Chapter 3. Effect of Recodification by Senate Enrolled Act 24 of the 1993 Regular Session of the General Assembly

IC 16-18-3-1

"Prior health and hospital law" defined

Sec. 1. As used in this chapter, "prior health and hospital law" refers to the statutes that are repealed or amended in senate enrolled act 24 of the 1993 regular session of the general assembly as the statutes existed before the effective date of the applicable or corresponding provision of senate enrolled act 24 of the 1993 regular session of the general assembly.

As added by P.L.2-1993, SEC.1.

IC 16-18-3-2

Purpose of act; operation and effect of prior health and hospital law

Sec. 2. The purpose of senate enrolled act 24 of the 1993 regular session of the general assembly is to recodify prior health and hospital law in a style that is clear, concise, and easy to interpret and apply. Except to the extent that:

(1) senate enrolled act 24 of the 1993 regular session of the general assembly is amended to reflect the changes made in a provision of another bill that adds to, amends, or repeals a provision in senate enrolled act 24 of the 1993 regular session of the general assembly; or

(2) the minutes of meetings of the code revision commission during 1992 expressly indicate a different purpose;

the substantive operation and effect of the prior health and hospital law continue uninterrupted as if senate enrolled act 24 of the 1993 regular session of the general assembly had not been enacted.

As added by P.L.2-1993, SEC.1.

IC 16-18-3-3

Application

Sec. 3. Subject to section 2 of this chapter, sections 4 through 7 of this chapter shall be applied to the statutory construction of senate enrolled act 24 of the 1993 regular session of the general assembly.

As added by P.L.2-1993, SEC.1.

IC 16-18-3-4

Preservation of rights, liabilities, penalties, violations, proceedings, indebtedness, and tax levies

Sec. 4. Senate enrolled act 24 of the 1993 regular session of the general assembly does not affect any:

(1) rights or liabilities accrued;

(2) penalties incurred;

(3) violations committed;

- (4) proceedings begun;
- (5) bonds, notes, loans, or other forms of indebtedness issued, incurred, or made; or
- (6) tax levies made;

before the effective date of senate enrolled act 24 of the 1993 regular session of the general assembly (July 1, 1993). Those rights, liabilities, penalties, offenses, proceedings, bonds, notes, loans, other forms of indebtedness, and tax levies continue and shall be imposed and enforced under prior health and hospital law as if senate enrolled act 24 of the 1993 regular session of the general assembly had not been enacted.

As added by P.L.2-1993, SEC.1.

IC 16-18-3-5

Construction of act

Sec. 5. Senate enrolled act 24 of the 1993 regular session of the general assembly shall be construed as a recodification of prior health and hospital law. If the literal meaning of senate enrolled act 24 of the 1993 regular session of the general assembly would result in a substantive change in the prior health and hospital law, the difference shall be construed as a typographical, spelling, or other clerical error that must be corrected by:

- (1) inserting, deleting, or substituting words, punctuation, or other matters of style in senate enrolled act 24 of the 1993 regular session of the general assembly; and
- (2) using any other rule of statutory construction;

as necessary or appropriate to apply senate enrolled act 24 of the 1993 regular session of the general assembly in a manner that does not result in a substantive change in the law. The principle of statutory construction that a court must apply the literal meaning of an act if the literal meaning of the act is unambiguous does not apply to senate enrolled act 24 of the 1993 regular session of the general assembly to the extent that senate enrolled act 24 of the 1993 regular session of the general assembly is not substantively identical to the prior health and hospital law.

As added by P.L.2-1993, SEC.1.

IC 16-18-3-6

References to repealed statutes

Sec. 6. Subject to section 7 of this chapter, a reference in a statute or rule to a statute that is repealed and replaced in the same or a different form in senate enrolled act 24 of the 1993 regular session of the general assembly shall be treated after the effective date of the new provision as a reference to the new provision.

As added by P.L.2-1993, SEC.1.

IC 16-18-3-7

Construction of citation references to include references to prior law

Sec. 7. A citation reference in senate enrolled act 24 of the 1993 regular session of the general assembly to another provision of senate enrolled act 24 of the 1993 regular session of the general assembly shall be treated as including a reference to the provision of prior health and hospital law that is substantively equivalent to the provision of senate enrolled act 24 of the 1993 regular session of the general assembly that is referred to by the citation reference.

As added by P.L.2-1993, SEC.1.

IC 16-18-3-8

If the state is unable to maintain the funding under subsection (c)(3) for the payments at Medicaid reimbursement levels in effect on June 30, 2011, because of budgetary constraints, the office shall reduce inpatient and outpatient hospital Medicaid reimbursement rates under subsection (a)(1) or (a)(2) or request approval from the committee and the United States Department of Health and Human Services to increase the fee to prevent a decrease in Medicaid reimbursement for hospital services. Contiguous counties; agreements for county without hospital to reimburse county with hospital for portion of lease rental; procedure

Sec. 27. (a) As used in this section, "contributing county" means a county without a county hospital that is contiguous to a county with a county hospital.

(b) As used in this section, "lessee county" means a county with a county hospital.

(c) A contributing county may enter into an agreement with a lessee county to reimburse the lessee county for a part of the lease rental each year that is payable by the lessee county upon compliance with this section.

(d) If the county executive of the contributing county finds that the hospital of the lessee county serves the residents of the contributing county and provides needed hospital services to such residents, the county executive may prepare a contribution agreement. Before final execution of the agreement, the auditor of the contributing county shall publish notice of a public hearing to be held in the contributing county by the county executive not less than ten (10) days after publication of the notice. The notice shall be published one (1) time in a newspaper of general circulation and published in the contributing county. The notice must name the day, place, and hour of the hearing and must set forth a summary of the provisions of agreement as to the amount to be paid each year during the term of the lease by the contributing county and where a copy of the proposed agreement may be examined. All persons interested are entitled to be heard at the time fixed on the necessity for the execution of the agreement. The hearing may be adjourned to a later date at a place fixed before adjournment.

(e) Following the hearing, if a majority of the county fiscal body of the contributing county approve the execution of the agreement,

the county executive may authorize the execution of the original agreement or may make the modifications agreed upon with the county fiscal body. The authorization shall be by an order entered in the official records of the county executive. The agreement shall be executed:

- (1) on behalf of the contributing county by at least a majority of the members of the county executive; and
- (2) on behalf of the lessee county by at least a majority of the members of the county executive.

(f) If the execution of the original or modified contribution agreement is authorized, notice of the signing shall be published on behalf of the contributing county by publication one (1) time in a newspaper of general circulation and published in the contributing county. At least ten (10) taxpayers in the contributing county whose tax rate will be affected by the proposed agreement may file a petition with the county auditor of the contributing county not more than thirty (30) days after publication of notice of the execution of the agreement. The petition must set forth the objections to the contribution agreement and facts showing that the execution of the contribution agreement is unnecessary and unwise or that the amount of contribution is excessive. On the filing of the petition, the county auditor shall immediately certify a copy together with other data necessary to present the questions involved to the department of local government finance. The department of local government finance shall fix a time and place in the county for the hearing not less than five (5) or not more than fifteen (15) days after receipt of the certified petition and information. Notice of the hearing shall be given by the department of local government finance to the county executive and to the first ten (10) taxpayer petitioners by certified mail sent to the addresses listed on the petition, at least five (5) days before the date of the hearing.

(g) An action to contest the validity of the contribution agreement or to enjoin the performance of the agreement may not be instituted later than thirty (30) days after publication of notice of the execution of the agreement or, if an appeal has been taken to the department of local government finance, not more than thirty (30) days after the decision of the board.

(h) A contribution agreement may extend for the full term of the lease or for any part and may provide for reimbursement by the contributing county to the lessee county of a part of the lease rental each year in an amount and upon terms and conditions agreed on between the contributing county and the lessee county. The contributing county shall annually levy a tax sufficient to produce each year the necessary funds sufficient to reimburse the lessee county as provided in the contribution agreement. The tax levies provided for in this section shall be reviewable by other bodies vested by law with the authority to ascertain that the levies are sufficient to raise the required payments under the contribution agreement. The annual contribution shall be paid semiannually to the lessee county

before the date lease rental payments are due from the lessee county.

Notwithstanding IC 5-1-11-3(c), bonds bearing a variable rate of interest shall be awarded to the bidder offering the best bid in the judgment of the board.

(f) If the aggregate principal amount of bonds to be issued at any one (1) time exceeds ten million dollars (\$10,000,000), the bonds may be sold at public or private sale at a price the governing board determines. If the bonds are sold at public sale, the governing board shall follow the guidelines set forth in subsection (e). (d) The principal derived from the sale of the bonds, upon due appropriation by the county according to statute, shall be paid to the clerk-treasurer of the city to assist in paying the cost of the improvement, repair, remodeling, or construction project of the hospital or for the acquisition of real property, without reappropriation by the fiscal body of the city.

