE TEACHERS' RETIREMENT FUND (TRF)**

IC 5-10.2; IC 5-10.4

ACCT. NO. 14200  
COLA Payout 14290  
Pension Stabilization 11020

The Indiana State Teachers' Retirement Fund (TRF) was established to pay retirement, disability, and survivor benefits to public school teachers and administrators, regularly employed teachers at certain state universities and other educational institutions, and certain other education employees. TRF is a hybrid pension system, consisting of both a conventional pension benefit and an annuity savings account (ASA), which is funded by member contributions.

#### **MEMBERS:**

- (1) legally qualified and regularly employed teachers in the public schools;
- (2) persons employed by a governing body of a public school (for example, township board of a school township, board of school commissioners, metropolitan board of education, board of trustees) if the person was qualified before the person's election or appointment;
- (3) legally qualified and regularly employed teachers at Ball State University, Indiana State University, University of Southern Indiana, or Vincennes University;
- (4) legally qualified and regularly employed teachers in a state educational institution supported wholly by public money and whose teachers devote their entire time to teaching;
- (5) legally qualified and regularly employed teachers in state benevolent, charitable, or correctional institutions;
- (6) legally qualified and regularly employed teachers who teach elementary or high school students in an experimental school of a state university;
- (7) certain instructors serving in a university extension division not covered by state retirement law;
- (8) employees and officers of the Department of Education and of TRF who were qualified before election or appointment;
- (9) a person:
  - (A) who is appointed under IC 20-34-3-6 as a school nurse in Gary; and
  - (B) who in the position described in (A) participated in TRF before December 31, 1991; and
- (10) persons who are employed by TRF.

A person who teaches in a charter school is a member of TRF and service in a charter school is creditable service for the purposes of IC 5-10.4 unless the organizer of the charter school offers employees the opportunity to participate in a private pension or retirement program. Individuals employed by a special management team that is assigned by the State Board of Education to a school are entitled to participate in TRF (IC 20-31-9.5-7). Substitute teachers who have not obtained at least an associate degree and teachers in a state institution who accept the benefits of a state-supported retirement benefit system comparable to the TRF's benefits are not eligible to become TRF members unless permitted by law or the INPRS Board's rules.

**TRF ACCOUNTS:** TRF must maintain two separate accounts: the Pre-1996 Account (TRF Pre-'96) and the 1996 Account (TRF '96). Each account consists of the following subaccounts:

- (1) The annuity savings account (ASA) contains member contributions, interest credited to the amounts invested in the Guaranteed Fund (before its elimination on January 1, 2017), and gain or loss in market value on amounts invested in the alternative funds. Each member's ASA is credited individually with the amount of the member's contributions and interest credits.
- (2) The retirement allowance account contains all other TRF assets.

The Pre-'96 Account consists of members hired before July 1, 1995, in a position covered by TRF and who are not eligible to participate in the '96 Account.

The '96 Account consists of the following:

- (1) Individuals who first became members of TRF after June 30, 1995.
- (2) Members who:
  - (A) before July 1, 1995, served in a position covered by TRF; and
  - (B) after June 30, 1995, and before July 1, 2005, were hired by another school corporation or institution covered by TRF or rehired by a prior employer that participates in the TRF.
- (3) Members described in (2) who, after June 30, 2005, are hired by another school corporation or institution covered by TRF or rehired by a prior employer that participates in TRF.

**MEMBER CONTRIBUTIONS:** Members are required to contribute 3% of their compensation to TRF. Compensation means the basic salary earned by a member, plus the amount that would have been part of a member's basic salary except for the member's salary reduction agreement established under Section 125, 403(b), or 457 of the Internal Revenue Code. Local school corporations are given the option of making the 3% member contributions on behalf of the corporation's employees.

**VESTING:** A member is vested and entitled to a retirement benefit when the member accumulates at least ten years of creditable service in a position covered by TRF.

**CREDITABLE SERVICE:** For the purpose of computing benefits, creditable service includes:

- (1) service in a position covered by TRF; plus
- (2) all other service for which TRF gives credit.

