Sec. 1. The nurse licensure compact is enacted and entered into with all other jurisdictions that legally join the compact, which is, in form, substantially the same as this article.

Sec. 2. The party states find the following:
   (1) The health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws.
   (2) Violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public.
   (3) The expanded mobility of nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation.
   (4) New practice modalities and technologies make compliance with individual state nurse licensure laws difficult and complex.
   (5) The current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant for nurses and states.
   (6) Uniformity of nurse licensure requirements throughout the states promotes public safety and public health benefits.

Sec. 3. The general purposes of this compact are to do the following:
   (1) Facilitate the states' responsibility to protect the public's health and safety.
   (2) Ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation.
   (3) Facilitate the exchange of information between party states in the areas of nurse regulation, investigation, and

SB 436—LS 6515/DI 77
adverse actions.

(4) Promote compliance with laws governing the practice of nursing in each jurisdiction.

(5) Invest all party states with the authority to hold a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses.

(6) Decrease redundancies in the consideration and issuance of nurse licenses.

(7) Provide opportunities for interstate practice by nurses who meet uniform licensure requirements.

Chapter 3. General Provisions and Jurisdiction

Sec. 1. A multistate license issued by a home state to a resident in that state will be recognized by each party state as authorizing the resident to practice as a nurse under a multistate licensure privilege in each party state.

Sec. 2. A state must implement procedures for considering the criminal history records of applicants for initial multistate licensure or licensure by endorsement, including the submission of fingerprints or other biometric based information by applicants for the purpose of obtaining an applicant's criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records.

Sec. 3. Each party state shall require the following for an applicant to obtain or retain a multistate license in the home state:

(1) The applicant meets the home state's qualifications for licensure or renewal of licensure, as well as all other applicable state laws.

(2) The applicant has either:

(A) graduated or is eligible to graduate from a licensing board approved licensed nurse prelicensure education program; or

(i) approved by the authorized accrediting body in the applicable country; and

(ii) verified by an independent credentials review agency to be comparable to a licensing board approved prelicensure education program.

(3) If:

(A) English is not the applicant's native language; or

(B) the applicant graduated from a foreign prelicensure education program.
education program that was not taught in English;
the applicant has successfully passed an English proficiency
examination that includes the components of reading,
speaking, writing, and listening.

registered nurses or NCLEX for practical nurses or
recognized predecessor examination, as applicable.
(5) The applicant is eligible for or holds an active license
without encumbrance.
(6) The applicant has submitted, in connection with an
application for initial licensure or licensure by endorsement,
fingerprints or other biometric data for the purpose of
obtaining criminal history record information from the
Federal Bureau of Investigation and the agency responsible
for retaining that state's criminal records.

(B) entered into an agreed disposition;
of a felony offense under applicable state or federal criminal
law.

(B) entered into an agreed disposition;
of a misdemeanor offense related to the practice of nursing, as
determined on a case by case basis.
(9) The applicant is not currently enrolled in an alternative
program.
(10) The applicant is subject to self-disclosure requirements
regarding current participation in an alternative program.
(11) The applicant has a valid Social Security number.
Sec. 4. (a) All party states are authorized, in accordance with
existing state due process law, to take adverse action against a
nurse's multistate licensure privilege.
(b) If a party state takes an adverse action under subsection (a):
(1) the party state shall promptly notify the administrator of
the coordinated licensure information system; and
(2) the administrator of the coordinated licensure information
system shall promptly notify the home state of any adverse
actions taken by remote states.
Sec. 5. (a) A nurse practicing in a party state shall comply with
the state practice laws of the state in which the client is located at
the time service is provided.
(b) The practice of nursing is not limited to patient care, but
includes all nursing practices as defined by the state practice laws
of the party state in which the client is located.

(c) The practice of nursing in a party state under a multistate
licensure privilege subjects a nurse to the jurisdiction of the
licensing board, the courts, and the laws of the party state in which
the client is located at the time service is provided.

