(2) women choosing abortion after receiving a diagnosis of a lethal fetal anomaly are making a fully informed decision.

Sec. 2. As used in this chapter, "lethal fetal anomaly" means a fetal condition diagnosed before birth that, if the pregnancy results in a live birth, will with reasonable certainty result in the death of the child not more than three (3) months after the child's birth.

Sec. 3. As used in this chapter, "perinatal hospice" means the provision of comprehensive, supportive care to a pregnant woman and her family beginning with the diagnosis of a lethal fetal anomaly and continuing through the live birth and death of the woman's child as a result of the lethal fetal anomaly. The term includes counseling and medical care provided by maternal-fetal medical specialists, obstetricians, neonatologists, anesthesia specialists, specialty nurses, clergy, social workers, and others that are focused on alleviating fear and ensuring that the woman and her family experience the life and death of the child in a comfortable and supportive environment.

Sec. 4. (a) The state department shall develop a perinatal hospice brochure and post the perinatal hospice brochure on the state department's Internet web site.

(b) The perinatal brochure developed under this section must include the following:

(1) A description of the health care and other services available from perinatal hospice.

The state department shall post the list of perinatal hospice providers and programs on the state department's Internet web site.

Sec. 6. (a) The state department shall develop a form on which a pregnant woman certifies, at the time of receiving a diagnosis that the pregnant woman's unborn child has a lethal fetal anomaly, that the pregnant woman has received the following:

(1) A copy of the perinatal hospice brochure developed under this chapter.

(2) A list of the perinatal hospice providers and programs developed under section 5 of this chapter.

(b) The provider diagnosing the pregnant woman's unborn child with the lethal fetal anomaly shall, at the time of diagnosis:

physician the written consent of her parent or legal guardian
if required under section 4 of this chapter.

However, an abortion inducing drug may not be dispensed,
prescribed, administered, or otherwise given to a pregnant woman
after nine (9) weeks of postfertilization age unless the Food and
Drug Administration has approved the abortion inducing drug to
be used for abortions later than nine (9) weeks of postfertilization
age. A physician shall examine a pregnant woman in person
before prescribing or dispensing an abortion inducing drug. As
used in this subdivision, "in person" does not include the use of
telehealth or telemedicine services.

(2) Except as prohibited by IC 16-34-4, for an abortion
performed by a surgical procedure, after the first trimester of
pregnancy and before the earlier of viability of the fetus or twenty

abortion before the earlier of viability of the fetus or twenty
(20) weeks of postfertilization age are present and adhered to;

(B) the abortion is performed in compliance with section 3 of
this chapter; and

(C) before the abortion the attending physician shall certify in
writing to the hospital in which the abortion is to be
performed, that in the attending physician's professional,
medical judgment, after proper examination and review of the
woman's history, the abortion is necessary to prevent a
substantial permanent impairment of the life or physical health
of the pregnant woman. All facts and reasons supporting the
certification shall be set forth by the physician in writing and
attached to the certificate.

(b) A person may not knowingly or intentionally perform a partial
birth abortion unless a physician reasonably believes that:
(1) performing the partial birth abortion is necessary to save the
mother's life; and
(2) no other medical procedure is sufficient to save the mother's
life.