IC 16-23-1-40

Cumulative hospital building fund; tax rate; investment

Sec. 40. (a) The governing board may request a cumulative

hospital building fund and a tax rate upon all taxable property in the county in which the hospital is located to finance the fund. If a resolution is approved by majority vote of all members at a regular or special board meeting, the resolution shall be certified to the county auditor, who shall submit the resolution to the county executive for preliminary approval and recommendation. Upon the approval of the county executive, the county auditor shall publish notice of a public hearing before the county council on the establishment of a cumulative hospital building fund and tax rate in each year.

(b) The cumulative building tax rate begins in any calendar year when all proceedings to establish the tax rate have been completed before August 2 in that year. The rate is levied on each one hundred dollars (\$100) of taxable property for that year, payable in the next year, and continues each year for a term not exceeding twelve (12) years. The resolution of the board must specify the following:

- (1) The number of years.
- (2) The effective date when the tax levy begins.
- (3) The amount of rate on each one hundred dollars (\$100) of taxable property.
- (4) Any other pertinent facts considered advisable by the board.

(c) Except as provided in subsections (f) through (h), the rate on each one hundred dollars (\$100) may be reduced but not increased by the department of local government finance in approving a cumulative building tax rate. The rate as finally fixed by the department of local government finance is final. However, the county fiscal body, by three-fourths (3/4) affirmative vote of the county fiscal body's members, may reduce the rate in any given year or years to meet an emergency existing in the county, but the temporary reduction affects the rate only in the year when the action is taken. The rate is automatically restored to the rate's original amount in each succeeding year of the established period except in any other year when another emergency reduction is made. The rate is subject to review each year by the county fiscal body, but the county tax adjustment board and department of local government finance may not reduce the rate below the original rate established and approved by vote of the county fiscal body unless the county fiscal body reduces the rate.

(d) The county fiscal body, city fiscal body, county tax adjustment board, or department of local government finance does not have power or jurisdiction over the annual budget and appropriations, additional appropriations, or transfer of money unless the action involves the expenditure or raising of money derived from property taxes. If the cumulative building fund is the only hospital fund raised by taxation, section 31 of this chapter controls.

(e) The cumulative building fund raised may be properly and safely invested or reinvested by the board to produce an income until there is an immediate need for the fund's use. The fund and any income derived from investment or reinvestment of the fund may be

used as follows:

- (1) To purchase real property and grounds for hospital purposes.
- (2) To remodel or make major repairs on any hospital building.
- (3) To erect and construct hospital buildings or additions or extensions to the buildings.
- (4) For any other major capital improvements, but not for current operating expenses or to meet a deficiency in operating funds.

(f) Not later than August 1 of any year, ten (10) or more taxpayers in the county may file with the county auditor of the county in which the hospital is located a petition for reduction or rescission of the cumulative building tax rate. The petition must set forth the taxpayers' objections to the tax rate. The petition shall be certified to the department of local government finance.

(g) Upon receipt of a petition under subsection (f), the department of local government finance shall, within a reasonable time, fix a date for a hearing on the petition. The hearing must be held in the county in which the hospital is located. Notice of the hearing shall be given to the county fiscal body and to the first ten (10) taxpayers whose names appear on the petition. The notice must be in the form of a letter signed by the secretary or any member of the department of local government finance, sent by mail with full prepaid postage to the county fiscal body and to the taxpayers at their usual places of residence at least five (5) days before the date fixed for the hearing.

(h) After the hearing under subsection (g), the department of local government finance shall approve, disapprove, or modify the request for reduction or rescission of the tax rate and shall certify that decision to the county auditor of the county in which the hospital is located.

The allowance or disallowance shall be certified or attested by the secretary, president, or other member authorized by the board to endorse the action taken on claims. The claims shall then be filed in the clerk-treasurer's office of the city. If the claims are covered by proper appropriations in effect and unexpended and are in due form, or if no appropriation is required by statute and the claims are filed and allowed according to statute, the clerk-treasurer shall promptly pay the claims out of the hospital funds of the city to the individual, firm, corporation, or other legal entity to whom the claims are due.

Joint operation may include joint employment of an administrator and other personnel, joint policies, joint purchases, joint services, and other programs to reduce the costs of health care. The board of directors of the city hospital may contract with the hospital board of the county hospital to provide for the manner of allocation of revenues and expenditures and the administration of the hospitals. IC 16-23-1-45**Governing board; rights and powers; sale and lease of real property**

Sec. 45. (a) The governing board has the same rights and powers as the hospital board of a county hospital under IC 16-22-2, except when those rights and powers are in conflict with the rights and powers granted to a city hospital under this chapter. However, a city hospital and the hospital's board of directors do not have authority to act inconsistently with the nature of the city hospital as a body of city government.

(b) The governing board may sell or lease real property to others by taking the same steps and procedures that the city served by the city hospital is required to take to sell or lease real property, except to the extent that this subsection conflicts with another statute

authorizing the sale or lease of real property.

- (1) Each beneficiary of the trust.
- (2) Each settlor empowered to revoke or modify the trust.

(c) The governing board may lease from others real or personal property, with or without an option to purchase, on terms and conditions and for times the board of directors considers reasonable.

(d) The governing board may borrow money and may secure the loan by a pledge of amounts from the cumulative building fund or other security. The loan may be made for a term of up to twenty (20) years.

- (8) Perform all other duties and exercise all other powers prescribed by law.

(b) The existence of authority or power under subsection (a) shall be determined in favor of the hospital if generally authorized or existing under IC 23-17. A resolution of the board of directors is presumptive evidence of a power.

(c) If a county or city fiscal body provides a direct financial subsidy to a hospital from a tax levy at the time a hospital exercises the hospital's powers under subsection (a), the hospital may not provide the funds from a tax levy to an entity created under subsection (a) for more than three (3) years. Disciplinary sanctions; denial, suspension, or revocation; appeals; investigations; reinstatement; consistency of sanctions

Sec. 14. (a) A person holding a certificate or license issued under this article must comply with the applicable standards and rules established under this article. A certificate holder or license holder is subject to disciplinary sanctions under subsection (b) if the department of homeland security determines that the certificate holder or license holder:

- (1) engaged in or knowingly cooperated in fraud or material deception in order to obtain a certificate or license, including cheating on a certification or licensure examination;
- (2) engaged in fraud or material deception in the course of professional services or activities;

holder becomes unfit to practice due to:

- (A) professional incompetence that includes the undertaking of professional activities that the certificate holder or license holder is not qualified by training or experience to undertake;
 - (B) failure to keep abreast of current professional theory or practice;
 - (C) physical or mental disability; or
 - (D) addiction to, abuse of, or dependency on alcohol or other drugs that endanger the public by impairing the certificate holder's or license holder's ability to practice safely;
- (9) engages in a course of lewd or immoral conduct in connection with the delivery of services to the public;
- (10) allows the certificate holder's or license holder's name or a certificate or license issued under this article to be used in connection with a person who renders services beyond the scope of that person's training, experience, or competence;
- (11) is subjected to disciplinary action in another state or jurisdiction on grounds similar to those contained in this chapter. For purposes of this subdivision, a certified copy of a record of disciplinary action constitutes prima facie evidence of a disciplinary action in another jurisdiction;
- (12) assists another person in committing an act that would constitute a ground for disciplinary sanction under this chapter;
- or
- (13) allows a certificate or license issued by the commission to be:
- (A) used by another person; or
 - (B) displayed to the public when the certificate or license is expired, inactive, invalid, revoked, or suspended.

(b) The department of homeland security may issue an order under IC 4-21.5-3-6 to impose one (1) or more of the following sanctions if the department of homeland security determines that a certificate holder or license holder is subject to disciplinary sanctions under subsection (a):

- (1) Revocation of a certificate holder's certificate or license holder's license for a period not to exceed seven (7) years.

(6) Placement of a certificate holder or license holder on probation status and requirement of the certificate holder or license holder to:

- (A) report regularly to the department of homeland security upon the matters that are the basis of probation;
- (B) limit practice to those areas prescribed by the department of homeland security;

- (D) perform or refrain from performing any acts, including community restitution or service without compensation, that the department of homeland security considers appropriate to the public interest or to the rehabilitation or treatment of the certificate holder or license holder.

The department of homeland security may withdraw or modify this probation if the department of homeland security finds after a hearing that the deficiency that required disciplinary action is remedied or that changed circumstances warrant a modification of the order.

(c) If an applicant or a certificate holder or license holder has engaged in or knowingly cooperated in fraud or material deception to obtain a certificate or license, including cheating on the certification or licensure examination, the department of homeland security may rescind the certificate or license if it has been granted, void the examination or other fraudulent or deceptive material, and prohibit the applicant from reapplying for the certificate or license for a length of time established by the department of homeland security.

(d) The department of homeland security may deny certification or licensure to an applicant who would be subject to disciplinary sanctions under subsection (b) if that person were a certificate holder or license holder, has had disciplinary action taken against the applicant or the applicant's certificate or license to practice in another state or jurisdiction, or has practiced without a certificate or license in violation of the law. A certified copy of the record of disciplinary action is conclusive evidence of the other jurisdiction's disciplinary action.