Sec. 6. (a) Individuals not residing in a party state may apply for
a party state's single state license as provided under the laws of
each party state. However, a single state license granted to the
individual will not be recognized as granting the privilege to
practice nursing in any other party state.

(b) This compact does not affect the requirements established by
a party state for the issuance of a single state license.

Sec. 7. A nurse who holds a home state multistate license on the
effective date of this compact may retain and renew the multistate
license issued by the nurse's current home state. However, the
following apply:

(1) A nurse who changes primary state of residence after the
effective date of this compact shall meet all applicable
requirements of section 3 of this chapter to obtain a multistate
license from a new home state.

(2) If the nurse fails to satisfy the multistate licensure
requirements of section 3 of this chapter due to a
disqualifying event occurring after the effective date of this
compact:

(A) the nurse is ineligible to retain or renew a multistate
license; and

(B) the nurse's multistate license must be revoked or
deactivated in accordance with applicable rules adopted by
the commission.

Chapter 4. Application for Nurse Licensure in a Party State

Sec. 1. Upon receipt of an application for a multistate license,
the licensing board in the issuing party state shall ascertain,
through the coordinated licensure information system, whether:

(1) the applicant has ever held, or is the holder of, a license
issued by any other state;

(2) there are any encumbrances on any license or multistate
licensure privilege held by the applicant;

(3) any adverse action has been taken against any license or
multistate licensure privilege held by the applicant; and

(4) the applicant is currently participating in an alternative
program.

Sec. 2. A nurse may hold a multistate license, issued by the home state, in only one (1) party state at a time.

Sec. 3. If a nurse changes primary state of residence by moving between two (2) party states, the nurse must apply for licensure in the new home state, and the multistate license issued by the prior home state will be deactivated in accordance with applicable rules adopted by the commission, including the following:

   (1) The nurse may apply for licensure in advance of a change in primary state of residence.

   (2) A multistate license must not be issued by the new home state until the nurse:

      (A) provides satisfactory evidence of a change in primary state of residence to the new home state; and

      (B) satisfies all applicable requirements to obtain a multistate license from the new home state.

Sec. 4. If a nurse changes primary state of residence by moving from a party state to a nonparty state, the multistate license issued by the prior home state will convert to a single state license, valid only in the former home state.

Chapter 5. Additional Authorities Invested in Party State Licensing Boards

Sec. 1. (a) In addition to the other powers conferred by state law, a licensing board may do any of the following:

   (1) Take adverse action against a nurse's multistate licensure privilege to practice within that party state, as follows:

      (A) Only the home state may take adverse action against a nurse's license issued by the home state.

      (B) For purposes of taking adverse action, the home state licensing board shall:

         (i) give the same priority and effect to reported conduct received from a remote state as it would if the conduct had occurred within the home state; and

         (ii) apply the home state's laws to determine appropriate action.

   (2) Issue cease and desist orders or impose other encumbrances on a nurse's authority to practice within that party state.

   (3) With respect to pending investigations of a nurse who changes primary state of residence during the course of the investigations, the following:

      (A) Complete the investigations.
(B) Take appropriate action.

(4) Issue subpoenas for hearings and investigations that require the attendance and testimony of witnesses and for the production of evidence.

(5) For each nurse licensure applicant:
   (A) obtain and submit fingerprints or other biometric based information to the Federal Bureau of Investigation for criminal background checks;
   (B) receive the results of the Federal Bureau of Investigation record search on criminal background checks; and
   (C) use the results in making licensure decisions.

(6) If otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against the nurse.

(7) Take adverse action based on the factual findings of a remote state, according to the licensing board's own procedures for the adverse action.

(b) With respect to investigations described in subsection (a)(3):
   (1) the licensing board shall promptly report the conclusions of the investigations to the administrator of the coordinated licensure information system; and
   (2) the administrator of the coordinated licensure information system shall promptly notify the new home state of any actions taken under subsection (a)(3).

