Sec. 1. The nurse licensure compact is enacted and entered into with all other jurisdictions that legally join the compact, which is, in form, substantially the same as this article.

Sec. 2. The party states find the following:

(1) The health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws.
(2) Violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public.
(3) The expanded mobility of nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation.
(4) New practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex.
(5) The current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant for nurses and states.
(6) Uniformity of nurse licensure requirements throughout the states promotes public safety and public health benefits.

Sec. 3. The general purposes of this compact are to do the following:

(1) Facilitate the states' responsibility to protect the public's health and safety.
(2) Ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation.
(3) Facilitate the exchange of information between party states in the areas of nurse regulation, investigation, and adverse actions.
(4) Promote compliance with laws governing the practice of nursing in each jurisdiction.
(5) Invest all party states with the authority to hold a nurse
accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses.

(6) Decrease redundancies in the consideration and issuance of nurse licenses.

(7) Provide opportunities for interstate practice by nurses who meet uniform licensure requirements.

Chapter 3. General Provisions and Jurisdiction

Sec. 1. A multistate license issued by a home state to a resident in that state will be recognized by each party state as authorizing the resident to practice as a nurse under a multistate licensure privilege in each party state.

Sec. 2. A state must implement procedures for considering the criminal history records of applicants for initial multistate license or licensure by endorsement, including the submission of fingerprints or other biometric based information by applicants for the purpose of obtaining an applicant's criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records.

Sec. 3. Each party state shall require the following for an applicant to obtain or retain a multistate license in the home state:

(1) The applicant meets the home state's qualifications for licensure or renewal of licensure, as well as all other applicable state laws.

(2) The applicant has either:

   (A) graduated or is eligible to graduate from a licensing board approved licensed nurse prelicensure education program; or
   (B) graduated from a foreign licensed nurse prelicensure education program that has been:
       (i) approved by the authorized accrediting body in the applicable country; and
       (ii) verified by an independent credentials review agency to be comparable to a licensing board approved prelicensure education program.

(3) If:

   (A) English is not the applicant's native language; or
   (B) the applicant graduated from a foreign prelicensure education program that was not taught in English; the applicant has successfully passed an English proficiency examination that includes the components of reading, speaking, writing, and listening.
(4) The applicant has successfully passed an NCLEX for registered nurses or NCLEX for practical nurses or recognized predecessor examination, as applicable.
(5) The applicant is eligible for or holds an active license without encumbrance.
(6) The applicant has submitted, in connection with an application for initial licensure or licensure by endorsement, fingerprints or other biometric data for the purpose of obtaining criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records.
(7) The applicant has:
   (A) not been convicted or found guilty; or
   (B) entered into an agreed disposition;
of a felony offense under applicable state or federal criminal law.
(8) The applicant has:
   (A) not been convicted or found guilty; or
   (B) entered into an agreed disposition;
of a misdemeanor offense related to the practice of nursing, as determined on a case by case basis.
(9) The applicant is not currently enrolled in an alternative program.
(10) The applicant is subject to self-disclosure requirements regarding current participation in an alternative program.
(11) The applicant has a valid Social Security number.

Sec. 4. (a) All party states are authorized, in accordance with existing state due process law, to take adverse action against a nurse's multistate licensure privilege.
   (b) If a party state takes an adverse action under subsection (a):
      (1) the party state shall promptly notify the administrator of the coordinated licensure information system; and
      (2) the administrator of the coordinated licensure information system shall promptly notify the home state of any adverse actions taken by remote states.

Sec. 5. (a) A nurse practicing in a party state shall comply with the state practice laws of the state in which the client is located at the time service is provided.
   (b) The practice of nursing is not limited to patient care, but includes all nursing practice as defined by the state practice laws of the party state in which the client is located.
   (c) The practice of nursing in a party state under a multistate
licensure privilege subjects a nurse to the jurisdiction of the licensing board, the courts, and the laws of the party state in which the client is located at the time service is provided.

Sec. 6. (a) Individuals not residing in a party state may apply for a party state's single state license as provided under the laws of each party state. However, a single state license granted to the individual will not be recognized as granting the privilege to practice nursing in any other party state.

(b) This compact does not affect the requirements established by a party state for the issuance of a single state license.