(e) The department of homeland security may order a certificate holder or license holder to submit to a reasonable physical or mental examination if the certificate holder's or license holder's physical or mental capacity to practice safely and competently is at issue in a disciplinary proceeding. Failure to comply with a department of homeland security order to submit to a physical or mental examination makes a certificate holder or license holder liable to temporary suspension under subsection (i).

(f) Except as provided under subsection (a), subsection (g), and section 14.5 of this chapter, a certificate or license may not be denied, revoked, or suspended because the applicant, certificate holder, or

license holder has been convicted of an offense. The acts from which the applicant's, certificate holder's, or license holder's conviction resulted may be considered as to whether the applicant or certificate holder or license holder should be entrusted to serve the public in a specific capacity.

(g) The department of homeland security may deny, suspend, or revoke a certificate or license issued under this article if the individual who holds or is applying for the certificate or license is convicted of any of the following:

(i) The department of homeland security may temporarily suspend a certificate holder's certificate or license holder's license under IC 4-21.5-4 before a final adjudication or during the appeals process

if the department of homeland security finds that a certificate holder or license holder would represent a clear and immediate danger to the public's health, safety, or property if the certificate holder or license holder were allowed to continue to practice.

(j) On receipt of a complaint or information alleging that a person certified or licensed under this chapter or IC 16-31-3.5 has engaged in or is engaging in a practice that is subject to disciplinary sanctions under this chapter, the department of homeland security must initiate an investigation against the person.

(k) The department of homeland security shall conduct a factfinding investigation as the department of homeland security considers proper in relation to the complaint.

(l) The department of homeland security may reinstate a certificate or license that has been suspended under this section if the department of homeland security is satisfied that the applicant is able to practice with reasonable skill, competency, and safety to the public. As a condition of reinstatement, the department of homeland security may impose disciplinary or corrective measures authorized under this chapter.

(m) The department of homeland security may not reinstate a certificate or license that has been revoked under this chapter.

Sec. 8. A qualified health plan (as defined in IC 27-8-33-3) offered under Subtitle D of Title 1 of the federal Patient Protection and Affordable Care Act (P.L. 111-148) may not provide coverage for abortion, except in the following cases:

- (1) The pregnant woman became pregnant through an act of rape or incest.
- (2) An abortion is necessary to avert the pregnant woman's death or a substantial and irreversible impairment of a major bodily function of the pregnant woman.

IC 16-34-1-9

Findings; compelling state interest

Sec. 9. (a) The general assembly finds the following:

- (1) There is substantial medical evidence that a fetus at twenty (20) weeks of postfertilization age has the physical structures necessary to experience pain.
- (2) There is substantial medical evidence that a fetus of at least twenty (20) weeks of postfertilization age seeks to evade certain stimuli in a manner similar to an infant's or adult's response to pain.
- (3) Anesthesia is routinely administered to a fetus of at least twenty (20) weeks of postfertilization age when prenatal surgery is performed.
- (4) A fetus has been observed to exhibit hormonal stress responses to painful stimuli earlier than at twenty (20) weeks of postfertilization age.

(b) Indiana asserts a compelling state interest in protecting the life of a fetus from the state at which substantial medical evidence indicates that the fetus is capable of feeling pain.

Chapter 2. Requirements for Performance of Abortion; Criminal Penalties

IC 16-34-2-0.5

Medical emergency

Sec. 0.5. A medical emergency, for purposes of this chapter, does not include a patient's claim or diagnosis that the patient would engage in conduct that would result in the patient's death or substantial physical impairment. Under the circumstances described in this section and unless the following would pose a great risk of death or substantial physical impairment of the patient, the physician shall terminate the patient's pregnancy in a manner that, in a physician's reasonable medical judgment, would result in the best opportunity for the fetus to survive.

As added by P.L.193-2011, SEC.7.

IC 16-34-2-1

Required circumstances of legal abortion

Sec. 1. (a) Abortion shall in all instances be a criminal act, except when performed under the following circumstances:

(1) During the first trimester of pregnancy for reasons based upon the professional, medical judgment of the pregnant woman's physician if:

(A) the abortion is performed by the physician;

(B) the woman submitting to the abortion has filed her consent with her physician. However, if in the judgment of the physician the abortion is necessary to preserve the life of the woman, her consent is not required; and

(C) the woman submitting to the abortion has filed with her physician the written consent of her parent or legal guardian if required under section 4 of this chapter.

However, an abortion inducing drug may not be dispensed, prescribed, administered, or otherwise given to a pregnant woman after nine (9) weeks of postfertilization age unless the Food and Drug Administration has approved the abortion inducing drug to be used for abortions later than nine (9) weeks of postfertilization age. A physician shall examine a pregnant woman in person before prescribing or dispensing an abortion inducing drug. As used in this subdivision, "in person" does not include the use of telehealth or telemedicine services.

(2) For an abortion performed by a surgical procedure, after the first trimester of pregnancy and before the earlier of viability of the fetus or twenty (20) weeks of postfertilization age, for reasons based upon the professional, medical judgment of the pregnant woman's physician if:

(A) all the circumstances and provisions required for legal abortion during the first trimester are present and adhered to;

and

(B) the abortion is performed in a hospital or ambulatory outpatient surgical center (as defined in IC 16-18-2-14).

(3) Except as provided in subsection (b), and for an abortion performed by a surgical procedure, at the earlier of viability of the fetus or twenty (20) weeks of postfertilization age and any time after, for reasons based upon the professional, medical judgment of the pregnant woman's physician if:

(A) all the circumstances and provisions required for legal abortion before the earlier of viability of the fetus or twenty (20) weeks of postfertilization age are present and adhered to;

(B) the abortion is performed in compliance with section 3 of this chapter; and

(C) before the abortion the attending physician shall certify in writing to the hospital in which the abortion is to be performed, that in the attending physician's professional, medical judgment, after proper examination and review of the woman's history, the abortion is necessary to prevent a substantial permanent impairment of the life or physical health of the pregnant woman. All facts and reasons supporting the certification shall be set forth by the physician in writing and attached to the certificate.

(b) A person may not knowingly or intentionally perform a partial birth abortion unless a physician reasonably believes that:

(1) performing the partial birth abortion is necessary to save the mother's life; and

(2) no other medical procedure is sufficient to save the mother's life.

Responsibilities of attending physician; determination of postfertilization age; disciplinary action for violation

Sec. 2. (a) It shall be the responsibility of the attending physician to do the following:

(1) Determine in accordance with accepted medical standards the postfertilization age of the fetus and which trimester the pregnant woman receiving the abortion is in.

(2) Determine whether the fetus is viable.

(3) Certify that determination as part of any written reports required of the attending physician by the state department or the facility in which the abortion is performed.

(b) In making a determination under this section of the postfertilization age of the fetus, the attending physician shall do the following:

(1) Question the patient concerning the date of fertilization.

(2) Perform or cause to be performed medical examinations and tests that a reasonably prudent physician would conduct to accurately diagnose the postfertilization age of the fetus.

(c) Except in the case of a medical emergency (as described in section 0.5 of this chapter), a physician that violates this section is

subject to disciplinary action under IC 25-1-9.

IC 16-34-2-3

Conditions for abortion after viability or 20 weeks; attendance of physician for preservation of life and health of viable unborn child; certificates of birth or death; offense for violation; ward

Sec. 3. (a) All abortions performed on and after the earlier of the time a fetus is viable or the time the postfertilization age of the fetus is at least twenty (20) weeks shall be:

- (1) governed by section 1(a)(3) and 1(b) of this chapter;
- (2) performed in a hospital having premature birth intensive care units, unless compliance with this requirement would result in an increased risk to the life or health of the mother; and
- (3) performed in the presence of a second physician as provided in subsection (b).

(b) An abortion may be performed after the earlier of the time a fetus is viable or the time the postfertilization age of the fetus is at least twenty (20) weeks only if there is in attendance a physician, other than the physician performing the abortion, who shall take control of and provide immediate care for a child born alive as a result of the abortion. During the performance of the abortion, the physician performing the abortion, and after the abortion, the physician required by this subsection to be in attendance, shall take all reasonable steps in keeping with good medical practice, consistent with the procedure used, to preserve the life and health of the viable unborn child. However, this subsection does not apply if compliance would result in an increased risk to the life or health of the mother.

(c) Any fetus born alive shall be treated as a person under the law, and a birth certificate shall be issued certifying the child's birth even though the child may subsequently die, in which event a death certificate shall be issued. Failure to take all reasonable steps, in keeping with good medical practice, to preserve the life and health of the live born person shall subject the responsible persons to Indiana laws governing homicide, manslaughter, and civil liability for wrongful death and medical malpractice.

(d) If, before the abortion, the mother, and if married, her husband, has or have stated in writing that she does or they do not wish to keep the child in the event that the abortion results in a live birth, and this writing is not retracted before the abortion, the child, if born alive, shall immediately upon birth become a ward of the department of child services.