(c) Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another party state as described in subsection (a)(4) must be enforced in the other party state:
   (1) by a court of competent jurisdiction; and
   (2) according to the practice and procedure of the court applicable to subpoenas issued in proceedings pending before the court.

The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

Sec. 2. (a) If adverse action is taken by the home state against a nurse's multistate license, the nurse's multistate licensure privilege to practice in all other party states must be deactivated until all encumbrances have been removed from the multistate license.

(b) All home state disciplinary orders that impose adverse
action against a nurse's multistate license must include a statement
that the nurse's multistate licensure privilege is deactivated in all
party states during the pendency of the order.

Sec. 3. (a) This compact does not override a party state's
decision that participation in an alternative program may be used
in lieu of adverse action.

(b) In the case of a party state decision described in subsection
(a), the home state licensing board shall deactivate the multistate
licensure privilege under the multistate license of the nurse for the
duration of the nurse's participation in the alternative program.

Chapter 6. Coordinated Licensure Information System and
Exchange of Information

Sec. 1. (a) All party states shall participate in a coordinated
licensure information system of all licensed nurses.

(b) The coordinated licensure information system must include
information submitted by party states:
(1) concerning the licensure and disciplinary history of each
nurse; and
(2) to assist in the coordination of nurse licensure and
enforcement.

Sec. 2. The commission, in consultation with the administrator
of the coordinated licensure information system, shall formulate
necessary and proper procedures for the identification, collection,
and exchange of information under this compact.

Sec. 3. All licensing boards shall promptly report to the
coordinated licensure information system any:
(1) adverse action;
(2) current significant investigative information;
(3) denials of applications and reasons for the denials; and
(4) nurse participation in alternative programs known to the
licensing board, regardless of whether the participation is
considered to be nonpublic or confidential under state law.

Sec. 4. Current significant investigative information and
participation in nonpublic or confidential alternative programs
must be transmitted through the coordinated licensure information
system only to party state licensing boards.

Sec. 5. Notwithstanding any other law, all party state licensing
boards contributing information to the coordinated licensure
information system may designate information that may not be
shared with nonparty states or disclosed to other entities or
individuals without the express permission of the contributing
state.

SB 436—LS 6515/DI 77
Sec. 6. Any personally identifiable information obtained from the coordinated licensure information system by a party state licensing board must not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

Sec. 7. Information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information must also be expunged from the coordinated licensure information system.

Sec. 8. The compact administrator of each party state shall furnish a uniform data set to the compact administrator of each other party state, which must include, at a minimum, the following:

1. Identifying information.
2. Licensure data.

Sec. 2. This compact does not waive sovereign immunity.

Sec. 3. (a) Each party state has and is limited to one (1) administrator. 10. Matters specifically exempted from disclosure by federal or state statute.

Sec. 7. (a) If a meeting or part of a meeting is closed under
section 6 of this chapter, the commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision.

(b) The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons for the actions, including a description of the views expressed.

(c) All documents considered in connection with an action must be identified in the minutes of the meeting.

(b) The commission may also levy on and collect an annual assessment from each party state to cover the cost of the commission's operations, activities, and staff in the commission's annual budget as approved each year. The aggregate annual assessment amount, if any, must be allocated based on a formula determined by the commission by promulgation of a rule that is binding on all party states.

(c) The commission shall not:

(1) incur an obligation of any kind before securing funds adequate to meet the obligation; or

(2) pledge the credit of any party state, except by and with the authority of, the party state.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission are subject to the audit and accounting procedures
established under the commission's bylaws. However, all receipts
and disbursements of funds handled by the commission must be
audited annually by a certified or licensed public accountant, and
the report of the audit must be included in and be part of the
annual report of the commission.