Sec. 7. A nurse who holds a home state multistate license on the effective date of this compact may retain and renew the multistate license issued by the nurse's current home state. However, the following apply:

(1) A nurse who changes primary state of residence after the effective date of this compact shall meet all applicable requirements of section 3 of this chapter to obtain a multistate license from a new home state.

(2) If the nurse fails to satisfy the multistate licensure requirements of section 3 of this chapter due to a disqualifying event occurring after the effective date of this compact:

(A) the nurse is ineligible to retain or renew a multistate license; and

(B) the nurse's multistate license must be revoked or deactivated in accordance with applicable rules adopted by the commission.

Chapter 4. Application for Nurse Licensure in a Party State

Sec. 1. Upon receipt of an application for a multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information system, whether:

(1) the applicant has ever held, or is the holder of, a license issued by any other state;

(2) there are any encumbrances on any license or multistate licensure privilege held by the applicant;

(3) any adverse action has been taken against any license or multistate licensure privilege held by the applicant; and

(4) the applicant is currently participating in an alternative program.

Sec. 2. A nurse may hold a multistate license, issued by the home state, in only one (1) party state at a time.

Sec. 3. If a nurse changes primary state of residence by moving
between two (2) party states, the nurse must apply for licensure in
the new home state, and the multistate license issued by the prior
home state will be deactivated in accordance with applicable rules
adopted by the commission, including the following:

1) The nurse may apply for licensure in advance of a change
in primary state of residence.
2) A multistate license must not be issued by the new home
state until the nurse:
   A) provides satisfactory evidence of a change in primary
      state of residence to the new home state; and
   B) satisfies all applicable requirements to obtain a
      multistate license from the new home state.

Sec. 4. If a nurse changes primary state of residence by moving
from a party state to a nonparty state, the multistate license issued
by the prior home state will convert to a single state license, valid
only in the former home state.

Chapter 5. Additional Authorities Invested in Party State
Licensing Boards

Sec. 1. (a) In addition to the other powers conferred by state
law, a licensing board may do any of the following:

1) Take adverse action against a nurse's multistate licensure
   privilege to practice within that party state, as follows:
   A) Only the home state may take adverse action against a
      nurse's license issued by the home state.
   B) For purposes of taking adverse action, the home state
      licensing board shall:
      i) give the same priority and effect to reported conduct
         received from a remote state as it would if the conduct
         had occurred within the home state; and
      ii) apply the home state's laws to determine appropriate
          action.

2) Issue cease and desist orders or impose other
   encumbrances on a nurse's authority to practice within that
   party state.

3) With respect to pending investigations of a nurse who
   changes primary state of residence during the course of the
   investigations, the following:
   A) Complete the investigations.
   B) Take appropriate action.

4) Issue subpoenas for hearings and investigations that
   require the attendance and testimony of witnesses and for the
   production of evidence.
(5) For each nurse licensure applicant:
   (A) obtain and submit fingerprints or other biometric based information to the Federal Bureau of Investigation for criminal background checks;
   (B) receive the results of the Federal Bureau of Investigation record search on criminal background checks; and
   (C) use the results in making licensure decisions.
(6) If otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against the nurse.
(7) Take adverse action based on the factual findings of a remote state, according to the licensing board's own procedures for the adverse action.
(b) With respect to investigations described in subsection (a)(3):
   (1) the licensing board shall promptly report the conclusions of the investigations to the administrator of the coordinated licensure information system; and
   (2) the administrator of the coordinated licensure information system shall promptly notify the new home state of any actions taken under subsection (a)(3).
(c) Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another party state as described in subsection (a)(4) must be enforced in the other party state:
   (1) by a court of competent jurisdiction; and
   (2) according to the practice and procedure of the court applicable to subpoenas issued in proceedings pending before the court.

The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

Sec. 2. (a) If adverse action is taken by the home state against a nurse's multistate license, the nurse's multistate licensure privilege to practice in all other party states must be deactivated until all encumbrances have been removed from the multistate license.

(b) All home state disciplinary orders that impose adverse action against a nurse's multistate license must include a statement that the nurse's multistate licensure privilege is deactivated in all party states during the pendency of the order.

Sec. 3. (a) This compact does not override a party state's
decision that participation in an alternative program may be used in lieu of adverse action.

