Synopsis:  Various environmental matters. Replaces the term "wastewater management vehicle" with the term "septage management vehicle". Requires certain reports concerning public water systems to be submitted to the department of environmental management (IDEM) electronically. Eliminates record keeping requirements relating to solid waste transported outside Indiana for final disposal. Revises the law concerning the assessment of the state solid waste management fee. Changes the deadline for IDEM's annual assessment of hazardous waste annual operation fees. Revises certain specifications used in the testing of gasoline and gasohol. Provides that IDEM, rather than the environmental rules board (board), is to deposit solid waste fees in the waste facility operator trust fund. Provides for IDEM to receive payment of solid waste fees by electronic fund transfer. Authorizes the board to adopt rules that increase the amounts of environmental fees. Requires the board, in changing the amount of a fee, to take into account the cost to IDEM of amendments, modifications, and renewals of a permit, license, or approval. Provides that a fee established by the board to apply to a permit, license, or approval.