Sec. 12. (a) The administrators, officers, executive director,
employees, and representatives of the commission are immune
from suit and liability, either personally or in their official
capacity, for any claim for damage to or loss of property, personal
injury, or another civil liability caused by or arising out of an
actual or alleged act, error, or omission that occurred, or that the
person against whom the claim is made had a reasonable basis for
believing occurred within the scope of commission employment,
duties, or responsibilities.

(b) Subsection (a) does not protect an administrator, officer,
executive director, employee, or representative of the commission

commission employment, duties, or responsibilities, or that the
person against whom the claim is made had a reasonable basis for
believing occurred within the scope of commission employment,
duties, or responsibilities.

(d) Subsection (c) does not do the following:

(1) Prohibit the administrator, officer, executive director,
employee, or representative of the commission from retaining
that person's own counsel.

(2) Require the commission to defend the administrator,
officer, executive director, employee, or representative of the
commission if the actual or alleged act, error, or omission
resulted from that person's intentional, willful, or wanton
misconduct.

(e) The commission shall indemnify and hold harmless an
administrator, officer, executive director, employee, or
representative of the commission for the amount of any settlement
or judgment obtained against that person arising out of an actual
or alleged act, error, or omission that occurred within the scope of
commission employment, duties, or responsibilities, or that the
person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities.

(f) Subsection (e) does not require the commission to indemnify or hold harmless an administrator, officer, executive director, employee, or representative of the commission if the actual or alleged act, error, or omission resulted from the intentional, willful, or wanton misconduct of that person.

Chapter 8. Rulemaking

Sec. 1. The commission shall exercise the commission's rulemaking powers according to the criteria set forth in, and the rules adopted under, this chapter. Rules and amendments are binding as of the date specified in each rule or amendment and have the same force and effect as provisions of this compact.

Sec. 2. Rules or amendments to the rules must be adopted at a regular or special meeting of the commission.

Sec. 3. Before promulgation and adoption of a final rule by the commission, and at least sixty (60) days before the meeting at which the rule will be considered and voted on is held, the commission shall file a notice of proposed rulemaking:

(1) on the Internet web site of the commission; and
(2) on the Internet web site of each licensing board or in the publication in which each state would otherwise publish proposed administrative rules.

Sec. 4. The notice of proposed rulemaking must include all of the following:

(1) The proposed time, date, and location of the meeting at which the rule will be considered and voted on.
(2) The text of the proposed rule or amendment and the reason for the proposed rule.
(3) A request for comments on the proposed rule from any interested person.
(4) The manner in which an interested person may submit:
   (A) notice to the commission of the interested person's intention to attend the public hearing; and
   (B) written comments.

Sec. 5. (a) Before adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions, and arguments.
(b) Submitted information and documents described in subsection (a) must be made available to the public.

Sec. 6. (a) The commission shall grant an opportunity for a public hearing before the commission adopts a rule or amendment.
(b) The commission shall publish the place, time, and date of the scheduled public hearing.

(c) A public hearing must be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing. All hearings must be recorded and a copy of the record must be made available to the public upon request.

(d) This section does not require a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.

(e) If no one appears at a public hearing, the commission may proceed with promulgation of the proposed rule.

Sec. 7. (a) Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

(b) The commission shall, by majority vote of all administrators, take final action on the proposed rule and determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

Sec. 8. (a) For purposes of this section, an emergency rule is a rule that must be adopted immediately to do at least one (1) of the following:

(1) Meet an imminent threat to public health, safety, or welfare.

(2) Prevent a loss of commission or party state funds.

(3) Meet a deadline for the promulgation of an administrative rule that is required by federal law or rule.

(b) Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing. However, the usual rulemaking procedures provided in this compact and in this chapter must be retroactively applied to the rule as soon as reasonably possible, and in no event later than ninety (90) days after the effective date of the rule.

Sec. 9. (a) The commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors.