(b) In the case of a party state decision described in subsection (a), the home state licensing board shall deactivate the multistate licensure privilege under the multistate license of the nurse for the duration of the nurse's participation in the alternative program.

Chapter 6. Coordinated Licensure Information System and Exchange of Information

Sec. 1. (a) All party states shall participate in a coordinated licensure information system of all licensed nurses.

(b) The coordinated licensure information system must include information submitted by party states:

(1) concerning the licensure and disciplinary history of each nurse; and

(2) to assist in the coordination of nurse licensure and enforcement.

Sec. 2. The commission, in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection, and exchange of information under this compact.

Sec. 3. All licensing boards shall promptly report to the coordinated licensure information system any:

(1) adverse action;

(2) current significant investigative information;

(3) denials of applications and reasons for the denials; and

(4) nurse participation in alternative programs known to the licensing board, regardless of whether the participation is considered to be nonpublic or confidential under state law.

Sec. 4. Current significant investigative information and participation in nonpublic or confidential alternative programs must be transmitted through the coordinated licensure information system only to party state licensing boards.

Sec. 5. Notwithstanding any other law, all party state licensing boards contributing information to the coordinated licensure information system may designate information that may not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state.

Sec. 6. Any personally identifiable information obtained from the coordinated licensure information system by a party state licensing board must not be shared with nonparty states or disclosed to other entities or individuals except to the extent
permitted by the laws of the party state contributing the information.

Sec. 7. Information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information must also be expunged from the coordinated licensure information system.

Sec. 8. The compact administrator of each party state shall furnish a uniform data set to the compact administrator of each other party state, which must include, at a minimum, the following:

1. Identifying information.
2. Licensure data.
3. Information related to alternative program participation.
4. Other information that may facilitate the administration of this compact, as determined by commission rules.

Sec. 2. This compact does not waive sovereign immunity.

Sec. 3. (a) Each party state has and is limited to one (1) administrator. The head of the state licensing board of each party state, or designee, is the administrator of this compact for each party state. An administrator may be removed or suspended from office as provided by the law of the state from which the administrator is appointed.

Chapter 8. Rulemaking

Sec. 1. The commission shall exercise the commission's rulemaking powers according to the criteria set forth in, and the rules adopted under, this chapter. Rules and amendments are binding as of the date specified in each rule or amendment and have the same force and effect as provisions of this compact.

Sec. 2. Rules or amendments to the rules must be adopted at a regular or special meeting of the commission.

Sec. 3. Before promulgation and adoption of a final rule by the commission, and at least sixty (60) days before the meeting at which the rule will be considered and voted on is held, the commission shall file a notice of proposed rulemaking:

1. on the Internet web site of the commission; and
2. on the Internet web site of each licensing board or in the publication in which each state would otherwise publish proposed administrative rules.

Sec. 4. The notice of proposed rulemaking must include all of the following:

1. The proposed time, date, and location of the meeting at which the rule will be considered and voted on.
2. The text of the proposed rule or amendment and the reason for the proposed rule.
3. A request for comments on the proposed rule from any interested person.
4. The manner in which an interested person may submit:

(b) Submitted information and documents described in subsection (a) must be made available to the public.

Sec. 6. (a) The commission shall grant an opportunity for a public hearing before the commission adopts a rule or amendment.

(b) The commission shall publish the place, time, and date of the scheduled public hearing.

(c) A public hearing must be conducted in a manner providing each person who wishes to comment a fair and reasonable...
opportunity to comment orally or in writing. All hearings must be recorded and a copy of the record must be made available to the public upon request.

(d) This section does not require a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.

(e) If no one appears at a public hearing, the commission may proceed with promulgation of the proposed rule.

Sec. 7. (a) Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

(b) The commission shall, by majority vote of all administrators, take final action on the proposed rule and determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

Sec. 8. (a) For purposes of this section, an emergency rule is a rule that must be adopted immediately to do at least one (1) of the following:

(2) Prevent a loss of commission or party state funds.
(3) Meet a deadline for the promulgation of an administrative rule that is required by federal law or rule.

(b) Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing. However, the usual rulemaking procedures provided in this compact and in this chapter must be retroactively applied to the rule as soon as reasonably possible, and in no event later than ninety (90) days after the effective date of the rule.

