**STEAM POLLUTION CONTROL GRANTS**

Total Allocation	11,000,000
------------------	------------

The state may make grants, as funds are available, to municipalities to assist them in financing the construction of those portions of water pollution control projects which qualify for federal aid and assistance. The state's contribution toward the construction of water pollution control projects may not exceed ten percent (10%) of the eligible cost of each project. It is the purpose to provide state funds for any portions of such projects as qualify under the federal provisions.

To the extent that funds are available, the water pollution control board, with the approval of the governor and the state budget agency, may authorize additional grants to local communities, on request of those communities, where the actual contract price proves greater than the estimate originally submitted to the board. However, all appropriations to match local funds shall first, on an annual basis, be distributed to all communities in amounts shown on the priority list as annually established by the water pollution control board, and the state's share of these additional grants may not exceed ten percent (10%).

The stream pollution control board, subject to the final approval of the governor and the state budget agency, on recommendation of the state budget committee, may approve grants to municipalities; the municipalities shall use these grants for improving or accomplishing water pollution control projects.

INDIANA VOCATIONAL TECHNICAL COLLEGE

General Repair and Rehab 2,029,942

In addition to the above appropriations for repair and rehabilitation and additional funding, the trustees of Indiana University, Purdue University, Ball State University, Indiana State University, Vincennes University and Indiana Vocational Technical College may issue and sell bonds or enter into lease purchase agreements under IC 20-12-6, subject to the approvals required by IC 20-12-5.5, and IC 23-13-18, for the following projects, so long as, for each institution, the sum of (1) the principal costs of any bonds issued, and (2) the principal values of any lease-purchase agreements made, do not exceed the total authority listed below for that institution:

PURDUE UNIVERSITY

Environmental Control System 2,700,000

VINCENNES UNIVERSITY

Environmental Control System 200,000

The environmental control systems projects listed above will be repaid from anticipated energy cost savings resulting from their use and will not require any fee replacement appropriations in the future.

INDIANA VOCATIONAL TECHNICAL COLLEGE—

MADISON

Instructional Facility 1,590,000

Prior bonding authority granted by the 1978 general assembly for the above facility, in the amount of seven hundred fifty two thousand eight hundred thirteen dollars (\$752,813) is hereby deauthorized. In addition, prior bonding authority for the Indiana Vocational Technical College—Gary—health occupations and pollution control building in the amount of nine hundred fifty four thousand dollars (\$954,000) is hereby deauthorized.

In addition to the above, the trustees of Ball State University may issue and sell bonds under IC 20-12-8 for the following project, so long as the sum of the maximum aggregate principal costs of any bonds issued do not exceed the total authority listed below:

BALL STATE UNIVERSITY

Parking Garage 3,000,000

In addition to the above, the trustees of Ball State University may reconstruct a field sports facility under authority of IC 20-12-5.5 in the amount of one million one hundred sixty five thousand dollars (\$1,165,000) from insurance proceeds, other institution sources and dedicated student fees in an amount not to exceed two hundred forty two thousand three hundred seventy nine dollars (\$242,379).

**1983-381-3**

SEC. 3. The balance of any construction, rehabilitation and repair appropriation made by this act or any previous acts, which has not been allotted or encumbered before the expiration of two (2) bienniums, may be determined to be not available for allotment by the state budget agency. The account for the appropriation may be terminated and the balance of it may revert to the state general fund whenever the original appropriation was made from the state general fund.

**1983-381-4**

SEC. 4. If a state institution sells land or property, the proceeds from that sale are hereby reappropriated to that institution or agency for the construction or rehabilitation of additional inmate, employee, patient, or student facilities. The proceeds from the sale of surplus lands in the department of natural resources are reappropriated for the acquisition of property in-holdings, and these proceeds are subject to allotment by the state budget agency, with the approval of the governor.

**1983-381-6**

SEC. 6. The amount of funds expended for any one of the uses, purposes and projects listed in this act may not exceed the amount stated unless the excess expenditure is approved by the governor and the state budget agency.

The state budget agency, with the written consent and approval of the governor, may allocate funds for uses, purposes and projects not listed in this act, only after a showing that the use, purpose or project has resulted from changed conditions not reasonably foreseeable, and is essential and necessary to the best interests of the state.

**1983-381-7**

SEC. 7. The state budget agency may employ one (1) or more architects or engineers to inspect construction, rehabilitation and repair projects covered by the appropriations in this act or previous acts.