(b) Public notice of any revisions must be posted on the Internet web site of the commission. A revision is subject to challenge by any person for thirty (30) days after posting. A revision may be
challenged only on grounds that the revision results in a material change to a rule. A challenge must be made in writing and delivered to the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

Chapter 9. Oversight, Dispute Resolution, and Enforcement
Sec. 1. Each party state shall enforce this compact and take all actions necessary and appropriate to effectuate this compact's purposes and intent.

Sec. 2. The commission:
(1) is entitled to receive service of process in a proceeding that may affect the powers, responsibilities, or actions of the commission; and
(2) has standing to intervene in a proceeding described in subdivision (1) for all purposes.

Failure to provide service of process in a proceeding to the commission renders a judgment or order void as to the commission, this compact, or promulgated rules.

Sec. 3. If the commission determines that a party state has defaulted in the performance of the party state's obligations or responsibilities under this compact or the promulgated rules, the commission shall:
(1) provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default, or another action to be taken by the commission; and
(2) provide remedial training and specific technical assistance regarding the default.

Sec. 4. (a) If a state in default fails to cure the default, the defaulting state's membership in this compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination.
(b) A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

Sec. 5. Termination of membership in this compact must be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board and each of the party states.

SB 436—LS 6515/DI 77
Sec. 6. A state whose membership in this compact has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

Sec. 7. The commission does not bear any costs related to a state that is found to be in default or whose membership in this compact has been terminated, unless agreed upon in writing between the commission and the defaulting state.

Sec. 8. The defaulting state may appeal the action of the commission by petitioning the United States District Court for the District of Columbia or the federal district in which the commission has the commission's principal offices. The prevailing party must be awarded all costs of the litigation, including reasonable attorney's fees.

Sec. 9. (a) Upon request by a party state, the commission shall attempt to resolve disputes related to this compact that arise among party states and between party and nonparty states.

(b) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.

(c) If the commission cannot resolve disputes among party states arising under this compact:

(1) the party states may submit the issues in dispute to an arbitration panel, which must be comprised of individuals appointed by the compact administrator in each of the affected party states and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute; and

(2) the decision of a majority of the arbitrators is final and binding.

Sec. 10. (a) The commission, in the reasonable exercise of the commission's discretion, shall enforce the provisions and rules of this compact.

(b) By majority vote, the commission may initiate legal action in the United States District Court for the District of Columbia or the federal district in which the commission has the commission's principal offices against a party state that is in default to enforce compliance with the provisions of this compact and the commission's promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party must be awarded all
costs of the litigation, including reasonable attorney's fees.

(c) The remedies described in this section are not the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

Chapter 10. Withdrawal and Amendment

Sec. 1. (a) Any party state may withdraw from this compact by enacting a statute repealing the compact. A party state's withdrawal does not take effect until six (6) months after enactment of the repealing statute.

(b) A party state's withdrawal or termination does not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring before the effective date of the withdrawal or termination.

(c) This compact does not invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this compact.

(d) This compact may be amended by the party states. An amendment to this compact is not effective and binding on the party states until the amendment is enacted into the laws of all party states.

(e) Representatives of nonparty states to this compact must be invited to participate in the activities of the commission, on a nonvoting basis, before the adoption of this compact by all states.

Chapter 11. Construction and Severability

Sec. 1. This compact must be liberally construed so as to effectuate the purposes of the compact. The provisions of this compact are severable, and if any phrase, clause, sentence, or provision of the compact is declared to be contrary to the constitution of any party state or of the United States, or if the applicability of the compact to any government, agency, person, or circumstance is held invalid, the validity of the remainder of the compact and the applicability of the compact to any government, agency, person, or circumstance is not affected.

Sec. 2. If this compact is held to be contrary to the constitution of any party state, the compact remains in full force and effect as to the:

(1) remaining party states; and

(2) party state affected;

as to all severable matters.

Sec. 3. This compact takes effect on July 1, 2019.

SB 436—LS 6515/DI 77
