IC 16-23-1-40

Cumulative hospital building fund; tax rate; investment

Sec. 40. (a) The governing board may request a cumulative hospital building fund and a tax rate upon all taxable property in the county in which the hospital is located to finance the fund. If a resolution is approved by majority vote of all members at a regular or special board meeting, the resolution shall be certified to the county auditor, who shall submit the resolution to the county executive for preliminary approval and recommendation. Upon the approval of the county executive, the county auditor shall publish notice of a public hearing before the county council on the establishment of a cumulative hospital building fund and tax rate in each year.

(b) The cumulative building tax rate begins in any calendar year when all proceedings to establish the tax rate have been completed before August 2 in that year. The rate is levied on each one hundred dollars (\$100) of taxable property for that year, payable in the next

year, and continues each year for a term not exceeding twelve (12) years. The resolution of the board must specify the following:

- (1) The number of years.
- (2) The effective date when the tax levy begins.
- (3) The amount of rate on each one hundred dollars (\$100) of taxable property.
- (4) Any other pertinent facts considered advisable by the board.

(c) Except as provided in subsections (f) through (h), the rate on each one hundred dollars (\$100) may be reduced but not increased by the department of local government finance in approving a cumulative building tax rate. The rate as finally fixed by the department of local government finance is final. However, the county fiscal body, by three-fourths (3/4) affirmative vote of the county fiscal body's members, may reduce the rate in any given year or years to meet an emergency existing in the county, but the temporary reduction affects the rate only in the year when the action is taken. The rate is automatically restored to the rate's original amount in each succeeding year of the established period except in any other year when another emergency reduction is made. The rate is subject to review each year by the county fiscal body, but the county tax adjustment board and department of local government finance may not reduce the rate below the original rate established and approved by vote of the county fiscal body unless the county fiscal body reduces the rate.

(d) The county fiscal body, city fiscal body, county tax adjustment board, or department of local government finance does not have power or jurisdiction over the annual budget and appropriations, additional appropriations, or transfer of money unless the action involves the expenditure or raising of money derived from property taxes. If the cumulative building fund is the only hospital fund raised by taxation, section 31 of this chapter controls.

(e) The cumulative building fund raised may be properly and safely invested or reinvested by the board to produce an income until there is an immediate need for the fund's use. The fund and any income derived from investment or reinvestment of the fund may be used as follows:

- (1) To purchase real property and grounds for hospital purposes.
- (2) To remodel or make major repairs on any hospital building.
- (3) To erect and construct hospital buildings or additions or extensions to the buildings.
- (4) For any other major capital improvements, but not for current operating expenses or to meet a deficiency in operating funds.

(f) Not later than August 1 of any year, ten (10) or more taxpayers in the county may file with the county auditor of the county in which the hospital is located a petition for reduction or rescission of the cumulative building tax rate. The petition must set forth the taxpayers' objections to the tax rate. The petition shall be certified to the department of local government finance.

(g) Upon receipt of a petition under subsection (f), the department of local government finance shall, within a reasonable time, fix a date for a hearing on the petition. The hearing must be held in the county in which the hospital is located. Notice of the hearing shall be given to the county fiscal body and to the first ten (10) taxpayers whose names appear on the petition. The notice must be in the form of a letter signed by the secretary or any member of the department of local government finance, sent by mail with full prepaid postage to the county fiscal body and to the taxpayers at their usual places of residence at least five (5) days before the date fixed for the hearing.

(h) After the hearing under subsection (g), the department of local government finance shall approve, disapprove, or modify the request for reduction or rescission of the tax rate and shall certify that decision to the county auditor of the county in which the hospital is located.

The allowance or disallowance shall be certified or attested by the secretary, president, or other member authorized by the board to endorse the action taken on claims. The claims shall then be filed in the clerk-treasurer's office of the city. If the claims are covered by proper appropriations in effect and unexpended and are in due form, or if no appropriation is required by statute and the claims are filed and allowed according to statute, the clerk-treasurer shall promptly pay the claims out of the hospital funds of the city to the individual, firm, corporation, or other legal entity to whom the claims are due.

(a) The governing board has the same rights and powers as the hospital board of a county hospital under IC 16-22-2, except when those rights and powers are in conflict with the rights and powers granted to a city hospital under this chapter. However, a city hospital and the hospital's board of directors do not have authority to act inconsistently with the nature of the city hospital as a body of city government.

(b) The governing board may sell or lease real property to others by taking the same steps and procedures that the city served by the city hospital is required to take to sell or lease real property, except to the extent that this subsection conflicts with another statute authorizing the sale or lease of real property.

(6) Sue and be sued in the board's own name.

(7) Enter into contracts.

(8) Perform all other duties and exercise all other powers prescribed by law.

(b) The existence of authority or power under subsection (a) shall be determined in favor of the hospital if generally authorized or existing under IC 23-17. A resolution of the board of directors is presumptive evidence of a power.

(c) If a county or city fiscal body provides a direct financial subsidy to a hospital from a tax levy at the time a hospital exercises the hospital's powers under subsection (a), the hospital may not provide the funds from a tax levy to an entity created under subsection (a) for more than three (3) years.