**RETIREMENT AGE:** A member is entitled to normal retirement benefits if:

- (1) the member is at least 65 years of age and has at least 10 years of creditable service;
- (2) the member is at least 60 years of age and has at least 15 years of creditable service; or
- (3) the member is at least 55 years of age and the member's age in years plus years of creditable service equal at least 85 (Rule of 85).

**EARLY RETIREMENT:** A member who is at least 50 years of age and has at least 15 years of creditable service may retire with a reduced benefit. The member's retirement benefit is reduced:

- (1) 1/10% for each month the member retires at or after age 60 and before age 65; or
- (2) 5/12% for each month a member retires before age 60, plus 6%.

**RETIREMENT BENEFITS:** Benefits received by a retired member of TRF are derived from two sources:

- (1) a pension from the retirement allowance subaccount funded by:
  - (A) the state for members of the Pre-'96 Account; or
  - (B) the employer (the state or the local school corporation) for members of the '96 Account; and
- (2) an ASA financed by employee member contributions.

The pension portion of the retirement benefit is determined by the following formula (set forth at IC 5-10.2-4-4):

$$\begin{aligned} & \text{Average Annual Compensation (Calculated Using Highest 20 Quarters of Salary)} \\ & \times 0.011 \\ & \times \text{Years of Creditable Service} \\ & = \text{Annual Pension at Normal Retirement} \end{aligned}$$

The annuity portion is based upon the member's investment of their ASA contributions.

**POSTRETIREMENT INCREASES:** Historically, benefit increases to TRF members, survivors, and beneficiaries are granted on an ad hoc basis by the General Assembly. A cost-of-living increase (COLA) was last granted in 2009. A thirteenth check has been granted in each year from 2010 through 2020.

The thirteenth check amounts ranged from \$150 to \$450 in 2019 and 2020. Effective July 1, 2018, a postretirement benefit increase, thirteenth check, or other benefit change or adjustment may be granted by the General Assembly only in an odd-numbered calendar year and only if the postretirement benefit increase or adjustment may be funded from the uncommitted balance in the reserve account of the particular fund or plan.

**FUNDING:** The General Assembly is required to appropriate an amount sufficient to cover the state's actuarial liability for each member covered by the Pre-'96 Account and for each state employee covered by the '96 Account. Currently, the Pre-'96 Account of the TRF is funded on a pay-as-you-go basis, with the state appropriating only the amount necessary to fund the benefits due in a particular year.

The '96 Account of the TRF is actuarially funded with local school corporations contributing a specified percentage of payroll to cover the costs of the fund. Funding of cost-of-living increases for both the Pre-'96 Account and the '96 Account are amortized over a term determined by the INPRS Board that does not exceed 30 years. In 2017, the General Assembly appropriated \$21.7 M to the Pre-'96 Account of the TRF to pay the costs of thirteenth checks made to TRF members and beneficiaries for FY 2018 and FY 2019.

**PENSION STABILIZATION FUND:** In 1995, the General Assembly established the Pension Stabilization Fund. The intent of the Pension Stabilization Fund is to stabilize the state's General Fund teacher pension expenditures as a percentage of the state's General Fund budget. The Pension Stabilization Fund is part of the Pre-'96 Account and is administered by the INPRS Board.

The fund consists of: (1) surplus lottery revenues allocated to the Pension Stabilization Fund; (2) a portion of the employer reserve balance (as determined by the State Budget Director so that the employer reserve is sufficient for cash flow needs); and (3) other amounts appropriated to the Pension Stabilization Fund by the General Assembly.

## TEACHERS' DEFINED CONTRIBUTION PLAN

The Teachers' Defined Contribution Plan was established for the purpose of providing amounts funded by an employer and a member for the use of the member or the member's beneficiaries or survivors after the member's retirement. A plan member is full-time employee of a school corporation who is employed in a position that would otherwise be eligible for membership in the Indiana State Teachers' Retirement Fund (TRF) and who elects to become a member of the plan. The plan membership does not include individuals who:

- (1) before the effective date of the plan are or were members of TRF; or
- (2) on or after the effective date of the plan do not elect to participate in the plan.

### 1977 JUDGES' RETIREMENT SYSTEM 1985 JUDGES' RETIREMENT SYSTEM

IC 33-38

TRUST ACCT. NO. 74210

The Judges' Retirement System consists of two plans (the 1977 System and the 1985 System) that provide retirement, disability, and survivor benefits to state and county judges. The INPRS Board administers the Judges' Retirement Systems.