Sec. 9. (a) The commission may direct revisions to a previously adopted rule or amendment for purposes of correcting Typographical errors, errors in format, errors in consistency, or grammatical errors.

(b) Public notice of any revisions must be posted on the Internet web site of the commission. A revision is subject to challenge by any person for thirty (30) days after posting. A revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge must be made in writing and delivered to the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further
action. If the revision is challenged, the revision may not take effect without the approval of the commission.

Chapter 9. Oversight, Dispute Resolution, and Enforcement

Sec. 1. Each party state shall enforce this compact and take all actions necessary and appropriate to effectuate this compact’s purposes and intent.

Sec. 2. The commission:

(1) is entitled to receive service of process in a proceeding that may affect the powers, responsibilities, or actions of the commission; and

(2) has standing to intervene in a proceeding described in subdivision (1) for all purposes.

Failure to provide service of process in a proceeding to the commission renders a judgment or order void as to the commission, this compact, or promulgated rules.

Sec. 3. If the commission determines that a party state has defaulted in the performance of the party state’s obligations or responsibilities under this compact or the promulgated rules, the commission shall:

(1) provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default, or another action to be taken by the commission; and

(2) provide remedial training and specific technical assistance regarding the default.

Sec. 4. (a) If a state in default fails to cure the default, the defaulting state’s membership in this compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination.

(b) A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

Sec. 5. Termination of membership in this compact must be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the commission to the governor of the defaulting state and to the executive officer of the defaulting state’s licensing board and each of the party states.

Sec. 6. A state whose membership in this compact has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of
termination.

Sec. 7. The commission does not bear any costs related to a state that is found to be in default or whose membership in this compact has been terminated, unless agreed upon in writing between the commission and the defaulting state.

Sec. 8. The defaulting state may appeal the action of the commission by petitioning the United States District Court for the District of Columbia or the federal district in which the commission has the commission's principal offices. The prevailing party must be awarded all costs of the litigation, including reasonable attorney's fees.

Sec. 9. (a) Upon request by a party state, the commission shall attempt to resolve disputes related to this compact that arise among party states and between party and nonparty states.

(b) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.

(c) If the commission cannot resolve disputes among party states arising under this compact:

(1) the party states may submit the issues in dispute to an arbitration panel, which must be comprised of individuals appointed by the compact administrator in each of the affected party states and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute; and

(2) the decision of a majority of the arbitrators is final and binding.

Sec. 10. (a) The commission, in the reasonable exercise of the commission's discretion, shall enforce the provisions and rules of this compact.

(b) By majority vote, the commission may initiate legal action in the United States District Court for the District of Columbia or the federal district in which the commission has the commission's principal offices against a party state that is in default to enforce compliance with the provisions of this compact and the commission's promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party must be awarded all costs of the litigation, including reasonable attorney's fees.

(c) The remedies described in this section are not the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.
Chapter 10. Withdrawal and Amendment

Sec. 1. (a) Any party state may withdraw from this compact by enacting a statute repealing the compact. A party state's withdrawal does not take effect until six (6) months after enactment of the repealing statute.

(b) A party state's withdrawal or termination does not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring before the effective date of the withdrawal or termination.

(c) This compact does not invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this compact.

(d) This compact may be amended by the party states. An amendment to this compact is not effective and binding on the party states until the amendment is enacted into the laws of all party states.

(e) Representatives of nonparty states to this compact must be invited to participate in the activities of the commission, on a nonvoting basis, before the adoption of this compact by all states.

Chapter 11. Construction and Severability

Sec. 1. This compact must be liberally construed so as to effectuate the purposes of the compact. The provisions of this compact are severable, and if any phrase, clause, sentence, or provision of the compact is declared to be contrary to the constitution of any party state or of the United States, or if the applicability of the compact to any government, agency, person, or circumstance is held invalid, the validity of the remainder of the compact and the applicability of the compact to any government, agency, person, or circumstance is not affected.

Sec. 2. If this compact is held to be contrary to the constitution of any party state, the compact remains in full force and effect as to the:

(1) remaining party states; and
(2) party state affected;

as to all severable matters.

Sec. 3. This compact takes effect on July 1, 2019.