Written consent of parent or guardian of unemancipated pregnant

woman under 18 years of age; conditions of waiver; representation by attorney; appeal; confidential records; emergency abortions

Sec. 4. (a) No physician shall perform an abortion on an unemancipated pregnant woman less than eighteen (18) years of age without first having obtained the written consent of one (1) of the parents or the legal guardian of the minor pregnant woman.

(b) A minor:

- (1) who objects to having to obtain the written consent of her parent or legal guardian under this section; or
- (2) whose parent or legal guardian refuses to consent to an abortion;

may petition, on her own behalf or by next friend, the juvenile court in the county in which the pregnant woman resides or in which the abortion is to be performed, for a waiver of the parental consent requirement under subsection (a). A next friend may not be a physician or provider of abortion services, representative of the physician or provider, or other person that may receive a direct financial benefit from the performance of an abortion.

(c) A physician who feels that compliance with the parental consent requirement in subsection (a) would have an adverse effect on the welfare of the pregnant minor or on her pregnancy may petition the juvenile court within twenty-four (24) hours of the abortion request for a waiver of the parental consent requirement under subsection (a).

(d) The juvenile court must rule on a petition filed by a pregnant minor under subsection (b) or by her physician under subsection (c) within forty-eight (48) hours of the filing of the petition. Before ruling on the petition, the court shall consider the concerns expressed by the pregnant minor and her physician. The requirement of parental consent under this section shall be waived by the juvenile court if the court finds that the minor is mature enough to make the abortion decision independently or that an abortion would be in the minor's best interests.

(e) Unless the juvenile court finds that the pregnant minor is already represented by an attorney, the juvenile court shall appoint an attorney to represent the pregnant minor in a waiver proceeding brought by the minor under subsection (b) and on any appeals. The cost of legal representation appointed for the minor under this section shall be paid by the county.

(f) A minor or her physician who desires to appeal an adverse judgment of the juvenile court in a waiver proceeding under subsection (b) or (c) is entitled to an expedited appeal, under rules to be adopted by the supreme court.

(g) All records of the juvenile court and of the supreme court or the court of appeals that are made as a result of proceedings conducted under this section are confidential.

(h) A minor who initiates legal proceedings under this section is exempt from the payment of filing fees.

(i) This section shall not apply where there is an emergency need

for a medical procedure to be performed such that continuation of the pregnancy provides an immediate threat and grave risk to the life or health of the pregnant woman and the attending physician so certifies in writing.

- (1) has admitting privileges in writing at a hospital located in the county where abortions are provided or in a contiguous county; or
- (2) has entered into a written agreement with a physician who has written admitting privileges at a hospital in the county or contiguous county concerning the management of possible complications of the services provided.

(b) A physician who performs an abortion shall notify the patient of the location of the hospital at which the physician or a physician with whom the physician has entered into an agreement under subsection (a)(2) has admitting privileges and where the patient may receive follow-up care by the physician if complications arise.

(c) An abortion clinic shall:

- (1) keep at the abortion clinic a copy of the admitting privileges of a physician described in subsection (a)(1) and (a)(2); and
- (2) submit a copy of the admitting privileges described in subdivision (1) to the state department as part of the abortion clinic's licensure. The state department shall verify the validity of the admitting privileges document. The state department shall remove any identifying information from the admitting privileges document before releasing the document under IC 5-14-3.

(d) The state department shall confirm to a member of the public, upon request, that the admitting privileges required to be submitted under this section for an abortion clinic have been received by the state department.

(e) Notwithstanding IC 5-14-3-6 and IC 5-14-3-6.5, this section only allows for the redaction of information that is described in subsection (c). This section does not allow the state department to limit the disclosure of information in other public documents.

Isolation; quarantine; notice; hearing; orders; renewal; crime; rules

Sec. 1.5. (a) If a public health authority has reason to believe that:

(1) an individual:

(A) has been infected with; or

(B) has been exposed to;

a dangerous communicable disease or outbreak; and

(2) the individual is likely to cause the infection of an uninfected individual if the individual is not restricted in the individual's ability to come into contact with an uninfected individual;

the public health authority may petition a circuit or superior court for an order imposing isolation or quarantine on the individual. A petition for isolation or quarantine filed under this subsection must be verified and include a brief description of the facts supporting the public health authority's belief that isolation or quarantine should be imposed on an individual, including a description of any efforts the public health authority made to obtain the individual's voluntary compliance with isolation or quarantine before filing the petition.

(b) Except as provided in subsections (e) and (k), an individual described in subsection (a) is entitled to notice and an opportunity to be heard, in person or by counsel, before a court issues an order imposing isolation or quarantine. A court may restrict an individual's right to appear in person if the court finds that the individual's personal appearance is likely to expose an uninfected person to a dangerous communicable disease or outbreak.

(c) If an individual is restricted from appearing in person under subsection (b), the court shall hold the hearing in a manner that allows all parties to fully and safely participate in the proceedings under the circumstances.

(d) If the public health authority proves by clear and convincing evidence that:

- (1) an individual has been infected or exposed to a dangerous communicable disease or outbreak; and
- (2) the individual is likely to cause the infection of an uninfected individual if the individual is not restricted in the individual's ability to come into contact with an uninfected individual;

the court may issue an order imposing isolation or quarantine on the individual. The court shall establish the conditions of isolation or quarantine, including the duration of isolation or quarantine. The court shall impose the least restrictive conditions of isolation or quarantine that are consistent with the protection of the public.

(e) If the public health authority has reason to believe that an individual described in subsection (a) is likely to expose an uninfected individual to a dangerous communicable disease or outbreak before the individual described in subsection (a) can be provided with notice and an opportunity to be heard, the public health authority may seek in a circuit or superior court an emergency order of quarantine or isolation by filing a verified petition for emergency quarantine or isolation. The verified petition must include a brief description of the facts supporting the public health authority's belief that:

- (1) isolation or quarantine should be imposed on an individual; and
- (2) the individual described in subsection (a) may expose an uninfected individual to a dangerous communicable disease or outbreak before the individual described in subsection (a) can be provided with notice and an opportunity to be heard.

The verified petition must include a description of any efforts the public health authority made to obtain the individual's voluntary compliance with isolation or quarantine before filing the petition.

(f) If the public health authority proves by clear and convincing evidence that:

- (1) an individual has been infected or exposed to a dangerous communicable disease or outbreak;
- (2) the individual is likely to cause the infection of an uninfected individual if the individual is not restricted in the individual's ability to come into contact with an uninfected individual; and
- (3) the individual may expose an uninfected individual to a dangerous communicable disease or outbreak before the individual can be provided with notice and an opportunity to be heard;

the court may issue an emergency order imposing isolation or quarantine on the individual. The court shall establish the duration and other conditions of isolation or quarantine. The court shall impose the least restrictive conditions of isolation or quarantine that are consistent with the protection of the public.

(g) A court may issue an emergency order of isolation or quarantine without the verified petition required under subsection (e)

if the court receives sworn testimony of the same facts required in the verified petition:

- (1) in a nonadversarial, recorded hearing before the judge;
- (2) orally by telephone or radio;
- (3) in writing by facsimile transmission (fax); or
- (4) through other electronic means approved by the court.

If the court agrees to issue an emergency order of isolation or quarantine based upon information received under subdivision (2), the court shall direct the public health authority to sign the judge's name and to write the time and date of issuance on the proposed emergency order. If the court agrees to issue an emergency order of isolation or quarantine based upon information received under subdivision (3), the court shall direct the public health authority to transmit a proposed emergency order to the court, which the court shall sign, add the date of issuance, and transmit back to the public health authority. A court may modify the conditions of a proposed emergency order.

(h) If an emergency order of isolation or quarantine is issued under subsection (g)(2), the court shall record the conversation on audiotape and order the court reporter to type or transcribe the recording for entry in the record. The court shall certify the audiotape, the transcription, and the order retained by the judge for entry in the record.

(i) If an emergency order of isolation or quarantine is issued under subsection (g)(3), the court shall order the court reporter to retype or copy the facsimile transmission for entry in the record. The court shall certify the transcription or copy and order retained by the judge for entry in the record.

(j) The clerk shall notify the public health authority who received an emergency order under subsection (g)(2) or (g)(3) when the transcription or copy required under this section is entered in the record. The public health authority shall sign the typed, transcribed, or copied entry upon receiving notice from the court reporter.

(k) The public health authority may issue an immediate order imposing isolation or quarantine on an individual if exigent circumstances, including the number of affected individuals, exist that make it impracticable for the public health authority to seek an order from a court, and obtaining the individual's voluntary compliance is or has proven impracticable or ineffective. An immediate order of isolation or quarantine expires after seventy-two (72) hours, excluding Saturdays, Sundays, and legal holidays, unless renewed in accordance with subsection (l). The public health authority shall establish the other conditions of isolation or quarantine. The public health authority shall impose the least restrictive conditions of isolation or quarantine that are consistent with the protection of the public. If the immediate order applies to a group of individuals and it is impracticable to provide individual notice, the public health authority shall post a copy of the order where it is likely to be seen by individuals subject to the order.