The 1977 System includes all individuals who began service as a judge before September 1, 1985, unless the individual, within 20 days after becoming a judge, filed an irrevocable election not to participate in the 1977 System. The 1985 System covers all individuals who: (1) began service as a judge after August 31, 1985; and (2) are not participants in the 1977 System. Beginning January 1, 2011, full-time magistrates who were serving on July 1, 2010, may elect to be members of the 1985 System. The 1985 System is mandatory for all new judges and beginning January 1, 2011, all new full-time magistrates.

**RETIREMENT BENEFITS:** A participant is entitled to a retirement benefit under the applicable 1977 System or the 1985 System if the participant meets one of the age and service minimums:

- (1) the participant is at least age 62 and has at least 8 years of service credit; or
- (2) the participant is at least age 55 and the participant's age and years of service equal at least 85.

In addition, the participant must not be receiving any salary from the state for services currently performed as a judge or a magistrate.

To receive an unreduced retirement benefit, a participant must be:

- (1) at least 65; or
- (2) at least 55, if the participant's age in years plus the participant's years of service total 85 or more.

The annual unreduced retirement benefit equals the product of:

- (1) the annual salary:
  - A) currently paid for the office which the participant held at the time of the participant's separation of service (1977 System); or
  - B) for the 1985 System: (i) before January 1, 2011, paid to the participant at the time of the participant's separation from service or (ii) after December 31, 2010, currently paid for the office which the participant held at the participant's separation from service; multiplied by
- (2) a percentage determined by years of service.

**RETIREMENT AGE:** Normal retirement age is 65 with at least 8 years of service. A participant may retire at age 62 with the requisite years of service. However, the participant's pension is reduced by 0.1% for each month the member's age on the date the participant begins receiving a retirement benefit precedes the participant's 65th birthday.

**VESTING:** Vesting occurs after 8 years of service.

**CONTRIBUTIONS:** Participants are required to contribute 6% of their annual salary received for services as a judge for a maximum of 22 years. The state may elect to pay the contribution for participants in the 1985 System.

**POSTRETIREMENT INCREASES:** Participants receive benefit increases whenever the salary of the position the retiree held at separation from service increases.

**FUNDING:** The state contributes the amount required to actuarially prefund the pension benefits, although it is not required by law to do so. The unfunded accrued liabilities and benefit increases (as applicable) are amortized over a term determined by the Board that does not exceed 30 years. Appropriations for the Judges' Retirement System are made from the General Fund. Additional funding comes from employee contributions and from certain docket and court fees.

**SOURCES OF REVENUE:** Revenues are from General Fund appropriations and from certain docket fees and court fees.

**STATE EXCISE POLICE, GAMING AGENT, GAMING CONTROL OFFICER,  
AND CONSERVATION OFFICERS' RETIREMENT FUND**

IC 5-10-5.5

TRUST ACCT. NO. 74310

The State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Fund (EG&C) provides retirement, disability, and survivor benefits to those employees of the Indiana Department of Natural Resources, the Indiana Gaming Commission, and the Indiana Alcohol and Tobacco Commission who are engaged exclusively in the performance of law enforcement duties. The EG&C is a defined benefit plan.

**RETIREMENT BENEFITS:** A participant who completes at least 10 years of creditable service is entitled to an annual pension benefit, paid in equal monthly installments beginning on the participant's normal retirement date, equal to the product of the participant's average annual salary multiplied by a percentage equal to 25% plus an additional 1 2/3% for each completed year of service in excess of 10 years. A participant's average annual salary is the average of the participant's five highest annual salaries in the 10 years preceding the participant's retirement date, determined without regard to any salary reduction agreement under Section 125 of the Internal Revenue Code.

**VESTING:** A participant in the EG&C vests after 10 years of creditable service.

**RETIREMENT AGE:** A participant who is hired before age 50 must retire at age 65 and is entitled to receive an unreduced benefit. A participant who is hired after age 50 must retire upon the earlier of: (1) the first day of the month following the date the participant completes 15 years of creditable service; or (2) the first day of the month following the participant's 65th birthday.

