Summary of Legislation: The bill makes technical corrections to federal law citations throughout the Indiana Code. (The introduced version of this bill was prepared by the Code Revision Commission.)

Effective Date: July 1, 2015.

Explanation of State Expenditures: The bill makes corrections for 56 provisions of the Indiana Code that contained errors in federal law citations. These corrections are in 16 different Titles of Indiana Code. A majority of the corrections deal with recodifications, renumbering, and amendments to federal law. Some sections remove the interim provisions which were adopted as a fall back in absence of repeal of certain federal law. In some cases the codes are obsolete and the chapters are no longer needed. It changes certain references related to federal definitions used by Indiana Utility Regulatory Commission and cites the definition section directly to avoid changing the references every year when more definitions are added in the federal code.