(l) The public health authority may seek to renew an order of isolation or quarantine or an immediate order of isolation or quarantine issued under this section by doing the following:

(1) By filing a petition to renew the emergency order of isolation or quarantine or the immediate order of isolation or quarantine with:

(A) the court that granted the emergency order of isolation or quarantine; or

(B) a circuit or superior court, in the case of an immediate order.

The petition for renewal must include a brief description of the facts supporting the public health authority's belief that the individual who is the subject of the petition should remain in isolation or quarantine and a description of any efforts the public health authority made to obtain the individual's voluntary compliance with isolation or quarantine before filing the petition.

(2) By providing the individual who is the subject of the emergency order of isolation or quarantine or the immediate order of isolation or quarantine with a copy of the petition and notice of the hearing at least twenty-four (24) hours before the time of the hearing.

(3) By informing the individual who is the subject of the emergency order of isolation or quarantine or the immediate order of isolation or quarantine that the individual has the right to:

(A) appear, unless the court finds that the individual's personal appearance may expose an uninfected person to a dangerous communicable disease or outbreak;

(B) cross-examine witnesses; and

(C) counsel, including court appointed counsel in accordance with subsection (c).

(4) If:

(A) the petition applies to a group of individuals; and

(B) it is impracticable to provide individual notice;

by posting the petition in a conspicuous location on the isolation or quarantine premises.

(m) If the public health authority proves by clear and convincing evidence at a hearing under subsection (l) that:

(1) an individual has been infected or exposed to a dangerous communicable disease or outbreak; and

(2) the individual is likely to cause the infection of an uninfected individual if the individual is not restricted in the individual's ability to come into contact with an uninfected individual;

the court may renew the existing order of isolation or quarantine or issue a new order imposing isolation or quarantine on the individual. The court shall establish the conditions of isolation or quarantine, including the duration of isolation or quarantine. The court shall

impose the least restrictive conditions of isolation or quarantine that are consistent with the protection of the public.

(n) Unless otherwise provided by law, a petition for isolation or quarantine, or a petition to renew an immediate order for isolation or quarantine, may be filed in a circuit or superior court in any county. Preferred venue for a petition described in this subsection is:

- (1) the county or counties (if the area of isolation or quarantine includes more than one (1) county) where the individual, premises, or location to be isolated or quarantined is located; or
- (2) a county adjacent to the county or counties (if the area of isolation or quarantine includes more than one (1) county) where the individual, premises, or location to be isolated or quarantined is located.

This subsection does not preclude a change of venue for good cause shown.

(o) Upon the motion of any party, or upon its own motion, a court may consolidate cases for a hearing under this section if:

- (1) the number of individuals who may be subject to isolation or quarantine, or who are subject to isolation or quarantine, is so large as to render individual participation impractical;
- (2) the law and the facts concerning the individuals are similar; and
- (3) the individuals have similar rights at issue.

A court may appoint an attorney to represent a group of similarly situated individuals if the individuals can be adequately represented. An individual may retain his or her own counsel or proceed pro se.

(p) A public health authority that imposes a quarantine that is not in the person's home:

- (1) shall allow the parent or guardian of a child who is quarantined under this section; and
- (2) may allow an adult;

to remain with the quarantined individual in quarantine. As a condition of remaining with the quarantined individual, the public health authority may require a person described in subdivision (2) who has not been exposed to a dangerous communicable disease to receive an immunization or treatment for the disease or condition, if an immunization or treatment is available and if requiring immunization or treatment does not violate a constitutional right.

(q) If an individual who is quarantined under this section is the sole parent or guardian of one (1) or more children who are not quarantined, the child or children shall be placed in the residence of a relative, friend, or neighbor of the quarantined individual until the quarantine period has expired. Placement under this subsection must be in accordance with the directives of the parent or guardian, if possible.

(r) State and local law enforcement agencies shall cooperate with the public health authority in enforcing an order of isolation or quarantine.

(s) The court shall appoint an attorney to represent an indigent

individual in an action brought under this chapter or under IC 16-41-6. If funds to pay for the court appointed attorney are not available from any other source, the state department may use the proceeds of a grant or loan to reimburse the county, state, or attorney for the costs of representation.

(t) A person who knowingly or intentionally violates a condition of isolation or quarantine under this chapter commits violating quarantine or isolation, a Class A misdemeanor.

(u) The state department shall adopt rules under IC 4-22-2 to implement this section, including rules to establish guidelines for:

- (1) voluntary compliance with isolation and quarantine;
- (2) quarantine locations and logistical support; and
- (3) moving individuals to and from a quarantine location.

The absence of rules adopted under this subsection does not preclude the public health authority from implementing any provision of this section.

(b) If an out of home, nonhospital quarantine is imposed on an individual, the individual shall be housed as close as possible to the individual's residence.

(c) In exercising the powers described in this section or in section 1.5 of this chapter, the public health authority may not prohibit a

person lawfully permitted to possess a firearm from possessing one (1) or more firearms unless the person is quarantined in a mass quarantine location. The public health authority may not remove a firearm from the person's home, even if the person is quarantined in a mass quarantine location.

(d) This section does not prohibit a public health authority from adopting rules and enforcing rules to implement this section if the rules are not inconsistent with this section.

(b) Whenever, with regard to any other food or class of food, the state department finds that such action will promote honesty and fair dealing in the interest of consumers, the state department shall adopt rules establishing for any food or class of food:

- (2) a reasonable standard of quality and fill of container.

IC 16-42-2-2

Adulterated foods

Sec. 2. (a) A food is considered adulterated under any of the following conditions:

- (1) If the food bears or contains any poisonous or deleterious substance that may make the food injurious to health. However, if the substance is not an added substance, the food is not to be considered adulterated under this subdivision if the quantity of the substance in the food does not ordinarily make the food injurious to health.

- (2) If:
- (A) the food bears or contains any added poison or added deleterious substance (other than a poison or a deleterious substance that is a pesticide chemical in or on a raw agricultural commodity, a food additive, or a color additive) that is unsafe within the meaning of section 5 of this chapter;
 - (B) the food is a raw agricultural commodity and the food bears or contains a pesticide chemical that is unsafe under section 5 of this chapter; or
 - (C) the food is or contains a food additive that is unsafe under section 5 of this chapter.

However, when a pesticide chemical is used in or on a raw agricultural commodity in conformity with an exemption granted or tolerance prescribed under section 5 of this chapter and the raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating, or milling, the residue of the pesticide chemical remaining in or on the processed food, notwithstanding section 5 of this chapter and clause (C) is not considered unsafe if the residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice, and the concentration of the residues in the processed food, when ready to eat, is not greater than the tolerance prescribed for the raw agricultural commodity.

- (3) If the food consists in whole or in part of a diseased, contaminated, filthy, putrid, or decomposed substance or if the food is otherwise unfit for food.
- (4) If the food has been produced, transported, handled, prepared, packed, or held under unsanitary conditions or in unsanitary containers as the result of which the food may have become contaminated with filth or made diseased, unwholesome, or injurious to health.
- (5) If the food is, in whole or in part, the product of:
 - (A) a diseased animal;
 - (B) an animal that has died otherwise than by slaughter; or
 - (C) an animal that has been fed upon the uncooked offal from a slaughterhouse.
- (6) If the food's container is composed in whole or in part of any poisonous or deleterious substance that may make the contents injurious to health.
- (7) If the food has been intentionally subjected to radiation, unless the use of the radiation was in conformity with a rule or an exemption in effect under section 5 of this chapter.
- (8) If any valuable constituent has been in whole or in part omitted or abstracted from the food.
- (9) If any substance has been substituted wholly or in part.
- (10) If damage or inferiority has been concealed in any manner.
- (11) If any substance has been added to the food or mixed or packed with the food to:

- (A) increase the food's bulk or weight;
- (B) reduce the food's quality or strength;
- (C) make the food appear better or of greater value than the food is; or
- (D) create a deceptive appearance.

(12) If the food bears or contains a coal-tar color other than one from a batch that has been certified by the federal Food and Drug Administrator, as provided by regulations promulgated under authority of the Federal Act.

(13) If the food is a confectionery and has partially or completely imbedded in the food any nonnutritive object. However, this subdivision does not apply in the case of any nonnutritive object if, in the judgment of the state department as provided by rules, the nonnutritive object is of practical, functional value to the confectionery product and would not make the product injurious or hazardous to health.

(14) If the food is a confectionery and bears or contains any alcohol other than alcohol not in excess of one-half of one percent (0.5%) by volume derived solely from the use of flavoring extracts.

(15) If the food is a confectionery and bears or contains any nonnutritive substance. However, this subdivision does not apply to a safe, nonnutritive substance if:

(A) the nonnutritive substance is in or on a confectionery for a practical, functional purpose in the manufacture, packaging, or storing of the confectionery; and

(B) the use of the substance does not promote deception of the consumer or otherwise result in adulteration or misbranding in violation of any provision of IC 16-42-1 through IC 16-42-4. In addition, the state department may, for the purpose of avoiding or resolving uncertainty as to the application of this subdivision, adopt rules allowing or prohibiting the use of particular nonnutritive substances.