**EARLY RETIREMENT:** A participant who completes at least 15 years of creditable service may retire upon reaching 45 years of age with a reduced retirement benefit.

**CONTRIBUTIONS:** Each participant must contribute 3% of the first \$8,500 of the participant's annual salary to the participant's savings fund. For contributions made after June 30, 2007, a participant must contribute 4% of the participant's annual salary. An employer may pay all or part of the contributions for the participant.

**DEFERRED RETIREMENT OPTION PLAN (DROP):** A participant who is eligible to receive an unreduced annual retirement allowance immediately upon termination of employment may choose to participate in the fund's deferred retirement option plan (DROP). The DROP allows a participant to continue to work and earn a salary for up to 36 months and then retire with a pension benefit, plus receive an additional amount equal to the total of the pension benefits that the participant would have been paid during the same period had the participant retired, payable either as a lump sum or three equal annual installments.

**POSTRETIREMENT INCREASES:** Historically, benefits payable to participants, survivors, and beneficiaries of the EG&C are increased by the same percentage and under the same conditions as benefits are increased for participants, survivors, and beneficiaries of PERF. Effective July 1, 2018 a postretirement benefit increase, thirteenth check, or other benefit change or adjustment may be granted by the General Assembly only in an odd-numbered calendar year and only if the postretirement benefit increase or adjustment may be funded from the uncommitted balance in the reserve account of the particular fund or plan.

**FUNDING:** Funding is derived from employer contributions, which were 20.75% of payroll in calendar year 2018 and 2019.

## PROSECUTING ATTORNEYS' RETIREMENT FUND

IC 33-39

ACCT. NO. 74150

The Prosecuting Attorneys' Retirement Fund (PARF) was established during the 1989 session of the General Assembly. PARF provides retirement, disability, and survivor's benefits for individuals who serve (1) as a prosecuting attorney or a chief deputy prosecuting attorney after December 31, 1989; (2) as the executive director or assistant executive director of the Indiana Prosecuting Attorneys Council; or (3) as a state-paid deputy prosecuting attorney after June 30, 1995.

Each participant in PARF is required to contribute 6% of salary received for services after December 31, 1989. After July 1, 2013, this member contribution is only required for the first 22 years of service, and those contributions are before income taxes (previous contributions were after tax). The state may pay the contributions for a participant. A senior prosecuting attorney appointed under IC 33-39-10-1 is not required to pay into the fund during any period of service as a senior prosecuting attorney.

**VESTING:** A participant vests after 8 years of service.

**RETIREMENT AGE:** The normal retirement age is age 65 with at least 8 years of creditable service or age 55 if the Rule of 85 is met.

**RETIREMENT BENEFITS:** The retirement benefit of a participant who is at least age 65, or meets the Rule of 85, is calculated by multiplying (1) the highest annual salary paid to the participant before the participant's separation from service by (2) a formula factoring in years of service and a percentage of salary. For additional details or for members that haven't reached the Rule of 85, see IC 33-39-7-16.

**EARLY RETIREMENT:** A participant who does not meet the Rule of 85 criteria may retire at age 62 with 8 years of service. The participant's benefits will be reduced at the rate of 0.25% per month for each month the participant retires prior to age 65.

**POSTRETIREMENT INCREASES:** Ad hoc cost-of-living increases may be provided by the General Assembly.

**FUNDING:** The amount necessary to actuarially fund the PARF is appropriated from the General Fund.

**LEGISLATORS' DEFINED BENEFIT PLAN &  
LEGISLATORS' DEFINED CONTRIBUTION PLAN**

IC 2-3.5; IC 5-10.2

ACCT. NO. 74150

The Legislators' Retirement System was established by the General Assembly in 1989 to provide retirement, disability, and survivor benefits to members of the Indiana General Assembly. The retirement system is administered by the INPRS Board. The retirement system consists of two separate plans: the Legislators' Defined Benefit Plan (LE DB) and the Legislators' Defined Contribution Plan (LE DC). Retirement benefits may not be paid to a participant if the participant is receiving or is entitled to receive a salary from the state. The LE DB plan applies to those members of the General Assembly who were serving on April 30, 1989, and who filed an election to be covered by the Legislators' Retirement System.