(16) If the food falls below the standard of purity, quality, or strength that the food purports or is represented to possess.

(17) If the food is or bears or contains any color additive that is unsafe under section 5 of this chapter.

(b) Subsection (a)(8) and (a)(9) do not prohibit:

- (1) the removal of butterfat from; or
- (2) the addition of skim milk to;

dairy products that comply with the definitions and standards for dairy products adopted by the state department.

As added by P.L.2-1993, SEC.25.

IC 16-42-2-3

Misbranded foods

Sec. 3. A food is considered to be misbranded under any of the following conditions:

- (1) If the food's labeling is false or misleading in any way.

- (2) If the food's labeling or packaging fails to conform with the rules adopted under IC 16-42-1-2.
- (3) If the food is offered for sale under the name of another food.
- (4) If the food is an imitation of another food, unless the food's label bears, in type of uniform size and prominence, the word "imitation" and, immediately following that term, the name of the food imitated.
- (5) If the food's container is so made, formed, or filled as to be misleading.
- (6) If the food is in package form, unless the food bears a label containing the following:
 - (A) The name and place of business of the manufacturer, packer, or distributor.
 - (B) An accurate statement of the quantity of the contents in terms of weight, measure, or numerical count. However, reasonable variations shall be permitted under this clause and exemptions for small packages shall be established by rules adopted by the state department.
- (7) If any word, statement, or other information required under IC 16-42-1 through IC 16-42-4 to appear on the label or labeling is not prominently placed on the food with the conspicuousness (as compared with other words, statements, designs, or devices in the labeling) and in such terms that make the information likely to be read and understood by the ordinary individual under customary conditions of purchase and use.
- (8) If the food purports to be or is represented as a food for which a definition and standard of identity has been prescribed by rules under section 1 of this chapter, unless:
 - (A) the food conforms to that definition and standard; and
 - (B) the food's label bears the name of the food specified in the definition and standard, and, insofar as may be required by those rules, the common names of optional ingredients (other than spices, flavoring, and coloring) present in the food.

This subdivision with respect to artificial coloring does not apply to butter, cheese, or ice cream.

- (9) If the food purports to be or is represented as:
 - (A) a food for which a standard of quality has been prescribed by rules as provided by section 1 of this chapter and the food's quality falls below that standard, unless the label bears, in the manner and form as the rules specify, a statement that the food falls below that standard; or
 - (B) a food for which a standard or standards of fill of container have been prescribed by rule under section 1 of this chapter and the food falls below the applicable standard of fill of container unless the food's label bears, in such manner and form as the rules specify, a statement that the food falls below that standard.

(10) If the food is not subject to subdivision (8), unless the food's label bears:

- (A) the common or usual name of the food, if any; and
- (B) if the food is fabricated from at least two (2) ingredients, the common or usual name of each ingredient. However, spices, flavorings, and colorings, other than those sold as such, may be designated as spices, flavorings, and colorings without naming each. In addition, to the extent that compliance with this clause is impracticable or results in deception or unfair competition, the state department shall establish exemptions by rule.

This subdivision with respect to artificial coloring does not apply to butter, cheese, or ice cream.

(11) If the food purports to be or is represented to be for special dietary uses, unless the food's label bears information concerning the food's vitamin, mineral, and other dietary properties that the state department determines to be, and by rules prescribes as necessary to fully inform purchasers as to the food's value for such uses.

(12) If the food bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless the food bears labeling stating that fact. However, to the extent that compliance with the requirements of this subdivision is impracticable, the state department shall establish exemptions by rule. This subdivision:

- (A) with respect to artificial coloring, does not apply to butter, cheese, or ice cream; and
- (B) with respect to chemical preservatives, does not apply to a pesticide chemical when used in or on a raw agricultural commodity that is the product of the soil.

Poisonous or deleterious substances; regulations

Sec. 5. (a) Any added poisonous or deleterious substance, any food additive, any pesticide chemical in or on a raw agricultural

commodity or any color additive, with respect to any particular use or intended use, are considered unsafe for the purpose of application of:

- (1) section 2(a)(2) of this chapter with respect to any food;
- (2) IC 16-42-3-3(1) through IC 16-42-3-3(5) with respect to any drug or device; or
- (3) IC 16-42-4-2(1) with respect to any cosmetic;

unless there is in effect a rule under IC 16-42-1-2 or this section limiting the quantity of the substance and unless the use or intended use of the substance conforms to the terms prescribed by rule. While the rules regarding the substance are in effect, a food, drug, or cosmetic is not, by reason of bearing or containing the substance in accordance with the rules, to be considered adulterated within the meaning of section 2(a)(1) of this chapter, IC 16-42-3-3(1) through IC 16-42-3-3(5), or IC 16-42-4-2(1).

(b) The state department may, whenever public health or other considerations in Indiana require and upon the state department's own motion or upon the petition of an interested party, adopt, amend, or repeal rules (whether or not in accordance with regulations promulgated under the Federal Act) that do the following:

- (1) Prescribe tolerances for any of the following:
 - (A) Any added, poisonous, or deleterious substances.
 - (B) Food additives.
 - (C) Pesticide chemicals in or on raw agricultural commodities.
 - (D) Color additives.

This includes zero tolerances and exemptions from tolerances in the case of pesticide chemicals in or on raw agricultural commodities.

- (2) Prescribe the conditions under which a food additive or a color additive may be safely used and exemptions where the food additive or color additive is to be used solely for investigational or experimental purposes.

(c) It is incumbent upon an interested party who petitions that a rule be adopted under subsection (b) to establish, by data submitted to the state health commissioner or the commissioner's legally authorized agent, that:

- (1) a necessity exists for the rule; and
- (2) the rule's effect will not be detrimental to the public health.

(d) If the data furnished by an interested party who petitions that a rule be adopted under subsection (b) is not sufficient to allow the state department to determine whether the rule should be adopted, the state department may require additional data to be submitted. Failure to comply with such a request is sufficient grounds to deny the request.

(e) In adopting, amending, or repealing rules regarding such substances, the state department shall consider, among other relevant factors, the following items that are required to be furnished by the interested party who petitions for the adoption of a rule, if any:

- (1) The name and all pertinent information concerning the substance, including if available the following:
 - (A) The chemical identity and composition of the substance.
 - (B) A statement of the conditions of the proposed use, including directions, recommendations, and suggestions, and specimens of proposed labeling.
 - (C) All relevant data bearing on the physical or other technical effect and the quantity required to produce that effect.
- (2) The probable composition of any substance formed in or on a food, drug, or cosmetic resulting from the use of that substance.
- (3) The probable consumption of the substance in the diet of man and animals, taking into account any chemically or pharmacologically related substance in the diet.
- (4) Safety factors that, in the opinion of experts qualified by scientific training and experience to evaluate the safety of the substances for the use for which the substances are proposed to be used, are generally recognized as appropriate for the use of animal experimentation data.
- (5) The availability of any needed practicable methods of analysis for determining the identity and quantity of the following:
 - (A) The substance in or on an article.
 - (B) Any substance formed in or on such article because of the use of that substance.
 - (C) The pure substance and all intermediates and impurities.
- (6) Facts supporting a contention that the proposed use of the substance will serve a useful purpose.

(c) Indemnity compensation shall be paid for losses incurred in the preceding calendar year and may not exceed eighty percent (80%) of the average commercial market value of the livestock, livestock product, poultry, or poultry product, less any indemnity received from another state or federal agency, for the period the producer is unable to sell the products. However, the aggregate indemnity compensation paid may not exceed the appropriation for any fiscal year.

(d) For purposes of this section, the commercial market value of livestock subject to indemnity compensation shall be determined as of the time of condemnation.

- (2) if there is no official name and the drug or the ingredient is an article recognized in an official compendium, the official title of the drug or ingredient in the compendium; or
- (3) if neither subdivision (1) nor (2) applies, the common or usual name, if any, of the drug or the ingredient.

However, when subdivision (2) applies to an article recognized in the United States Pharmacopoeia and in the Homeopathic Pharmacopoeia under different official titles, the official title used in the United States Pharmacopoeia applies unless the article is labeled and offered for sale as a homeopathic drug, in which case the official title used in the Homeopathic Pharmacopoeia applies.

Duties of state veterinarian and state board of animal health

Sec. 2.5. (a) The state veterinarian shall act in place of the state health commissioner under this chapter when impounding or disposing of adulterated or misbranded products under IC 15-17-5 or IC 15-18-1.

(b) The Indiana state board of animal health shall act in place of the state department of health under this chapter when impounding or disposing of adulterated or misbranded products under IC 15-17-5 or IC 15-18-1.

As added by P.L.137-1996, SEC.70. Amended by P.L.2-2008, SEC.43.