**RETIREMENT BENEFITS:** The monthly pension payable under the LE DB plan is equal to the lesser of:

(1) \$40 multiplied by the number of years of service in the General Assembly completed before November 8, 1989; or (2) the highest consecutive three-year average annual salary attributable to the participant's service as a legislator (as reported on the participant's W-2 federal income tax withholding statement), divided by 12.

**RETIREMENT AGE:** A participant is eligible for normal retirement benefits if the member is at least age 65 and has at least 10 years of service. A participant in the LE DB plan may retire at age 55 with a reduced retirement benefit. The reduction in the benefit is equal to: (1) 0.1% a month between ages 60 and 65; and (2) 5/12% a month between ages 55 and 60.

**VESTING:** Participants in the LE DB plan vest after 10 years of service in the General Assembly.

**POSTRETIREMENT INCREASES:** After June 30, 1992, the monthly benefit payable to participants, survivors, and beneficiaries under the LE DB plan is increased by the same percentages and under the same conditions as monthly benefits are increased for members of PERF and their survivors and beneficiaries. Effective July 1, 2018 a postretirement benefit increase, thirteenth check, or other benefit change or adjustment may be granted by the General Assembly only in an odd-numbered calendar year and only if the postretirement benefit increase or adjustment may be funded from the uncommitted balance in the reserve account of the particular fund or plan.

**FUNDING:** The General Assembly is required to make appropriations in the amounts necessary to actuarially fund the benefits provided under the retirement system. The appropriations are made from the General Fund.

**LE DC PLAN CONTRIBUTIONS:** The LE DC plan requires a participant to contribute an amount equal to 5% of the participant's salary.

After December 31, 2008, the state is required to contribute an amount determined by multiplying the participant's salary for that year by a percentage determined by the INPRS Board. The INPRS Board must use the following rates to determine the percentage: (1) The rate of the state's normal contributions for its employees to PERF. (2) The rate at which the state makes contributions to ASAs on behalf of state employees who are members of PERF. The State Budget Agency must confirm the percentage determined by the INPRS Board. The percentage confirmed by the State Budget Agency may not exceed the total contribution rate paid that year by the state to PERF for state employees.

**LE DC PLAN VESTING:** A participant is immediately vested in the LE DC plan.

**1977 POLICE OFFICERS' AND FIREFIGHTERS'  
PENSION AND DISABILITY FUND**

IC 36-8-8

TRUST ACCT. NO. 74420

The 1977 Police Officers' and Firefighters' Pension and Disability Fund ('77 Fund) is a defined benefit, multi-employer fund covering all full-time police and firefighters who are hired (or rehired) after April 30, 1977. The '77 Fund also covers members of the 1925, 1937, or 1953 Funds who elected to have their benefits converted to coverage by the '77 Fund. The '77 Fund is administered by the INPRS Board.

**RETIREMENT BENEFITS:** Members who qualify for retirement benefits are entitled to receive a monthly retirement benefit that is a percentage of the monthly salary of a first-class officer (as determined by the member's city) in the year the member ended service. The percentage is 50%, for a member who retires before July 1, 2019, and 52%, for a member who retires after June 30, 2019.

Members who serve more than 20 years are entitled to an additional amount equal to:

- (1) 2% of the salary of a first-class officer for each year of service over 20 years for members who retired before January 1, 1986; or
  - (2) 1% for each six months of service over 20 years for members who retire after December 31, 1985;
- up to a maximum of 24% for 12 additional years of service.

The maximum benefit is therefore equal to 74% of the salary of a first-class officer, for a member who retires before July 1, 2019, and 76% of the salary of a first-class officer, for a member who retires after June 30, 2019.

If a member elects to receive a benefit prior to age 52, then the amount of the member's retirement benefit is actuarially reduced.

**DEFERRED RETIREMENT OPTION PLAN (DROP):** Beginning on January 1, 2003, a member may choose to participate in a deferred retirement option plan within the member's existing pension fund. The DROP allows a member to continue to work and earn a salary for up to 36 months and then retire with a pension benefit, plus receive an additional amount equal to the total of the pension benefits that the member would have been paid during the same period had the member retired, payable either in a lump sum or three equal annual payments.

**CONTRIBUTIONS:** A member is required to contribute 6% of the salary of a first-class patrolman or firefighter. However, a member is not required to make contributions after 32 years of service. An employer may pay all or part of a member's contribution.

**RETIREMENT AGE:** Normal retirement is age 52 with 20 years of service. A retired member may elect to receive an actuarially reduced benefit at age 50. After June 30, 2018, a fund member is required to retire at age 70.

**VESTING:** A member vests after 20 years of service.

**POSTRETIREMENT INCREASES:** A member is entitled to an annual increase in the member's benefit equal to the percentage increase in the Consumer Price Index. However, the maximum increase is 3%.

**FUNDING:** The '77 Fund is actuarially prefunded. The amount necessary to cover the normal cost and the amortization of the unfunded accrued liability is appropriated annually by each municipality. The employer cost has been set at 17.5% of covered payroll in FY 2018.

## INPRS PUBLIC PENSION FUNDS

### PENSION RELIEF FUND

In 1977, the Pension Relief Fund (IC 5-10.3-11) was established to help the cities and towns with the financial burdens associated with the police and firefighters' retirement systems. The major sources of revenue for the Pension Relief Fund consist of General Fund appropriations, lottery revenue, and a dedicated portion of cigarette and alcohol taxes. Since 2009, the General Fund appropriations have totaled \$1,392.6 M (\$150 M in FY 2018). Since 1990, lottery revenues deposited in the Pension Relief Fund have totaled \$669.7 M (\$30 M in FY 2018). Cigarette and alcohol taxes historically have contributed between \$25 M and \$40 M (\$26 M in FY 2018).

The major expenditures from the Pension Relief Fund have been: (1) Pension Relief Fund distributions to cities and towns; (2) the payment of \$10,000 to each police officer and firefighter who elected to convert to the benefit structure of the '77 Fund; and (3) the payment of a special death benefit (currently \$150,000) to the survivors of police officers and firefighters who die in the line of duty. (Beginning July 1, 2017, this special death benefit is paid from the Special Death Benefit Fund established by IC 5-10-9.8.)

In 2009 and each year thereafter, the Pension Relief Fund is to distribute to each unit of local government the total amount of pension, disability, and survivor benefit payments from the 1925 Police Pension Fund (IC 35-8-6), the 1937 Firefighters' Pension Fund (IC 36-8-7), and the 1953 Police Pension Fund (IC 36-8-7.5) to be made by the unit in the calendar year, as estimated by the INPRS Board, after subtracting any distributions to the unit from the public deposit insurance fund that are used for benefit payments. The distributions are to be made in two equal installments before July 1 and before October 2 of each year.

As of June 30, 2018, the fund balances were as follows:

Amount available for distribution	\$27,353,407
Held to invest for local units	<u>\$1,693,132</u>
Total Pension Relief Fund	\$29,046,539

Until the General Assembly assumed responsibility for all benefit payments under the Old Plans, municipalities were required to pay for both (1) the required pension outlays under the Old Plan and the Converted Plan and (2) 21% (now 17.5%) of payroll for the '77 Fund members.

**1925 POLICE PENSION FUND  
1937 FIREFIGHTERS' PENSION FUND  
1953 POLICE PENSION FUND "THE OLD PLANS"**

IC 36-8-6, 7, 7.5

ACCT. NO. 74510

With certain exceptions, these pension funds cover all police officers and firefighters hired before May 1, 1977, who did not elect to convert their benefit coverage to the '77 Fund. The 1925 Police Pension Fund (1925 Fund) covers police officers, and the 1937 Firefighters' Pension Fund (1937 Fund) covers firefighters. The 1953 Police Pension Fund (1953 Fund) applies only to Indianapolis police officers. The funds are a collection of separate funds administered by each city. The police officers' and firefighters' funds of each city are completely independent of any other city funds.

**RETIREMENT BENEFITS:** A member of a fund who retires from active duty after 20 or more years is entitled to an annual pension equal to 50% of the salary of a first-class officer, as defined by the city.

A member who serves more than 20 years is entitled to additional amounts equal to: (1) 2% per year for each year of service over 20 years, for a member who retired before January 1, 1986; or (2) 1% for each half year of service over 20 years, for a member who retires after December 31, 1985. The maximum benefit is equal to 74% of the salary of a first-class officer.