IC 16-42-3-3

Adulterated drug or device

Sec. 3. A drug or device is considered to be adulterated under the

following conditions:

- (1) If the drug or device consists in whole or in part of any filthy, putrid, or decomposed substance.
- (2) If the drug or device has been produced, prepared, packed, or held under unsanitary conditions under which the drug or device may have been contaminated with filth or made injurious to health.
- (3) If the methods used in or the facilities or controls used for a drug's manufacture, processing, packing, or holding do not conform to or are not operated or administered in conformity with current good manufacturing practice to assure that:
 - (A) the drug meets the requirements of this article as to safety; and
 - (B) the drug:
 - (i) has the identity and strength; and
 - (ii) meets the quality and purity characteristics;that the drug purports or is represented to possess.
- (4) If a drug's container is composed in whole or in part of any poisonous or deleterious substance that may make the contents injurious to health.
- (5) If:
 - (A) a drug bears or contains, for purposes of coloring only, a color additive that is unsafe within the meaning of IC 16-42-2-5; or
 - (B) a color additive, the intended use of which in or on drugs is for purposes of coloring only, is unsafe under IC 16-42-2-5.
- (6) If:
 - (A) the drug or device purports to be or is represented as a drug, the name of which is recognized in an official compendium; and
 - (B) the strength of the drug differs from or the drug's quality or purity falls below the standard set forth in that compendium;

the determination as to strength, quality, or purity shall be made in accordance with the tests or methods of assay set forth in the compendium or, in the absence or inadequacy of such tests or methods of assay, those tests or methods prescribed by the federal security administrator in regulations promulgated under the Federal Act. A drug defined in an official compendium is not considered to be adulterated under this subdivision because the drug differs from the standard of strength, quality, or purity set forth in the compendium if the drug's difference in strength, quality, or purity from the standard is plainly stated on the drug's label. If a drug is recognized in both the United States Pharmacopoeia and the Homeopathic Pharmacopoeia of the United States, the drug is subject to the requirements of the United States Pharmacopoeia unless the drug is labeled and offered for sale as a homeopathic drug. In the latter case, the

drug is subject to the provisions of the Homeopathic Pharmacopoeia of the United States and not to those of the United States Pharmacopoeia.

(7) If:

(A) the drug or device is not subject to the provisions of subdivision (6); and

(B) the drug's or device's strength differs from or the drug's or device's purity or quality falls below that which the drug or device purports or is represented to possess.

(8) If the drug or device is a drug and any substance has been:

(A) mixed or packed with the drug or device so as to reduce the drug's or device's quality or strength; or

(B) substituted wholly or in part for the drug.

As added by P.L.2-1993, SEC.25.

IC 16-42-3-4

Misbranded drug or device

Sec. 4. A drug or device is considered to be misbranded under any of the following conditions:

(1) If the labeling of the drug or device is false or misleading in any way.

(2) If the drug or device is in package form unless the drug or device bears a label containing:

(A) the name and place of business of the manufacturer, packer, or distributor; and

(B) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count.

However, under clause (B) reasonable variations shall be permitted and exemptions as to small packages shall be established by rules adopted by the state department.

(3) If any word, statement, or other information required to appear on the label or labeling, under this chapter or a rule adopted under IC 16-42-1-2 is not prominently placed on the drug or device with conspicuousness (as compared with other words, statements, designs, or devices in the labeling) and in such terms that make the label likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(4) If the drug or device:

(A) is for use by humans; and

(B) contains any quantity of the narcotic or hypnotic substance alpha-eucaine, barbituric acid, beta-eucaine, bromal, cannabis, carbromal, chloral, coca, cocaine, codeine, heroin, marijuana, morphine, opium, paraldehyde, peyote, methamphetamine, or sulphonmethane, or any chemical derivative of such substance, which derivative after investigation has been found to be and is designated as habit forming, by rules adopted by the state department under IC 16-42-1 through IC 16-42-4 or by regulations issued

under 21 U.S.C. 352(d);
unless the label on the drug or device bears the name and quantity or proportion of that substance or derivative and the statement "Warning – May Be Habit Forming".

(5) If a drug, unless the following conditions are met:

(A) The label on the drug bears, to the exclusion of any other nonproprietary name except the applicable systematic chemical name or the chemical formula, the following:

(i) The established name of the drug, if any.

(ii) If the drug is fabricated from at least two (2) ingredients, the established name and quantity of each active ingredient, including the kind and quantity or proportion of any alcohol and, whether active or not, the established name and quantity or proportion of any bromides, ether, chloroform, acetanilid, acetphenetidin, amidopyrine, antipyrine, atropine, hyoscine, hyoscyamine, arsenic, digitalis, digitalis glucosides, mercury, ouabain, strophanthin, strychnine, thyroid, or any derivative or preparation of those substances contained in the drug. However, the requirement for stating the quantity of the active ingredients, other than the quantity of those specifically named in this subdivision, applies only to prescription drugs.

(B) If a prescription drug, the established name of the drug or ingredient on the label (and on any labeling on which a name for the drug or ingredient is used) is printed prominently and in type at least half as large as that used for any proprietary name or designation for the drug or ingredient.

However, to the extent that compliance with the requirements of clause (A)(ii) or clause (B) is impracticable, exemptions shall be allowed under rules adopted by the state department or by regulations promulgated under the Federal Act.

(6) Unless the drug's or device's labeling bears:

(A) adequate directions for use; and

(B) adequate warnings against use in those pathological conditions or by children where the drug's or device's use may be dangerous to health or against unsafe dosage or methods or duration of administration or application in the manner and form that is necessary for the protection of users.

However, if any requirement of clause (A) as applied to any drug or device is not necessary for the protection of the public health, the state department shall adopt rules exempting the drug or device from that requirement.

(7) If a drug purports to be a drug the name of which is recognized in an official compendium, unless the drug is packaged and labeled as prescribed in the compendium. However, the method of packing may be modified with the consent of the state department in accordance with regulations

promulgated by the federal security administrator under the Federal Act. Whenever a drug is recognized in both the United States Pharmacopoeia and the Homeopathic Pharmacopoeia of the United States, the drug is subject to the requirements of the United States Pharmacopoeia with respect to packaging and labeling unless the drug is labeled and offered for sale as a homeopathic drug. In that case the drug is subject to the Homeopathic Pharmacopoeia of the United States and not to the United States Pharmacopoeia.

(8) If a drug or device has been found by the federal security administrator or the state department to be a drug liable to deterioration, unless the drug or device is packaged in a form and manner and the drug's or device's label bears a statement of such precautions as the federal security administrator or the state department requires by rule or regulation as necessary for the protection of the public health. A rule or regulation may not be established for any drug recognized in an official compendium until the federal security administrator or the state department informs the appropriate body charged with the revision of the compendium of the need for the packaging or labeling requirements and that body fails within a reasonable time to prescribe requirements.

(9) If a drug's container is made, formed, or filled as to be misleading.

(10) If a drug is an imitation of another drug.

(11) If a drug is offered for sale under the name of another drug.

(12) If a drug is or purports to be or is represented to be a drug composed wholly or partly of insulin, unless:

(A) the drug is from a batch with respect to which a certificate or release has been issued under Section 506 of the Federal Act; and

(B) the certificate or release is in effect with respect to the drug.

(13) If a drug is or purports to be or is represented to be a drug composed wholly or partly of any kind of penicillin, streptomycin, chlortetracycline, chloramphenicol, bacitracin, or any other antibiotic drug, or any derivative of those drugs, unless:

(A) the drug is from a batch with respect to which a certificate or release has been issued under Section 507 of the Federal Act; and

(B) the certificate or release is in effect with respect to that drug.

However, this subdivision does not apply to any drug or class of drugs exempted by regulations promulgated under Section 507(c) or 507(d) of the Federal Act.

(14) If a drug or device is dangerous to health when used in the dosage, or with the frequency or duration prescribed, recommended, or suggested in the labeling of the drug or

device.

(15) Under the conditions described in section 6 of this chapter.

IC 16-42-3-5

Exemption of drugs or devices in transit for further processing, labeling, or repackaging

Sec. 5. A drug or device that, in accordance with the practice of the trade, is to be processed, labeled, or repacked in substantial quantities at an establishment other than the establishment where the drug or device was originally processed or packed, is exempt from the labeling and packaging requirements of IC 16-42-1 through IC 16-42-4 while the drug or device is in transit in intrastate commerce from one (1) establishment to the other if the transit is made in good faith for completion purposes only. However, the drug or device is otherwise subject to the applicable provisions of IC 16-42-1 through IC 16-42-4.

As added by P.L.2-1993, SEC.25.

IC 16-42-3-6

Drugs dispensed on prescription

Sec. 6. (a) This section applies to a drug intended for use by humans that:

- (1) is a habit forming drug to which section 4(4) of this chapter applies;
- (2) because of:
 - (A) the drug's toxicity or other potential for harmful effect;
 - (B) the method of the drug's use; or
 - (C) the collateral measures necessary to the drug's use;

is not safe for use except under the supervision of a practitioner licensed by law to administer the drug; or

- (3) is limited by an approved application under Section 505 of the Federal Act or section 7 or 8 of this chapter to use under the professional supervision of a practitioner licensed by law to administer the drug.