**DEFERRED RETIREMENT OPTION PLAN (DROP):** Beginning on January 1, 2003, a member may choose to participate in a deferred retirement option plan within the member's existing pension fund. The DROP allows a member to continue to work and earn a salary for up to 36 months and then retire with a pension benefit, plus receive an additional amount equal to the total of the pension benefits that the member would have been paid during the same period had the member retired, payable either in:

(1) a lump sum; or (2) three equal annual payments.

**VESTING:** A member is vested after 20 years of service.

**CONTRIBUTIONS:** Members contribute 6% of the salary of a first-class patrolman or firefighter. Members are not required to contribute after 32 years of service. An employer may pay all or part of a member's contribution.

**RETIREMENT AGE:** Normal retirement age is any age with 20 years of service.

**POSTRETIREMENT INCREASES:** A member's benefits are tied to the salary of a first-class officer. Therefore, if the salary of a first-class officer increases or decreases, the monthly pension amount is proportionally increased or decreased; however, the amount may not be reduced below the greater of: (1) the amount of the first full monthly pension paid to a member; or (2) 55% of the salary of a first-class officer.

**FUNDING:** The police and fire plans are funded on a pay-as-you-go basis. Therefore, a municipality appropriates only the amount necessary to fund the benefits due in a particular year.

SOURCE OF REVENUE: Before January 1, 2009, the necessary funds for each local fund were appropriated annually in the municipality's budget. However, the state (via the Pension Relief Fund) dedicated 5.43% of the Cigarette Tax, approximately 13% of the tax on liquor, and \$30 M of surplus lottery revenues annually to provide relief to the police and fire funds.

The dedicated and undistributed balances of the Pension Relief Fund as of June 30 for each of the indicated years were the following:

	Available for Distribution	Cities' & Towns' Subaccounts	Total Pension Relief Fund
2012	\$13,888,429	\$4,521,076	\$18,409,505

2018	\$27,353,407	\$1,693,132	\$29,046,539

The following were the distributions made to municipalities from the Pension Relief Fund for the indicated state fiscal years:

2012	\$224,220,407
2013	\$219,814,429
2014	\$219,439,024

2016	\$215,816,223
2017	\$213,255,784
2018	\$212,660,451

Beginning on January 1, 2009, the General Assembly assumed responsibility for the total amount of pension, disability, and survivor benefits payable by these three local pension funds. Distributions to each municipality to pay these benefits continue from the Pension Relief Fund.

## SHERIFF'S PENSION TRUST FUND

IC 36-8-10-12

The state has not established a retirement system for county sheriffs and employees of a sheriff's department. However, each county has the option of establishing a separate sheriff's pension trust. State law regulates the maximum benefits for a participant and the maximum contribution that may be made by a participant. Rather than establishing a sheriff's pension trust, a county may choose either to have its sheriff's department participate in PERF or to provide no retirement benefits.

**DEFERRED RETIREMENT OPTION PLAN (DROP):** Beginning on July 1, 2005, a county may choose to adopt a deferred retirement option plan as part of its retirement plan. If a county adopts a DROP, an employee may elect to enter the DROP, continue to work and earn a salary for a period described below, and then retire with a pension benefit, plus receive an additional amount equal to the total of the pension benefits that the employee would have been paid during the same period had the employee retired, payable either in:

- (1) a lump sum;
- (2) an actuarially equivalent increase in the monthly pension benefit payable to the employee; or
- (3) a combination of (1) and (2).

**CONTRIBUTION RATE:** The monthly deductions from an employee's wages may not exceed 6% of the employee's average monthly wages. However, the contribution rate for an employee of the Marion County Sheriff's Department may not exceed 7% of the employee's average monthly wages. A sheriff's department that establishes a pension trust must annually contribute an amount that will be sufficient to actuarially fund the trust. The contribution may be made by the department through a general appropriation to the department, by a line item appropriation directly to the pension trust, or a combination of general appropriation and line item appropriation.

**VESTING:** No vesting requirement is established by state law.

**RETIREMENT AGE:** Normal retirement may be earlier, but not later, than age 70.

**POSTRETIREMENT INCREASES:** A county may provide by ordinance for an ad hoc payment or an annual cost-of-living adjustment for retired or disabled employees who are at least age 55 and surviving spouses. An annual COLA must be based on the Consumer Price Index and may not exceed 3%.

An ad hoc payment may be a fixed dollar amount or calculated in the same manner as an annual COLA.

**SHERIFF'S FUNDS INFORMATION:** Of the 92 county sheriff's departments in Indiana, all 92 have established a sheriff's pension trust plan. Perry County established a plan effective, January 1, 2018.

The following data are actual counts for 91 of the counties that have established sheriff's pension trusts.

## **STATE POLICE BENEFIT SYSTEM**

IC 10-12

ACCT. NO. 74610

The State Police have two pension plans: the Pre-1987 Plan and the 1987 Plan. The Pre-1987 Plan applies to State Police officers hired for the first time before July 1, 1987, who did not elect coverage under the 1987 Plan. The 1987 Plan applies to: (1) all State Police officers hired after June 30, 1987; and (2) those officers hired before July 1, 1987, who elected coverage under the 1987 Plan.

The operation of the State Police retirement plans is governed by the pension fund trust agreement between the State Police Department and the State Treasurer.

**VESTING:** Members of the Pre-1987 Plan vest after 10 years of service. Members of the 1987 Plan vest after 5 years of service.

**NORMAL RETIREMENT AGE:** The term "normal retirement age" as used in this plan is the age at which an employee beneficiary becomes immediately eligible for a monthly pension that is not reduced because of his or her age at the time the benefit commences. The compulsory mandatory retirement age for regular police employees is age 65. Members who retire before reaching the age required for full benefits are entitled to a proportionate amount of the basic monthly pension amount.

**CONTRIBUTIONS:** Members of the Pre-1987 Plan contribute no more than 6% (current practice is 5% according to the Agreement) of the member's wages (not including overtime). Members of the 1987 Plan contribute 6% of the member's wages (not including overtime).

A member who receives a disability pension does not make contributions to the member's fund.

PRE-1987 PLAN: As of July 1, 2018, there were 33 active participants. Retired participants and beneficiaries receiving benefits totaled 789 with 3 disabled participants entitled to future benefits under the Pre-1987 Plan. There were no DROP participants. The number of terminated and vested participants was 3.

1987 PLAN: As of July 1, 2018, there were 1,174 active participants. Retired participants and beneficiaries receiving benefits totaled 772 with 27 disabled participants entitled to future benefits under the 1987 Plan. There were 16 DROP participants. The number of terminated and vested participants was 128.

SOURCE OF REVENUE: Appropriations to the State Police pension fund are made from the General Fund. For calendar year 2012, the General Assembly provided that an amount sufficient to raise the funding level of the State Police pension fund to 80% be transferred from 50% of the state excess reserves over \$50 M.

## GOVERNOR AND SURVIVING SPOUSE PENSION

IC 4-3-3

ACCT. NO. 10490

The Governor and Surviving Spouse Pension was established to provide an annual retirement benefit for the Governor and an annual pension for the surviving spouse of a Governor. These benefits are administered by the State Auditor and the State Treasurer.

**RETIREMENT BENEFITS:** Annual benefits depend on the number of terms served and age at retirement.

**VESTING:** An individual who succeeds to the Governor's office without being elected is not entitled to an annual benefit unless the person serves more than one year of the term of the office.

**CONTRIBUTION:** No contributions are made by the Governor.

**RETIREMENT AGE:** Earliest age of retirement is age 62.

A Governor may not receive a benefit as long as the Governor holds an elective position with any federal, state, or local governmental unit.

**POSTRETIREMENT INCREASES:** A Governor who chooses to receive a retirement benefit from PERF to which the Governor is entitled receives postretirement benefit increases granted under INPRS. A Governor who chooses to receive a retirement benefit based on the Governor's annual salary receives a benefit increase whenever the salary of the Governor increases as provided by IC 4-2-1-1.

**GOVERNORS' FUND INFORMATION:** In CY 2018 and CY 2019, two governors and three widows were receiving annual benefits totaling \$188,064. These benefits are funded on a pay-as-you-go method from the General Fund.