(b) A drug described in subsection (a) may be dispensed only:

- (1) upon a written or an electronically transmitted prescription of a practitioner licensed by law to administer the drug;
- (2) upon an oral prescription of the practitioner that is reduced promptly to writing and filed by the pharmacist or pharmacist intern (as defined in IC 25-26-13-2); or
- (3) by refilling a prescription if the refilling is authorized by the prescriber either in the original prescription, by an electronically transmitted order that is recorded in an electronic format, or by oral order that is reduced promptly to writing or is entered into an electronic format and filed by the pharmacist or pharmacist intern (as defined in IC 25-26-13-2).

(c) If a prescription for a drug described in subsection (a) does not indicate how many times the prescription may be refilled, if any, the

prescription may not be refilled unless the pharmacist is subsequently authorized to do so by the practitioner.

(d) The act of dispensing a drug contrary to subsection (a), (b), or (c) is considered to be an act that results in a drug being misbranded while held for sale.

(e) A drug dispensed by filling or refilling a prescription of a practitioner licensed by law to administer the drug is exempt from the requirements of section 4(2), 4(3), 4(4), 4(5), 4(6), 4(7), 4(8), and 4(9) of this chapter if the drug bears a label containing the following:

- (1) The name and address of the dispenser.
- (2) The serial number and date of the prescription or of the prescription's filling.
- (3) The name of the drug's prescriber and, if stated in the prescription, the name of the patient.
- (4) The directions for use and cautionary statements, if any, contained in the prescription.

This exemption does not apply to any drugs dispensed in the course of the conduct of a business of dispensing drugs pursuant to diagnosis by mail or to a drug dispensed in violation of subsection (a), (b), (c), or (d).

(f) The state department may adopt rules to remove drugs subject to section 4(4) of this chapter, section 7 of this chapter, or section 8 of this chapter from the requirements of subsections (a) through (d) when the requirements are not necessary for the protection of public health. Drugs removed from the prescription requirements of the Federal Act by regulations issued under the Federal Act may also, by rules adopted by the state department, be removed from the requirement of subsections (a) through (d).

(g) A drug that is subject to subsections (a) through (d) is considered to be misbranded if at any time before dispensing the drug's label fails to bear the statement "Caution: Federal Law Prohibits Dispensing Without Prescription" or "Caution: State Law Prohibits Dispensing Without Prescription". A drug to which subsections (a) through (d) do not apply is considered to be misbranded if, at any time before dispensing, the drug's label bears the caution statement described in this subsection.

(h) This section does not relieve a person from a requirement prescribed by or under authority of law with respect to drugs included within the classifications of narcotic drugs or marijuana as defined in the applicable federal and state laws relating to narcotic drugs and marijuana.

(i) A drug may be dispensed under subsection (b) upon an electronically transmitted prescription only to the extent permitted by federal law.

New drugs; federal qualification; testing; application to introduce

drug

Sec. 7. (a) This section does not apply under the circumstances described in section 9 of this chapter.

(b) A person may not sell, deliver, offer for sale, hold for sale, give away, or introduce into intrastate commerce any new drug unless:

- (1) an application to sell, deliver, offer for sale, hold for sale, give away, or introduce into intrastate commerce a new drug has been approved and the approval has not been withdrawn under Section 505 of the Federal Act; or
- (2) if not subject to the Federal Act the drug has been tested and has been found to be safe for use and effective in use under the conditions prescribed, recommended, or suggested in the labeling of the drug.

(c) Before selling or offering for sale the new drug, there must be filed with the state department an application setting forth the following:

- (1) Full reports of investigations that have been made to show whether or not the drug is safe for use and whether the drug is effective in use.
- (2) A full list of the articles used as components of the drug.
- (3) A full statement of the composition of the drug.
- (4) A full description of the methods used in and the facilities and controls used for the manufacture, processing, and packing of the drug.
- (5) Such samples of the drug and of the articles used as components of the drug that the state department requires.
- (6) Specimens of the labeling proposed to be used for the drug.

IC 16-42-3-8

New drugs; time for application to take effect

Sec. 8. (a) This section does not apply under the circumstances described in section 9 of this chapter.

(b) An application provided for under section 7 of this chapter becomes effective on the one hundred eightieth day after the filing of the application. However, if the state department finds, after due notice to the applicant and giving the applicant an opportunity for a hearing that:

- (1) the drug is not safe or not effective for use under the conditions prescribed, recommended, or suggested in the proposed labeling of the drug;
- (2) the methods used in and the facilities and controls used for the manufacture, processing, and packing of the drugs are inadequate to preserve the drug's identity, strength, quality, and purity; or
- (3) based on a fair evaluation of all material facts, that the labeling is false or misleading in any particular;

the state department shall, before the effective date of the application,

issue an order refusing to permit the application to become effective.
As added by P.L.2-1993, SEC.25.

IC 16-42-3-9

New drugs; exemption

Sec. 9. (a) Sections 7 and 8 of this chapter do not apply to the following:

- (1) To a drug dispensed on a written or an electronically transmitted prescription signed by or with an electronic signature of a physician, dentist, or veterinarian (except a drug dispensed in the course of the conduct of a business of dispensing drugs pursuant to diagnosis by mail) if the physician, dentist, or veterinarian is licensed by law to administer the drug, and the drug bears a label containing the name and place of business of the dispenser, the serial number and date of the prescription, and the name of the physician, dentist, or veterinarian.
- (2) To a drug exempted by rule of the state department and that is intended solely for investigational use by experts qualified by scientific training and experience to investigate the safety and effectiveness of drugs.
- (3) To a drug sold in Indiana or introduced into intrastate commerce at any time before the enactment of the Federal Act, if the drug's labeling contained the same representations concerning the conditions of the drug's use.
- (4) To any drug that is licensed under the Public Health Service Act of July 1, 1944 (58 Stat. 682, as amended; 42 U.S.C. 201 et seq.) or under the Animal Virus-Serum Toxin Act of March 4, 1913 (13 Stat. 832; 21 U.S.C. 151 et seq.).
- (5) To a drug subject to section 4(10) of this chapter.

(b) Rules exempting drugs intended for investigational use under subsection (a)(2) may, within the discretion of the state department among other conditions relating to the protection of the public health, provide for conditioning the exemption upon the following:

- (1) The submission to the state department, before any clinical testing of a new drug is undertaken, of reports by the manufacturer or the sponsor of the investigation of the drug or preclinical tests, including tests on animals, of the drug adequate to justify the proposed clinical testing.
- (2) The manufacturer or the sponsor of the investigation of a new drug proposed to be distributed to investigators for clinical testing obtaining a signed agreement from each of the investigators that patients to whom the drug is administered will be under the manufacturer's or sponsor's personal supervision or under the supervision of investigators responsible to the manufacturer or sponsor and that the manufacturer or sponsor will not supply the drug to any other investigator or to clinics for administration to human beings.
- (3) The establishment and maintenance of the records and the

making of the reports to the state department by the manufacturer or the sponsor of the investigation of the drug of data (including analytical reports by investigators) obtained as the result of the investigational use of the drug that the state department finds will enable the state department to evaluate the safety and effectiveness of the drug if an application is filed under section 8 of this chapter.

(c) Rules exempting drugs intended for investigational use under subsection (a)(2) must provide that the exemption is conditioned upon the manufacturer or the sponsor of the investigation requiring that experts using the drugs for investigational purposes certify to the manufacturer or sponsor that the experts will inform any human beings to whom the drugs or any controls used in connection with the drugs are being administered that the drugs are being used for investigational purposes and will obtain the consent of the human beings or their representatives, except where they consider it not feasible or, in their professional judgment, contrary to the best interests of the human beings.

(d) This section does not require a clinical investigator to submit directly to the state department reports on the investigational use of drugs. The regulations adopted under Section 505(i) of the Federal Act are the rules in Indiana. The state may adopt rules, whether or not in accordance with regulations promulgated under the Federal Act. *As added by P.L.2-1993, SEC.25. Amended by P.L.204-2005, SEC.5.*

(b) The state department may, after affording an opportunity for public hearing and judicial appeal, revoke an application approved under section 7 or 8 of this chapter if the state department finds any of the following:

- (1) That the drug, based on evidence acquired after approval, may not be safe or effective for the intended use.
- (2) That the facilities or controls used in the manufacture, processing, or labeling of the drug may present a hazard to the public health.

(1) If the cosmetic bears or contains a poisonous or deleterious substance that may make the cosmetic injurious to users under the conditions of use prescribed in the labeling of the cosmetic or under the conditions of use that are customary or usual. However this subdivision does not apply to coal-tar hair dye if the following conditions are met:

(A) The label on the dye conspicuously displays the following message:

"Caution – This product contains ingredients that may cause skin irritation on certain individuals and a preliminary test according to accompanying directions should first be made. This product must not be used for dyeing the eyelashes or eyebrows; to do so may cause blindness."

(B) The labeling contains adequate directions for preliminary testing.

(2) If the cosmetic consists in whole or in part of a filthy, putrid, or decomposed substance.

(3) If the cosmetic has been prepared, packed, or held under unsanitary conditions as the result of which the cosmetic may have become contaminated with filth or as the result of which the cosmetic may have been made injurious to health.
